Human Biocultural Diversity

Loyola University Chicago

Course Catalog

Run Date: 04/01/2016 Run Time: 11:35:41

College of Arts and Sciences - Philosophy - Subject: Bioethics

BIET 105(3) Course ID:012891 15-JUN-2014

Enrollment Requirements for students admitted to Loyola University for Fall 2012 or later: UCSF 137. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Biology, Department of Chemistry, Department of Environmental Science, Department of Physics, Bioinformatics, Forensic Science or Neuroscience.

This course examines the history of the concept of the biological race, the emergence of scientific racism, and modern human interpopulational biological diversity from an evolutionary perspective.

Outcome: Students will recognize that modern humans are the product of ongoing biological evolution and that humans have, and are adapted to, a primary ecological niche which may render us maladapted to our modern **Components:** Lecture(In person)

BIET 106(3) Course ID:012892 Sex, Science, and Anthropological Inquiry

Enrollment Requirement for students admitted to Loyola University for Fall 2012 or later: UCSF 137. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Biology, Department of Chemistry, Department of Environmental Science, Department of Physics, Bioinformatics, Forensic Science or Neuroscience.

15-JUN-2014

01-AUG-2012

This course examines the issues of sex and gender within physical/biological anthropology.

Outcome: Students will be able to demonstrate understanding of human genetics, patterns of human heredity, the mechanisms of biological evolution, the nature/nurture debate, primate taxonomy and behavior, and early human fossil evidence and interpretation.
Components: Lecture(In person)

Course Equivalents: WOST 106, WSGS 106, ANTH 106 Attributes: Tier 2 Scientific Knowledge Room Requirements: Electronic Classroom(1)

BIET 126(3)

BIET 164(3)

Science, Technology and Society

This course serves as a broad introduction to the study of science and technology from a distinctively sociological perspective and includes a strong bioethical component. This course examines issues of how scientific knowledge and technologies are created and constructed, the relationship between science and technological development and how both science and technology affect and have an impact on our daily lives.

Outcome: Students will exhibit knowledge of a method of social inquiry for following science and technology through society and will be able to apply this inquiry method to the social construction of scientific knowledge and scientific ethics, technology and technological ethics, environment and environmental ethics, and genetic technologies and bioethics.

College of Arts and Sciences - Physics - Subject: Physics

Course ID:005879 23-JUN-2011 PHYS 310(3) Optics Prerequisites: PHYS 126 & PHYS 301 Corequisite: PHYS 310L Electromagnetic nature of light, geometrical optics, polarization, Fresnel relations, interference, Fraunhofer and Fresnel diffraction, Fourier optics, lasers, and holography. Outcome: Students will gain knowledge of the principles of classical and modern optics, the roll of optics in the development of quantum mechanics and its applications to modern technology. Components: Lecture(In person) Requirement Group: Corequisite for PHYS 310: PHYS 310L. Prerequisite: PHYS 235 and PHYS 301. Restricted to Physics major Room Requirements: Electronic Classroom(1) PHYS 310L(1) Course ID:011237 05-MAY-2009 Optics Lab Prerequisites: PHYS 126 or its equivalent, Co-requisite PHYS 310. Students will learn to use various optical components, instruments, techniques, and applications. This course complements PHYS 310, which is a co-requisite or a prerequisite. Outcome: Students should get a deeper understanding of the material covered in PHYS 310 (Geometrical and wave optics) by experimentally verifying many of the concepts covered in that course. Students will also learn to recognize various components and develop confidence in using them. Components: Laboratory(In person) Room Requirements: Lab - Physics(1) 29-JUN-2012 Course ID:005880 PHYS 314(3) Theoretical Mechanics I Prerequisites: MATH 264, PHYS 126 and PHYS 301 Newtonian particle dynamics, conservation theorems, oscillations, gravitation, generalized coordinates, Lagrange and Hamilton formalisms. Outcome: Students will gain understanding of analytical and numerical methods of mechanics, understanding of principles in dynamics, and experience in applying formalisms of Lagrange and Hamilton to mechanics in preparation for other areas of physics and engineering. Lecture(In person) Components: Requirement Group: Prerequisite: MATH 264, PHYS 126, and PHYS 301 Room Requirements: Electronic Classroom(1) Course ID:005881 PHYS 315(3) 29-JUN-2012 Theoretical Mechanics II Prerequisite: PHYS 314 This course is a continuation of Physics 314 and covers dynamics of system of particles, moving coordinates, rigid body dynamics, systems of oscillators, motion in a central force field, relativity. Outcome: Students will gain understanding of analytical and numerical methods of mechanics, and of the laws of dynamics and their applications. Components: Lecture(In person) Requirement Group: Prerequisite: PHYS 314 Room Requirements: Electronic Classroom(1) PHYS 328(3) Course ID:005882 22-OCT-2012 Department Consent Required Thermal Phys & Stat Mechanics Prerequisites: PHYS 235 and PHYS 301 This course examines the fundamental concepts of temperature, entropy, and thermodynamic equilibrium, the first and second law, engines, the third law, and Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Outcome: Students will learn to compare thermodynamical versus statistical characterizations of macroscopic systems with applications ranging from analyzing Fermi gases and black body radiation to information theory. Components: Lecture Requirement Group: Prerequisite: PHYS 235 and PHYS 301 Room Requirements: Electronic Classroom(1)

| Correge of Arts and Scrences - Finysics - Subject. Finysics | |
|---|----|
| PHYS 338(1) Course ID:005872 15-JUN-2013 Intermediate Physics Laboratory Prerequisite: PHYS 237. Restricted to Physics Majors | |
| Laboratories involve learning software, interfacing and areas of applied physics. | |
| Outcome: Students will gain an understanding of elements of real measurements through signal processing error estimation, equipment choice, and design. Components: Laboratory(In person) Requirement Group: Prerequisite: PHYS 237. Restricted to Physics Majors Room Requirements: Lab - Physics(1) | з, |
| PHYS 351(3) Course ID:005883 30-JUN-2011 Electricity and Magnetism I Prerequisite: PHYS 235, 301 & MATH 264 | |
| Electrostatics and magnetostatics in a vacuum as well as in linear media, and an introduction to electrodynamics. | |
| Outcome: Students will gain an understanding of mathematical methods of electrodynamics, of static electricity and magnetism including Coulomb's, Gauss', Ampere's, and Faraday's laws and their applicat: and of solutions of Laplace's and Maxwell's equations. Components: Discussion, Lecture(In person) Requirement Group: Prerequisite: PHYS 235, PHYS 301 and MATH 264. Restricted to Physics, Biophysics, Room Requirements: Electronic Classroom(1) | |
| | |
| <pre>PHYS 352(3) Course ID:005884 22-OCT-2012 Electricity and Magnetism II Prerequisite: PHYS 351. Introduction to electrodynamics and the special theory of relativity. Outcome: Students will gain an understanding of electromagnetic field energy and momentum, Maxwell's equations and their applications including electromagnetic radiation and emission, involving retarded potentials and Lorentz covariance. Components: Lecture Requirement Group: Prerequisite: PHYS 351 Room Requirements: Electronic Classroom(1)</pre> | |
| PHYS 361(3) Course ID:005885 23-JUN-2011 Quantum Mechanics I Prerequisites: PHYS 235 & PHYS 301 23-JUN-2011 | |
| Non-relativistic quantum mechanics. | |
| Outcome: Students will understand and use separation of variables, finite polynomials, and matrix algebraic solve the Schroedinger equation, explain microscopic structure of matter, and describe philosophical interpretations of quantum mechanics. Components: Discussion(In person), Lecture(In person) Requirement Group: Prerequisite: PHYS 235 & 301. Restricted to Physics and Theoretical Physics/Appl Room Requirements: Lab - Chemistry(1), Electronic Classroom(1) | |
| PHYS 362(3)Course ID:01210930-JUN-2011Quantum Mechanics IIPrerequisites: PHYS 361 | |
| Continuation of PHYS 361. Emphasis of angular momentum, approximation methods, time evolution, quantum theory of radiation, scattering theory and selected topics. | n |
| Outcome: Students will understand and use separation of variables, algebraic approach to representation angular momentum. They will be able to compute scattering cross-sections of identical and non-identical particles. Components: Discussion(In person), Lecture(In person) Promutement Croups, Dreportion: DMAS 261 | |

04-MAY-2009

01-APR-2011

PLSC 309(3) Course ID:005971 01-APR-2011

Course ID:005974

Socialism

A survey of Marxist and post-Marxist socialist thought.

Outcome:

Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major socialist political theorists and their critics, and to reflect on the significance of socialist political theory in promoting a more just society. Components: Lecture Attributes: Polish Studies Room Requirements: General Classroom(1)

PLSC 310B(3) Course ID:011226

Catholic Political Thought

A survey of classic and contemporary political thinkers in the Roman Catholic tradition. The problems examined include religious pluralism, moral decay, natural law, distributive justice, political obligation, war, and peace. Components: Lecture(In person)

Room Requirements: Electronic Classroom(1)

PLSC 312(3) Feminist Theory

(WOST 318) A survey of classical and contemporary feminist political theory.

Outcome:

Students will learn to interpret and evaluate the assumptions and principles guiding the writings of influential feminist political theorists and their critics, and to reflect on the significance of feminist political theory in promoting a more just society

Components:LectureCourse Equivalents:WOST 318, WSGS 318Attributes:Women & Gender StudiesRoom Requirements:General Classroom(1)

PLSC 313(3) Course ID:005975 15-MAR-2006 Resistance and Obligation

This course examines normative arguments about the source of political obligation and the right to resist government through various means, both violent and nonviolent.

Outcome: Students will be able to explain and assess critically various arguments about the duty to obey and the right to disobey government.

Components: Lecture Room Requirements: General Classroom(1)

PLSC 314(3)

Liberalism

A survey of classical and contemporary political theorists in the liberal tradition.

Course ID:005976

Outcome:

Students will learn to interpret and evaluate the assumptions and principles guiding the writings of major liberal political theorists and their critics, and to reflect on the significance of liberal political theory in promoting a more just society.

Components: Lecture Room Requirements: General Classroom(1)

PLSC 316(3)

Politics of Genocide

Course ID:013103

15-JUN-2015

15-MAR-2006

This course analyzes the politics surrounding genocide, war crimes and crimes against humanity in contemporary times. The primary focus is on occurrences since the end of the Cold War, including the former Yugoslavia, Rwanda, Sudan and the Democratic Republic of the Congo.

Outcomes: Students will be able to demonstrate an understanding of genocide and other massive human rights violations, along with the role of the international community in preventing future atrocities.
Components: Lecture(In person)

15-MAR-2006 PLSC 520(3) Course ID:006097 Seminar: Comparative Politics This course examines an important, contemporary area of research in comparative politics. Outcome: Students will master a specific body of literature and conduct research in a specific area in comparative politics. Components: Seminar Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) PLSC 521(3) Course ID:006098 15-MAR-2006 Sem Western European Politics This course examines contemporary politics in Western European countries. Outcome: Students will understand political and policy developments in Western Europe, as well as the structures of the European Union and the North Atlantic Treaty Organization. Components: Seminar Room Requirements: General Classroom(1) PLSC 522(3) Course ID:006099 15-MAR-2006 Comparative Political Elites This course examines politics with a focus on elites and leadership. Outcome: Students will understand the study of political elites and their role in the political system, including their role in the development of ideology and political organizations. Seminar Components: Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) PLSC 523(3) Course ID:006100 28-APR-2009 The Politics of Income Distribution This course explores the domestic and international sources of cross-national variance in income inequality, poverty and government redistribution throughout the world, with special reference to the role of the public sector. Outcome: Students will master the literature and conduct research on income inequality in the economically developed countries. Components: Seminar Requirement Group: Restricted to Graduate School students. **Room Requirements:** General Classroom(1) PLSC 531(3) Course TD:006101 15-MAR-2006 Sem: International Politics This course examines various research topics in international politics. Outcome: Students will master a particular body of work or conduct research in a specific area of international politics. Components: Seminar Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) PLSC 532(3) Course ID:006102 15-MAR-2006 Soviet/Post-Soviet Foreign Pol This course examines the foreign policies of the Soviet Union and the post-Soviet states. Outcome: Students will understand the formulation and application Soviet and post-Soviet foreign policies. Components: Seminar Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) PLSC 533(3) Course ID:006103 15-MAR-2006 U.S. National Security This course examines the U.S. security establishment and the national security process. Outcome: Students will understand how US security policy is made, including the defense budget, US force structure, intelligence, covert operations, and the role of Congress. Components: Seminar

18-SEP-2013

PSYC 304(3)
Statistics
Prerequisite: PSYC 101

This course is an introduction to fundamentals of statistical analysis in psychology..

Course ID:006163

Outcome: Students will demonstrate the ability to analyze data, interpret the results of research using basic statistical methods, and understand the conceptual foundation, appropriate use, and limitations of these statistical methods.
Components: Lecture(In person)

Attributes:Human ServicesRequirement Group:Prerequisite: PSYC 101Room Requirements:General Classroom(1)

PSYC 306(3)Course ID:00616525-NOV-2014Research Methods in PsycPrerequisite: PSYC 304.

Logic and theory of the scientific method. Basic principles of scientific research methodologies employed in approaching major problem areas in psychology. This class is writing intensive.

Outcomes:

Students will demonstrate knowledge and skills necessary to formulate research questions and hypotheses, develop research designs, operationalize variables and gather data in an ethical manner, choose appropriate statistical methods for analyzing data, interpret results of statistical analyses, write a scientific paper in APA style, and critically evaluate research.

| Components: | Lecture(In person) | | |
|--------------------|-------------------------------|--|--|

| Room Requirements: | General Classroom(1) | | |

Course ID:006167 29-JUN-2012

PSYC 307(3) Psychology of Language Prerequisite: PSYC 101

Analysis of language as symbol-behavior specific to humans, language structure and competence, language performance, and the neurophysiological basis of language. Methods for investigating language processing, acquisition, bilingualism, and language disorders will be considered.

Outcomes:

Students will demonstrate understanding of major theories, research methodologies, and empirical knowledge in the study of language.

Components:Lecture(In person)Requirement Group:Prerequisite: PSYC 101Room Requirements:General Classroom(1)

PSYC 310(3) Course ID:006168 29-JUN-2012

Lab in Program Evaluation

Prerequisite: PSYC 306. PSYC 275 is also recommended.

Special attention is given to the fundamental skills needed to evaluate human service programs including research methodology and research diplomacy. The strengths and weaknesses of several evaluation strategies will be discussed in terms of scientific validity, ethical constraints, and political acceptability. Outcomes:

Students apply their developing evaluation skills in a class project and present the data in a written report.

|------|--------|------------------|-------------|

Lab in Psychobiology Prerequisites: PSYC 306, and either PSYC 240 or 305.

Introduction to the structures and functions of vertebrate nervous systems, how these systems compute and process information; laboratory experience with concepts and methods in the neurophysiological study of the bases of perception and other behaviors. Hearing is used as an example.

Outcomes:

Students will learn the concepts of basic neurophysiology and the theory of signal detectability, and have experience applying the logic and formulation of neurophysiological theories of perception.
Components: Laboratory
Course Equivalents: BIOL 313

Attributes:NeuroscienceRequirement Group:Prerequisite: PSYC 306 and either PSYC 240 or PSYC 305Room Requirements:Lab - Theater(1)

PSYC 314(3) Course ID:006172 29-JUN-2012 Lab in Exper Psych:Cognition Prerequisites: PSYC 250 and 306.

Laboratory demonstrations, experiments, and microcomputer applications in the area of human cognition. Topics vary, but include learning, memory, thinking and language processing..

Outcomes:

Students gain skills and experience in experimental design, measurement, statistical analyses, and report writing as they relate to research on human cognition.

Components:LaboratoryAttributes:NeuroscienceRequirement Group:Prerequisite: PSYC 306 and PSYC 250Room Requirements:Lab - Theater(1)

PSYC 315(3) Course ID:006173 29-JUN-2012

Prerequisite: PSYC 306; PSYC 331 or 338 is recommended.

Topics include: theory of psychological testing and assessment; historical context and related legal and ethical considerations; basics of test construction and evaluation, including reliability, validity, and standardization; and common measures of personality, attitudes, and ability and their psychometric properties.

Outcomes:

Lab:Tests & Measurements

Students will learn to demonstrate proficiency with psychological testing terminology and concepts.
Components: Laboratory
Requirement Group: Prerequisite: PSYC 306
Room Requirements: Lab - Theater(1)

PSYC 316(3) Course ID:006174 29-JUN-2012 Lab in Exper Psych:Sens & Perc

Prerequisites: PSYC 306 and either 240 or 305.

Laboratory demonstrations, experiments, and microcomputer applications to the psychophysical and physiological study of sensory systems. The course stresses the research methods and quantitative measures that are used in characterizing sensory processes, especially visual and auditory systems.

Outcomes:

 Students gain skills and experience in experimental design, measurement, statistical analyses, and report writing as they relate to research in sensory processes.

 Components:
 Laboratory

 Attributes:
 Neuroscience

Human Rights: View from Rome Enrollment is restricted to Rome Center Students Only.

Theory, actuality and application of select human rights issues in the Mediterranean region as viewed from the perspective of Rome. This course includes 24 hours of required practical engagement with the local community which will result in unique first-hand experience of the actualities of Roman human rights.

Outcomes: Students will demonstrate knowledge of contemporary principles of moral philosophy and current social issues within Italy and the Mediterranean region affecting human rights. Students will also demonstrate self-reflection, anchored in the service-learning experience.

Room Requirements: General Classroom(1) Course ID:006477 15-MAR-2006 SOCL 404(3) Department Consent Required Sociological Perspectives II Faculty will discuss their intellectual biographies and work that is of current interest to them. Outcome: Students will gain familiarity with the range of substantive, theoretical and methodical concerns of the department;s faculty. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) SOCL 405(3) Course ID:006478 15-MAR-2006 Department Consent Required History Sociological Thought This course looks at the intellectual roots and expressions of the foundations of sociological theory in the 19th and early 20th century. Outcome: Students will gain familiarity with the classical texts in sociological theory that established some of the basic perspectives, issues and debates that inform contemporary social theory and research. Lecture Components: Room Requirements: General Classroom(1) SOCL 406(3) Course ID:006479 15-MAR-2006 Department Consent Required Modern Sociological Theory This course examines some of the dominant perspectives and trends of modern social theory. Outcome: Students will develop familiarity with the primary sources that represent current trends in modern and postmodern theories. Components: Lecture Requirement Group: Restricted to Graduate School students. **Room Requirements:** General Classroom(1) SOCL 410(3) Course ID:006480 15-MAR-2006 Department Consent Required Logic of Sociological Inquiry This course explores the structures of sociological research, analyses, and explanations. Several major types of data collection will be examined and evaluated. Outcome: Students will be able to formulate sociological problems, understand the relationship between problem formulation and data collection, measurement and analyses and develop the capacity to utilize different social scientific methods. Components: Lecture Requirement Group: Restricted to Graduate School students. **Room Requirements:** General Classroom(1) SOCL 412(3) Course ID:006481 15-MAR-2006 Department Consent Required Qual Meth in Social Research This course is an introduction to the major qualitative methods of social inquiry and the ethical issues raised by qualitative research. Outcome: Students learn the skills of participant observation, interviewing, historical analysis, building theory from qualitative data, coding and content analysis. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1)

College of Arts and Sciences - Sociology - Subject: Sociology SOCL 413(3) Course ID:006482 15-MAR-2006 Department Consent Required Sociological Practicum The class examines theoretical issues and past research relating to a particular social topic and then designs and completes a collective research project. Topics vary. Outcome: Students gain facility with research design and group research practices. Components: Lecture Room Requirements: General Classroom(1) SOCL 414(3) Course ID:006483 15-MAR-2006 Department Consent Required Statistical Methods Analysis I After a review of bivariate regression and cross-tabular analysis, the course provides an extended treatment of the general linear model. Topics include model construction, interpretation of results, partitioning of variance, tests of statistical significance and interactions. Outcome: Students will be able to employ general linear models in original research and critically evaluate existing empirical research. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) Course ID:006484 15-MAR-2006 SOCL 415(3) Department Consent Required Statis Methods of Analysis II The course extends the applications of the general linear model to topics including path analysis, logistic regression, factor analysis and spatial and cluster analysis. Outcome: Student will: understand the techniques with enough clarity to recognize when they are appropriate research tools; gain sufficient expertise to apply the techniques to moderately complex research problems; be able critically review the relevant literature. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) SOCL 418(3) Course ID:006485 15-MAR-2006 Department Consent Required Demography This course examines the basic techniques used to assemble, analyze, and present demographic information. It also examines U.S. and world demographic trends and the causes and consequences of such demographic change. Outcome: Students will gain an in-depth knowledge of demographic trends and an understanding of the sources, limitations, and advantages of various types of demographic data. Components: Lecture Room Requirements: General Classroom(1) SOCL 421(3) Course ID:006486 15-MAR-2006 Department Consent Required Theories Social Change The course will critically appraise major theories of social change and examine different methodologies on both the macro- and micro-sociological levels. Outcome: Students will gain a working knowledge of the major theoretical and methodological issues in the field. Components: Lecture Room Requirements: General Classroom(1) SOCL 423(3) Course ID:006487 15-MAR-2006 Department Consent Required Social Movements This course will use case studies of contemporary social movements to examine collective efforts to promote social or cultural change. Outcome: Students will be able to apply major theoretical perspectives on social movements to a variety of historical cases. They will gain an understanding of the recursive relationship between empirical research and theory development. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1)

College of Arts and Sciences - Sociology - Subject: Sociology

SOCL 435(3) Course ID:006494 15-MAR-2006 Department Consent Required Adult Development and Aging The older adult population and adult development is examined from social and cultural perspectives. Outcome: Studies will develop a knowledge of gerontological theories and research which pertain to the family, the community, political life, the economy, work and retirement, religious life, and other social institutions. Components: Lecture Room Requirements: General Classroom(1) SOCL 438(3) Course ID:006495 15-MAR-2006 Department Consent Required The Family This course explores families, their changing internal structures, and their roles in contemporary societies. Outcome: Students will develop an understanding of the household division of labor, mothering, the shifting character of marriage, the paid and unpaid work of care, dual career families, single parent households, racial/ethnic families, adoption, blended families, welfare policies, families in the class structure, and global issues. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) SOCL 439(3) Course ID:006496 15-MAR-2006 Department Consent Required Community Change Contemporary communities are examined from a sociological perspective. Both geographic communities and communities of interest are studied. Outcome: Students gain an understanding of how research can be used to facilitate social change in community settings; and an awareness of how community organizations, informal networks, and broader social forces shape the character and sustainability of particular communities. Components: Lecture Room Requirements: General Classroom(1) Course ID:006497 15-MAR-2006 SOCL 440(3) Department Consent Required Organizations & Org Change This course examines the structures and processes that typify contemporary organizations, with particular attention to how organizations change. Outcome: Students will be able to apply sociological methods to analyze organizations, and will develop an understanding of bureaucracy and alternative structures; the effect of organizational structure on administrators, workers, and clients; and how organizations are affected by their social environment. Components: Lecture Room Requirements: General Classroom(1) SOCL 441(3) Course ID:006498 15-MAR-2006 Department Consent Required Sociology of Religion This course studies the relationship between religion and society, and explores central topics in the sociology of religion. Outcome: Students will learn to define and explain religious organizations, beliefs, and practices as distinctly social phenomena, and understand how social processes both shape the form and content of religious life and in turn are shaped by them. Lecture Components: Room Requirements: General Classroom(1) SOCL 442(3) Course ID:006499 15-MAR-2006 Department Consent Required Religious Conflict & Change This course will explore the complex reciprocal relationship between religion and historical processes of social change. Outcome: Students will be able to analyze historical instances of religious conflict and change in the U.S. and other regions of the world. They will gain an understanding of how religion both affects and is affected by historical, political, and social change. Lecture Components:

College of Arts and Sciences - Sociology - Subject: Sociology

SOCL 446(3) Course ID:006500 15-MAR-2006 Department Consent Required Knowledge, Power & Expertise This course focuses on the relationship between knowledge, expertise and power in societies and how this relationship has consequences for the structure of knowledge and the organization of society. Outcome: Students will be able to demonstrate a sociological understanding of the construction of knowledge and the organization of authority and expertise Components: Lecture Room Requirements: General Classroom(1) SOCL 447(3) Course ID:006501 15-MAR-2006 Department Consent Required Sociology of Culture This course will examine the relationship between social phenomena and cultural expressions, and the various ways sociologists have conceived of those relationships. Outcome: Students will learn to apply sociological theories and methods to an analysis of cultural fields and understand the diversity of contemporary cultural objects and expressions, and how they are produced and used in social action. Lecture Components: Room Requirements: General Classroom(1) Course ID:006502 15-MAR-2006 SOCL 448(3) Department Consent Required Technology & Material Culture This course will serve as an introduction to the sociology of things, most notably the sociology of technology, design and the built environment. Outcome: Students will develop an understanding of both cultural, constructivist and political-economic approaches to the construction of technology and artifacts, and of a variety of theoretical approaches to the study of their impact and audience-response. Components: Lecture Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1) SOCL 452(3) Course ID:006503 15-MAR-2006 Department Consent Required Complex Organizations Formal organizations treated comparatively and systematically as major components of modern social organization are featured. Outcome: Students will develop an understanding of leading theoretical traditions, historical and cross-national variation, organization-environment relations, and selected internal processes in the field of complex organizations. Components: Lecture Room Requirements: General Classroom(1) SOCL 453(3) Course ID:006504 15-MAR-2006 Department Consent Required Occupations and Professions This course focuses on the structure of paid work in modern society, and its relationship to unpaid work and to self-employment. Special attention is given to the role of skills and knowledge in the structuring of work. Outcome: Students will develop an understanding of how both macro and micro factors structure work; from capitalism, industrialism, gender, race and globalization to workplace interaction and culture. Components: Lecture Room Requirements: General Classroom(1) 15-MAR-2006 SOCL 461(3) Course ID:006505 Department Consent Required Race & Ethnicity This course explores the construction, meaning, uses and consequences of racial and ethnic identity in American society over time. Outcome: Students will understand the role of migration and immigration on the construction of identity; analyze prejudice, discrimination, and inter-group conflict; and explore how social movements have and are changing these group relationships. Components: Lecture Requirement Group: Restricted to Graduate School students.

| Introduction to Christian Ethics Introduction to Christian Ethics is a core course that explores the major sources, methods, and insights of Christian social and theological ethics. Particular attention is given to Roman Catholic thought. The course will concentrate on the foundational sources in Christian ethics and examine the moral significance of major theological themes and affirmations. |
| Outcomes: Students will identify the major sources of Christian ethics (Scripture, Church tradition, philosophy, the social and human sciences, and human experience), and gain practice in identifying how different thinkers use, interpret, and prioritize these sources. Components: Lecture(In person) Attributes: Ethics, Bioethics Room Requirements: Electronic Classroom(1) |
| THEO 186(3)Course ID:01223215-JUN-2013Introduction to Religious EthicsEthicsReligious Ethics explores fundamental moral sources and methods in Christian ethics in dialogue with the ethical understandings of at least one other religious tradition, and with special attention to Roman Catholic thought. In doing so, it explores moral issues faced by individuals and communities from theological perspectives, particularly mindful of how the economic, political and cultural structures in a religiously plural world affect those issues. |
| Outcomes: In this course, students will explore and compare the ethical understandings of Christianity and at least one other religious tradition. With respect to each tradition, students will learn about the foundational sources, doctrines and questions that guide its ethical thinking. Components: Lecture(In person) |

requirement for students admitted to Loyola prior to Fall 2012. This course explores the revelatory manner in which the divine comes to unique presence and expression among African peoples throughout human history. It will examine the religious experiences and traditions of: Africa's ancient Nile valley civilizations, long recognized as cradling the world's spiritual and philosophical wisdom and as influencing the formative development of Judaism, Christianity, and Islam. Outcomes: Students will demonstrate their knowledge of African peoples' religious experiences within their various historical and cultural contexts. Components: Lecture(In person) Attributes: Tier 2 Theological Knowledge, African Studies and the African Diaspora, Black World Studies, Interreligious and Interfaith Studies **Room Requirements:** Electronic Classroom(1) THEO 278(3) Course TD:006884 01-AUG-2012 Women and Religion Requirement: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012. This course will study the role of women in at least one (if not more) of the major world religious traditions. Outcomes: Students will be able to demonstrate understanding of the influence of religion on gender roles, and how women in the contemporary world are reinterpreting their religious traditions. Components: Lecture(In person) Course Equivalents: WSGS 278, WOST 278 CORE PRE-2012 Theological and Religious Studies, Tier 2 Theological Knowledge, Women & Attributes: Gender Studies **Room Requirements:** Electronic Classroom(1) THEO 279(3) Course ID:006885 15-JUN-2014 Roman Catholicism Requirement: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012. This course provides an introduction to Roman Catholicism. Outcomes: Students will be able to demonstrate understanding of the most important Roman Catholic beliefs, the historical evolution of Roman Catholicism, the key Roman Catholic concepts, terms, values, and religious practices, and the main lines of current Roman Catholic identity in today's world. Lecture(In person) Components: Course Equivalents: CATH 179 CORE PRE-2012 Theological and Religious Studies, Tier 2 Theological Knowledge, Catholic Attributes: Studies, Rome Studies **Room Requirements:** Electronic Classroom(1) THEO 280(3) Course ID:006886 01-AUG-2012 Theo & Interdisciplinary Std Components: Lecture Course Equivalents: THEO 180 CORE PRE-2012 Theological and Religious Studies Attributes: Room Requirements: General Classroom(1) 05-JUN-2014 THEO 281(3) Course ID:006887 Christianity Through Time Requirement: THEO 100 or THEO 107 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012. The course is a survey course in the history of Christian thought. Not a course in Church history, this is a course whose primary goal is to investigate the major interactions between Christian thought and practice and the cultures that it has been a part of in its two thousand year history. Outcomes: Students will learn to analyze and interpret religious texts, beliefs and practices using standard scholarly methods and tools. Components: Lecture(In person) Course Equivalents: CATH 181 Attributes: CORE PRE-2012 Theological and Religious Studies, Tier 2 Theological Knowledge, Catholic

Public Policy Practicum Enrollment is restricted to students in MUAPP program.

This is a capstone course for the masters degree in public policy or urban affairs. The goal is to gain experience working as a team conducting a policy analysis or program evaluation project. Faculty will determine the topic for the course, often based on a real world client's interests.

Outcome: Students apply concepts and skills developed in the MUAPP curriculum to a real world problem; work with a client and stakeholders; create a research report appropriate to an applied environment. Components: Seminar(In person)

Room Requirements: Electronic Classroom(1)

MPP 606(3)Course ID:01287315-JUN-2014Instructor Consent RequiredChildlaw Legislation and Policy ClinicPermission of instructor is required prior to registration.

Students work on a legislative project under faculty supervision that involves: developing an advocacy and coalition building strategy, drafting bills, developing fact sheets and summaries for pending legislative in Springfield, visiting the state legislature to observe and participate in the process of policy advocacy regarding a child or family law issue.

Outcomes: Develop skills necessary in policy advocacy: critiquing legislation, assessing a legislative problem, researching the problem, proposing solutions, and drafting materials and presenting information orally.

WSGS 101(3) Course ID:011191 Introduction to Women's Studies and Gender Studies

This is an introduction to the interdisciplinary fields of both Women's Studies and Gender Studies which explore the ways that sex and gender manifest themselves in social, cultural, and political arenas. It draws upon scholarship in women's studies, masculinities studies, and queer studies which themselves draw upon a variety of intellectual perspectives, including historical, psychological, rhetorical, sociological, literary, and biological.

Outcome: students will demonstrate understanding of historical developments, key concepts, theories and themes in women's studies and gender studies, the impact that gender can have on social, cultural, political and economic material conditions.

| Components: | Lecture(In person) | | |

WSGS 106(3) Course ID:010604 01-AUG-2012

Sex, Science & Anthropology

This course examines the issues of sex and gender within physical/biological anthropology.

Outcome: Students will be able to demonstrate understanding of human genetics, patterns of human heredity, the mechanisms of biological evolution, the nature/nurture debate, primate taxonomy and behavior, and early human fossil evidence and interpretation.
Components: Lecture(In person)

Course Equivalents: WOST 106, BIET 106, ANTH 106 Room Requirements: General Classroom(1)

WSGS 123(3) Course ID:010605 01-AUG-2012

Popular Culture & Mass Media

Requirement: ANTH 100, PLSC 102, PSYC 100 or SOCL 101 for students admitted to Loyola University for Fall 2012 or later. No requirement for students admitted to Loyola prior to Fall 2012 or those with a declared major or minor in the Department of Anthropology, Department of Criminal Justice, Department of Economics, Department of Psychology, Department of Political Science, the Department of Sociology, Human Services or the School of Nursing.

This course examines the connections between the media of mass communication and multiple forms of popular art and culture. Topics considered include the social, political and cultural organization of mass communication and its impact on values, expectations, and life styles of contemporary society.

| WSGS 210(3) Men, Women and Work | Course ID:010613 | 10-DEC-2007 |

This course looks at the nature of work through the lens of gender. It considers how male and female labor force participation has changed over time. It examines the ways working families are transformed when women combine employment with domestic responsibilities and child care, or when men;s jobs no longer provide a family wage.

Outcome: Students learn how gender has been and remains a fundamental organizational principle in the workplace and the labor force.

M04(9) Course ID:011264 29-JUN-2012

K-3 Student Teaching Prerequisites: CIEP M03

This course is the culminating experience of the Early Childhood Special Education Teacher Education Program. Candidates are placed in a classroom with an experienced cooperating teacher.

Outcome: In addition to their planning and teaching responsibilities, student teachers also are expected to reflect on their experience, develop their planning and instructional skills, and compile a teaching portfolio.

Techniques of Teaching in Secondary Schools

This course introduces the secondary education student to the realities of the public, urban middle or high school setting. It provides students with an initial experience to the actual teaching of adolescents within their major discipline. Supervision and feedback are provided by the university course instructor and a subject specific high school teacher in the field. Students enroll concurrently in CIEP M14.

Outcome: Students will be able to demonstrate principles of lesson design in a specific subject content, create instruction designed for students in a diverse urban setting, analyze and apply ;best practices; pedagogy, and develop a personal philosophy of teaching.

Components:LectureRequirement Group:Illinois Basic Skills Test PrerequisiteRoom Requirements:General Classroom(1)

CIEP M14(1) Course ID:001721 11-MAY-2010 Secondary School Teaching in Context: Clinical Seminar

Directed classroom experiences that consist of a minimum of 30 clinical hours that include lesson planning and teaching related to the course content. The seminar meets only during the clinical field experience. Co-register with CIEP M13.

Course Outcome: Students will be able to observe exemplary practices in selected urban high school classrooms, create and deliver instruction to students in that setting, and analyze and reflect on those experiences.

Components:LectureRequirement Group:Illinois Basic Skills Test PrerequisiteRoom Requirements:Electronic Classroom(1)

| CIEP M23(3) Course ID:001726 22-FEB-2010 Introduction to Teaching and General Elementary Methods |
|---|
| This course is designed to help students examine the complex role of the teacher and to understand principles and methods of curriculum, instruction, and evaluation in the elementary school. |
| Outcome: Students will be able to design an instructional plan, analyze the characteristics of an effective classroom, and articulate major challenges facing school systems. |
| Components: Lecture Requirement Group: Illinois Basic Skills Test Prerequisite Room Requirements: General Classroom(1) |
| CIEP M24(1) Course ID:001727 01-JAN-1901 |
| Practice in Instruction-Elem Components: Laboratory |
| CIEP M30(3) Course ID:001728 01-JAN-2007 Academic Assessments and Interventions |
| In this course, students will learn about psychological and educational assessment with a special focus on issues related to non-biased assessment and the link between assessment and intervention in the instructional consultative process. |
| Outcome: Students will develop and administer appropriate intervention plans related to the instructional needs of students with disabilities. |
| Components: Lecture Room Requirements: General Classroom(1) |
| CIEP M31(3) Course ID:001729 01-JAN-2007 |
| Behavior Interventions: Assessments and Supports The purpose of this course is to develop the students; ability to provide positive support to learners whose behavior(s) impedes their learning or the learning of others. |
| Outcome: The student will be able to plan and develop school wide group and individual supports, make adjustments as needed to IEPS, and assess the on-going progress being made by students for whom behavioral |
| interventions have been planned Components: Lecture |
| Room Requirements: General Classroom(1) |
| CIEP M32(3) Course ID:001730 02-JUN-2006 Exceptional Learner II |
| This course provides in depth understanding of the ethical and professional issues related to collaborative service provision for children with disabilities. |
| Outcome: By viewing ability within the broader context of human diversity, students will learn instructional strategies that foster a student's meaningful participation in heterogeneous classrooms as well as the larger communities in which they live. |
| Components: Laboratory(In person) Room Requirements: General Classroom(1) |
| CIEP M33(3) Course ID:001731 24-APR-2007 Accessing and Adapting the General Education Curriculum |
| Within this course, candidates explore methods to adapt the general education curriculum in order to meet the individual needs of students with disabilities. Issues of differentiating student needs, long and short-term planning, technology-assisted learning, and vocational and social skills curricula will be addressed along with behaviors and modification related to low incidence exceptionalities. |
| Outcome: Candidates will demonstrate an understanding of adapting the general education curriculum for students with special needs through the design of a universalized lesson plan, a synthesis of relevant literature, and researching assistive technology. |

CIEP 337(3)

Course ID:011274 Assessment of Infants and Preschool Children

22-MAY-2009

The purpose of this course is to provide an overview of assessment practices for young children and their families.

Outcome: Candidates will become familiar with developmental screening, diagnostic evaluations, play-based assessment, curriculum/criterion-referenced assessments (including work sampling and portfolios), and ecological assessment of social and family contexts.

Components: Lecture(In person)

Room Requirements: Electronic Classroom(1)

CIEP 338(3) Course ID:009682 15-MAR-2006

The purpose of this course is to investigate the factors that influence how students access, process, store, retrieve, and make use of experiences to (1) increase their understanding of academic content; (2) establish appropriate personal-social interactions; and (3) make transitions into the broader community.

Outcome: Students will apply theory strengthened by documented research findings to (1) design lesson plans consistent with the students; developmental levels and ways of knowing (learning styles) and (2) develop strategies to assess students; learning. Lecture(In person)

Run Date: 04/01/2016 Run Time: 11:35:41

School of Education - Curr, Instr, & Educ Psyc - Subject: Curriculum, Instructn & EdPsyc

CIEP 452(3) Course ID:009820 15-MAR-2006

This is an advanced course in literacy research and theory, providing historical, cognitive, cultural, and technological foundations for teaching reading and related communication systems in elementary, middle, and secondary schools, and to adult populations of developing readers. The purpose of this course is to acquaint students with the most current research and theory that underlie best practices in literacy education.

Outcome: Students will be able to explain, compare, contrast, and critique the major theories and research related to the psychological, sociological, and linguistic foundations of reading and writing processes and instruction.

Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1)

CIEP 453(3) Course ID:009819 04-APR-2011

Emergent Literacy

This course focuses on the most current understanding of young children;s literacy acquisition and development and on the best instructional strategies for teaching young children to read and write successfully.

Outcome: Students will be able to apply their understanding of current literacy acquisition research to make appropriate instructional decisions when teaching young children to read and write.

Lecture(In person) Components: Requirement Group: Restricted to M.Ed. Reading Specialist and Reading Teacher students (READ-MED & READ-CERT) **Room Requirements:** Electronic Classroom(1)

CIEP 454(3) Course ID:009818 25-JAN-2012

Writing as Literacy

This course introduces the concept of writing as literacy. It is designed to acquaint students with the most current understanding of writing in a variety of expressive and informative genres.

Outcome: Students will demonstrate an understanding of the idea of writers who can then be teachers of writing

Lecture(In person) Components: Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1)

CIEP 456(3)

Course ID:009817 Leadership in Reading/Professional Development

Leadership and learning center this advanced practicum around opportunities for K-12 reading specialist candidate;s professional literacy development and training based on school literacy goals, personal literacy interests, and ways to teach others about complex literacy processes.

15-MAR-2006

15-MAR-2006

Outcome: Students will be able to plan, implement, and evaluate professional development activities at their grade, school, and/or district level as well as support their own professional development and assist other teachers in identifying, planning, and implementing personal professional development plans.

Lecture(In person) Components: Room Requirements: Electronic Classroom(1)

CIEP 457(3)

Course ID:009816

Implementing Technology: Organizational Strategies & Professional Development

Implementing technology innovations at the district, school, and classroom level requires that school personnel possess the knowledge and skills to work successfully as change agents. This course is a study of the models and strategies most commonly used in educational settings to facilitate organizational change and implement innovations.

Outcome: Students will be able to identify organizational change models and strategies that can be used in educational settings to assist in the development of school technology programs.

Lecture(In person) Components:

Requirement Group: Restricted to Graduate Education Students.

Course ID:010822 15-MAY-2008 CIEP 470(3) Principles of Instructional Design

Through the development of an instructional product candidates will engage in the activities associated with each step of the ADDIE process. Emphasis is placed on a cognitive model of learning; however, other models/theories of learning may be applied. In addition candidates will use theories of instructional motivation, principles of instruction as well as instructional strategies relevant to the type of kowledge and cognitive domain level of their product to in order to enhance learning.

Outcome: Candidates will use the steps involved in systematic instructional design process. Analysis, Design, Development, Implementation, Evaluation (ADDIE) process to develop an instructional product. Components: Lecture(In person)

Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1)

CIEP 471(3)

Course ID:009928 02-JUN-2006 Theoretical Foundations for Teaching ESL/Bilingual

This course introduces students to an understanding of the historical, political, philosophical, socioeconomic, and educational issues that led to the formation of ESL/BE (English as a Second Language/Bilingual Education) educational policies, programs, and services for culturally diverse populations. Aspects of language learning and acquisition theories as they pertain to ESL/BE and contemporary issues in linguistic and cultural revitalization through bilingual education will be included.

Course Outcomes:

Learners will demonstrate knowledge of the theoretical, philosophical, political and socio-economic foundations of instruction for linguistic minority students. Learners will demonstrate understanding of the relationship between the political, historical and legal Components: Lecture(In person)

Requirement Group: Restricted to Graduate Education Students.

Room Requirements: Electronic Classroom(1)

CIEP 472(3) Course ID:009929 02-JUN-2006

Methods/Materials for Teaching ESL

This course focuses on methods and materials for teaching ELLS within bilingual and ESL classrooms. Program models, methodologies, and strategies will be presented. Methods and materials for literacy development and content area instruction in the native language will be discussed. Methods of teaching listening, speaking, reading, and writing in the second language will be presented along with methods of integrating the teaching of language and academic content.

Course Outcomes: Learners will demonstrate familiarity with theories and instructional methodologies and strategies for teaching ELLs. Learners will identify and use resources, including books, computer based information, professional Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1)

CIEP 473(3)

Course ID:009930 Instructional Leadership for Multicultural Schools

02-JUN-2006

This course will focus on teaching children from diverse linguistic, cultural, and racial backgrounds within the context of a society faced with issues of poverty, discrimination, racism, and sexism. Learning and communication styles and the impact of teacher expectation on student achievement will be examined. The relationship between identity construction and school success will be explored. The effective utilization of the rich resources represented by the home and the community will be investigated.

Course Outcomes:

Learners will demonstrate ability to think critically about issues of race, class, culture, and gender, and to analyze how these issues play themselves out in our schools and school systems and formulate questions regarding the role of culture in shaping human behavior.

Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1)

Course Catalog CIEP 500(3) Course ID:011874 20-JAN-2011 Child Development and Cognition The purpose of this course is to provide students with a graduate level overview of the key theories of development and cognition. Students will learn about critical issues in development and learning that they will encounter and need to deal with working as psychologists in applied settings. Throughout the course students will be asked to analyze, reflect upon, and critique how theories learned may apply, or not, to those learners whose primary culture may be different from the majority through case studies, online discussion boards (or in-class discussions), and a critical analysis of comparative field site visits. Lecture(Wide World Web) Components: Requirement Group: Restricted to Graduate Education Students. CIEP 501(3) Course ID:001900 15-MAR-2006 Exceptional Lrnr II The purpose of this course is to provide in depth understanding of ethical, professional, and collaborative service provision for children with special needs within a multicultural framework. Outcome: Students will understand the current trends in service delivery for students with low incidence/significant disabilities (e.g., partial participation, natural proportions) and the need to expand curriculum, instruction, and assessment strategies to meet individual learning styles and instructional needs. Components: Lecture Requirement Group: Restricted to Graduate Education Students. **Room Requirements:** Electronic Classroom(1) CIEP 503(3) Course ID:012011 16-MAY-2011 Culturally Relevant Literature for Children & Adolescents Course participants will become familiar with the resources, authors, illustrators, and texts available in the United States, specifically focusing on literature written by and for Latinos, African Americans, Asian Americans, and Native Americans. Outcomes: Participants will be able to use and share literature with children and adolescents in culturally and linguistically diverse classrooms. Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Smart Board - EDUC(1) CIEP 504(3) Course ID:012012 16-MAY-2011 Applied Linguistics for Teachers The course will emphasize the role of language in teaching and learning, including implications for effective instruction in culturally and linguistically diverse classrooms. Outcomes: Participants will use knowledge of linguistics to design curriculum plans and classroom practices to support the language development of students. Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1) CIEP 505(3) Course ID:012566 24-JAN-2013 Literacy and Numeracy for Principals Prerequisites: ELPS 481; CIEP 442 The purpose of this course is to introduce principal candidates to the foundations of numeracy and literacy development across PK ¿ 12 settings. Included will be a focus on the development of knowledge and skills required to provide leadership in PK ; 12. Outcomes: Through the internship experience candidates will gain an understanding of the leadership behaviors that promote just and equitable educational services to all members of the learning community. Components: Lecture(In person) Requirement Group: Prerequisite: ELPS 481 and CIEP 442

Room Requirements: Electronic Classroom(1)

CIEP 521(3) Course ID:010825 15-MAY-2008 Curriculum Theory and Research The purpose of this course is to advance students' understanding of contemporary theoretical underpinnings of curriculum. In this course, the curriculum is understood as both the explicit planned course of learning put before students, and the hidden or latent experiences that students encounter in school settings. Outcome: Students will pose a problem, a question or a series of questions that would address the problem, collect data to facilitate answering some or all of the questions, analyze the data, and produce a series of reports on the state of their research. Components: Lecture(In person) **Requirement Group:** Restricted to Graduate Education Students. **Room Requirements:** Electronic Classroom(1) CIEP 522(3) Course ID:010826 15-MAY-2008 Curriculum Policy This course offers an examination of the intersections of curriculum politics, policy, and practice. The goal is to increase students' understanding of the complexities of inform, shape, and implement curriculum policy. Outcome: Students will examine research-based, standards-based, market-driven, and professionally led models of curriculum reform, looking at their underlying theories of change, implementation challenges, and the critiques leveled against the approaches Lecture(In person) Components: Requirement Group: Restricted to Graduate Education Students. **Room Requirements:** Electronic Classroom(1) CIEP 523(3) Course ID:010827 15-MAY-2008 School Improvement and Curriculum Reform This course develops candidates' understandings of school improvement and curriculum reform. It examines school reform models, school-based reform strategies, and curriculum reform strategies intended to improve teaching and learning in schools. Outcome: Candidates will assess current research on school and curriculum reform and its implications for improving student learning and achievement. Components: Lecture(In person) **Requirement Group:** Restricted to Graduate Education Students. **Room Requirements:** Electronic Classroom(1) CIEP 524(3) Course ID:010828 15-MAY-2008 Privilege, Power, and Possibilities: Multicultural Education in Urban Classrooms This course examines multicultural education through a critical lens. Readings focus on the role of ethnicity in the development of curriculum over time. The course emphasizes multicultural/multilingual curricula and culturally and linguistically responsive instructional and assessment techniques. Outcome: This course has been designed for graduate students who want to explore frameworks, materials, and strategies that will help them translate the philosophy of multicultural education into effective educational practice with learners of any age, level or background. Lecture(In person) Components: Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1) CIEP 525(3) 15-JUN-2014 Course ID:012860 Department Consent Required Leading for Social Justice in School Psychology Enrollment is restricted to Graduate Education students. This course provides an overview of individual, school-level, and national perspectives on leadership and systems change in school psychology, with an emphasis on strategies for bringing about socially just changes in schools. Outcome: The intended outcome is the enhanced ability to lead for social justice as a school psychologist.

School of Education - Counseling Psychology - Subject: Counseling Psychology

20-DEC-2012 CPSY 426(3) Course ID:002302 Group Counseling: Theory and Practice Prerequisite: CPSY 423. This course provides an overview of prevailing group counseling models and theories and their application to conducting group counseling in various settings. Outcome: Students will be able to understand and integrate various properties of groups into a meaningful theoretical framework, and develop and demonstrate an understanding of group process through participation in a group experience. Components: Lecture Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1) CPSY 427(3) Course ID:010986 01-JAN-2014 Clinical Mental Health Counseling The first purpose is to conduct an in-depth examination of Community Counseling as a helping profession. Specifically, we will examine (a) historical, philosophical, and social/political influences on contemporary community counseling practices, (b) professional organizations to which community counselors belong, the settings in which they practice, and the roles of community counselors in those settings, (c) credentialing and licensing for community counseling practice, and (d) knowledge bases critical to community counseling. The second purpose is to provide students with an opportunity to develop their skills at presenting to professional audiences. Thus, students will have an opportunity to develop in-depth knowledge on a substantive topic relevant to the work of community counselors and present their findings to the class. Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1) CPSY 428(3) Course ID:010987 15-JUN-2016 Foundations of Professional School Counseling This course is designed to introduce students to the philosophy of a comprehensive, developmental K-12 school-counseling program and to the national standards for school counseling. The emphasis will be on school counselors; roles and functions as defined by the American School Counselor Association. OUTCOME STATEMENT: Participants in this course will be able to develop and implement a school counseling program according to the American School Counselors Association; s National Standards and the Illinois Developmental Counseling Model. Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1) CPSY 431(3) Course ID:012637 08-AUG-2013 Advanced School Counseling & Consultation Prerequisite: CPSY 428 Intro to School Counseling This course introduces the attitudes, concepts, and skills of indirect service delivery through consultation. This course is designed to produce consultation and organizational development skills that will facilitate effective professional school counseling practice. Reflection on the practice of consultation is also developed, as well as competencies for practice within a multiculturally diverse society.

Outcomes: Students will understanding of the school culture and organizational and contextual factors to the consultation/intervention process and understand the consultative process.

ELPS 406(3) Course ID:013162 01-MAY-2015 Foundations Using Data for Continuous Improvement

This is the foundation course for data-based decision making within the principal preparation series. This graduate course provides skill sets to help future school leaders and administrators to access, interpret, and encourage the use of data to improve student educational outcomes.

Restricted to graduate students in the School of Education.

Students will learn how to organize, analyze, and synthesize data in order to interpret student and teacher assessment results.

Components:Lecture(In person)Requirement Group:Restricted to Graduate Education Students.Room Requirements:Electronic Classroom(1)

ELPS 407(3) Cou Leading for Data-based Decision Making

Course ID:013165 15-JUN-2015

The primary purpose of this course is to provide candidates with the knowledge, skills, and dispositions necessary to assist school-aged students to accomplish educational outcomes.

Restricted to graduate students in the School of Education.

Outcomes: Candidates will examine data and the use of data in making decisions on several different levels. Components: Lecture(In person) Requirement Group: Restricted to Graduate Education Students. Room Requirements: Electronic Classroom(1)

ELPS 410(3) Course ID:002492 18-DEC-2012

Sociology of Education

This is a basic graduate level course in the sociology of education. It emphasizes the the major themes in sociology of education drawing on major sociological theories such as structural functionalism, symbolic interactionism, and conflict theory. The major emphasis is on the determinants of school achievement including socioeconomic structure, family structures, school composition and peer influences. These factors are examined within the context of providing for societal equality of educational opportunity.

Outcomes: Students will be expected to provide analytic essays on the above topics(as well as others) demonstrating critical thinking and the use of appropriate research materials.

Components: Lecture

Requirement Group: Restricted to Graduate Education Students.

Room Requirements: General Classroom(1)

ELPS 412(3) Course ID:002493 18-DEC-2012 Sociological Analysis of Urban Education and Policy

This course provides a special perspective on sociological and educational issues related to the dynamics of urban education.Building on the 410 course,this course examines in a more in-depth fashion the underlying sociological assumptions that are utilized to research and explain such issues as minority student achievement,the nature of school contextual effects,the changing role of teaching in urban environments, and specific social policies such as desegregation ,curriculum innovations,the creation of ""magnet schools"" and other issues.

Outcomes: Students will be expected to formulate a research question related to a unique issue/problem/policy of urban education and to either develop a major research paper around the topic ,or conduct a small scale empirical or ethnographic study on the issue. Appropriate research reviews are

ELPS 465(3)

Course ID:002527 18-DEC-2012 School Finance and Budgeting

Study of the processes by which financial decisions are made by local school districts, with special emphasis on the roles of building and district administrators in the budgeting process. Included are the techniques of constructing and managing the budget, while addressing issues of need and equity in the school community. Also covered are the sources of school revenues and an introduction to the process and principles of facility planning. This course is intended as a first course in school finance. Outcome: Students will be able to demonstrate understanding of and competencies pertinent to the school leader; s role in building, maintaining, and managing the school budget while addressing issues of need and

equity. Components: Lecture Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1)

ELPS 467(3) Course ID:002528 18-DEC-2012

School Law & Government

The legal basis of public education in the United States, with special reference to Illinois major court decisions and statutes are reviewed through the lens of the district-wide leader. Due process, special education, multi-cultural differences, school board relations and other related legal matters will be examined through the role of the superintendent. This course is intended as a second course for a law minor.

Outcome: Students will be able to demonstrate an understanding of due process, special education, multi-cultural differences, school board relations and other related school legal matters through the lens of the superintendent.

Components: Lecture Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1)

Problems in Finance and Business Management

ELPS 468(3) Course ID:002529 18-DEC-2012

Examination of the social justice issues inherent in developing and evaluating state and local school finance policy, including equity, adequacy, the social and ethical issues associated with allocating resources and relating school costs to achievement. Selected problems of school district financial management are studied, including central office organization, financial management and control, securing and accounting for grant funds, debt financing, insurance and support services management. This course covers topics especially pertinent to district administrators and superintendents.

Outcome: Students will be able to demonstrate understanding of and competencies relevant to district level leadership in financial management, control, and allocation through the lens of social justice issues. Components: Lecture

Requirement Group: Restricted to Graduate Education Students. **Room Requirements:** General Classroom(1)

RMTD 405(3) Course ID:006383 20-DEC-2012

This course explores the discipline and practice of qualitative research through the examination of various theories, genres and components of this form of inquiry.

Outcome: Students will be able to recognize and discuss theories and components of qualitative research, to analyze various qualitative studies in terms of design, validity and meaning orally an in written critiques, to conceptualize, design and write a proposal for a small qualitative study, to collect, code and analyze data appropriate to a qualitative study, and to write up a small qualitative study including conceptual framework, research question, methods and collected data.

Educational Evaluation

RMTD 406(3)

The course will focus on the theories, models, strategies and practices that are germane to educational evaluation, including the history of evaluation studies in the social sciences, the various roles of the evaluator in the development and assessment of programs, evaluation theory and social policy.

Outcome: Students will be able to state the purposes, benefits and importance of evaluation research, describe the history and culture associated with evaluation in the US, to read and critique a range of evaluation proposals and reports, to compare and contrast different approaches to evaluation, to develop a proposal for a program evaluation including writing measurable program objectives, planning data collection methods and presenting results to consumers.

RMTD 407(3)

Introduction to Evaluation Theory

This course introduces students to program evaluation theory in the social sciences, including various conceptualizations of evaluation, historical development of the field, purposes of evaluation, and social and political contexts of evaluation practice.

20-DEC-2012

20-DEC-2012

Outcomes: Students will engage major theoretical concepts of the field¿methods, use, values, and practice¿from the perspectives of various evaluation theorists. Throughout course readings, discussion and assignments, students will have the opportunity to critically reflect on understandings of social justice, implicitly and explicitly, evident in the evaluation theories.

Components:Lecture(In person)Requirement Group:Restricted to students in the Graduate School or Graduate School of EducationRoom Requirements:Electronic Classroom(1)

RMTD 410(3)

Writing & Editing for Publication This course covers the fundamentals for writing and editing for journal publication including the conventions of high-quality writing and editing, professional ethics, the use of copy-editing symbols, styles of

publication and the journal-editorial process.

Outcome: Students will be able to edit to completion an entire manuscript, including copy editing, organization of contents and preparation of the manuscript for production. Components: Seminar

Requirement Group: Restricted to Graduate Education Students. Room Requirements: General Classroom(1)

Seminar: Advanced Mixed Methods Prerequisites: RMTD 420, 421

This course explores the theory and practice of mixed methods research in program evaluation and applied social science research.

Outcome: Students will become familiar with selected roots of the contemporary interest in mixed methods research and evaluation, as well as various approaches to mixing research paradigms, purposes, designs, analyses, methods, and so on. Students will develop knowledge for identifying and critiquing mixed method research. They will also be able to develop a mixed methods study.

TLSC 110(1) Course ID:012536 17-JAN-2013

This module (course) introduces teacher candidates (students) to the profession and our program (TLLSC) with a focus on collaborative relationships within and among schools, families, and communities. This module (course) will expose teacher candidates (students) to specific knowledge and skill indicators necessary for educators to embody the dispositions of the profession.

Outcomes: Teacher candidates (students) will reflect on the knowledge, skills, and dispositions of educators with regard to teaching diverse students, the mission of Professionalism in Service of Social Justice, and the connection between research and practice related to collaborative relationships

Components: Lecture(In person)

Bringing Language, Learning & Dev Theory into Practice

In this module, students will observe and learn key principles and stages developmental and learning theories via clinical experiences in birth to grade 12 settings (including infant/toddler, preschool, elementary, middle, and high schools). The primary focus of these experiences is to explore the ways in which physical characteristics, communication skills, cognitive capacities, and social-emotional needs of children be used to understand theory and inform adult-child interaction and developmentally appropriate pedagogical practices in birth to grade 12 settings with both typically and atypically developing children.

Course ID:012537

Outcomes: Through guided observation, students will explore the ways in which social, cultural, and environmental contexts shape the development and cognitive processing at each age, and use this knowledge to inform recommendations for developmentally appropriate adult-child interaction and pedagogical practices with Field Studies(In person) Components:

Community Immersion

This module (course) is designed to engage teacher candidates (students) in an authentic exploration of the inherent relationship between public schools and the surrounding community. Teacher candidates (students) are introduced to the concepts of cultural and social capital as they work in small groups to explore a thematic component of these communities.

Must be registered for TLSC 110 and TLSC 120 concurrently.

Outcomes: Teacher candidates (students) will complete a Community Map Project, which includes a map of community elements, concept map depicting the relationship between elements and resources, narrative analysis of findings, and personal reflection.

Educational Policy For Diverse Students

This module (course) specifically engages teachers in looking at the policy related to diverse students in schools, particularly language policy (affecting ELLs and bilingual students) and special education policy (affecting students with special needs). Candidates will learn the policies, laws and court cases that impact classrooms, see how educational policies are enacted into classroom practice to support students, and make suggestions on continued ways to improve the achievement of students in urban classrooms and schools. Teacher candidates will explain the role of policy in educational practice, including the role of the teacher in advocating for change within the educational institution

TLSC 220(4) Course ID:012543 15-JUN-2013 Individualized Assessment & Instruction for Diverse Students

This module is specifically designed for candidates to appreciate, discern and utilize the individual needs of students to plan instruction and support student achievement. In this module, student achievement is not only conceptualized as academic, but also social, emotional, behavioral, cultural and linguistic; in this way, candidates will explicitly focus on the multifaceted nature of planning for students with special needs and those who have been labeled as ELL. Through the use of case study research to collect individualized, authentic language and literacy assessment with one student, candidates will apply learning to the specific instructional context of a student who qualifies with at least one of the following labels: (a) student with special needs, (b) English language learner, or (c) struggling reader.

Field Studies(In person) Components:

Course ID:012550 17-JAN-2013 Family-Centered Assessment and Intervention in Early Intervention

Infants-Toddlers-EI 1 is the second of two clinically-based modules emphasizing specialized knowledge and skills for working with children from birth to age three in early intervention (EI) and EHS (Early Head Start) settings. This course includes intensive clinical experiences in EI with infants and toddlers with special needs and their families, and is designed to complement Infants-Toddlers-EI 1 (Developmentally Appropriate Practice (DAP) with Infants/Toddlers and their Families) in preparing future teachers to fill the role of an effective early interventionist and infant/toddler specialist.

Outcomes: As a result of this experience which (like I-T-EI 1) includes components related to assessment, intervention, diverse families, and infant/toddler development, students will develop their skills in working directly with families in designing assessment systems and interventions for infants and toddlers with C

TLSC 252(1) Course ID:012699 25-NOV-2013 Department Consent Required Fdns, Settings, and Stds of Effective Early Childhood Educ Pre-requisites: TLSC 220 and successful completion of TLSC sequences: 1, 2 and 3. Enrollment is restricted to Early Childhood Special Education Students. This field-based module provides an introduction to the diverse settings in which children birth-8 are served. Candidates will investigate the interlaced professions of early childhood education and early childhood special education. Outcome: Students will interpret and analyze trends in early care and education. Components: Lecture(In person) Requirement Group: Prerequisite: TLSC 220 Room Requirements: Electronic Classroom(1) TLSC 253(2) Course ID:012700 25-NOV-2013 Department Consent Required Dev Approp Practice Assess & Int for Young Children Sp Needs Pre-requisites: Pre-requisites: TLSC 220 and successful completion of TLSC sequences: 1, 2 and 3. Enrollment is restricted to Early Childhood Special Education Students. This course frames sequence 4 in the TLLSC teacher preparation program. It addresses knowledge and skills in understanding the development of young children with special needs and the implications of that understanding for assessment and intervention in birth to five. Outcomes: Candidates will develop classroom environments, curriculum, and instructional strategies for working with infants, toddlers, and preschoolers, as well as demonstrating mastery of authentic assessments required for IL state credentialing. Lecture(In person) Components: Requirement Group: Prerequisite: TLSC 220 Room Requirements: Electronic Classroom(1) TLSC 260(2) Course ID:012551 17-JAN-2013 Typical and A-Typical Development This module (course) further develops and deepens candidates' (students) understanding and application typical and a-typical development of youth. Candidates use information about human development to develop individualized support plans for students with special needs. Outcomes: Teacher candidates (students) will reflect information related to the ways children develop a-typically and develop a mock individualized support plan for review. Field Studies(In person) Components: Requirement Group: Prerequisite: TLSC 220. Corequisites: TLSC 261, TLSC 262 and TLSC 263. TLSC 260, 261, 262 and 263 mus Room Requirements: Electronic Classroom(1) TLSC 261(2) Course ID:012552 17-JAN-2013 Significant Disabilities and Life Planning This module (course) further develops and deepens candidates' (students) understanding and application of the develop support for people with disabilities. Candidates use information regarding special needs to identify appropriate support and intervention models. Outcomes: Teacher candidates (students) will apply information related to students with significant support needs within individualize education plans. Components: Field Studies(In person) Requirement Group: Prerequisite: TLSC 220 Room Requirements: Electronic Classroom(1) TLSC 262(2) Course ID:012553 17-JAN-2013 Assistive and Adaptive Technology This module (course) further develops and deepens candidates' (students) understanding of support for people

with disabilities. Candidates use information regarding special needs to identify appropriate assistive and adaptive technology supports.

Outcomes: Teacher candidates (students) will apply information related to students with significant support needs when identifying assistive and adaptive technology to be incorporated within individualize education plans.

TLSC 401(2) Course ID:012795 15-APR-2014 Language, Learning & Development Theories in Practice

Students will learn key principles and stages of language acquisition, developmental and learning theories through clinical experiences with children from birth to grade 12. Field experiences provide opportunities to explore ways in which physical characteristics, communication skills, cognitive capacities, and the social-emotional needs of children are used to understand theory and inform adult-child interaction and developmentally appropriate practice.

Outcome: Students will explore the ways in which social, cultural, and environmental contexts shape language, development and cognitive processing at each age, and use this knowledge to inform recommendations for developmentally appropriate adult-child interaction and pedagogical practices with every age range from birth through grade 12.

TLSC 421(2) Course ID:012810 15-JUN-2014 Teaching Science in Elementary Grade Classrooms

This module introduces candidates to the discipline of science, providing them experiences engaging in the teaching and learning of elementary science, and specifically works to help candidates integrate literacy into their science instruction. Candidates develop knowledge and skills needed to teach science through an inquiry approach and integrate literacy into their science teaching.

Outcome: Candidates will set and work towards professional development goals related to science content, science pedagogy, and science assessment. They will compile a portfolio of evidence to show they have worked towards their goals and reflect on how their understanding of science teaching and learning has shifted throughout the module.

Engineering Science - Engineering Science - Subject: Engineering

01-MAY-2015 ENGR 313(3) Course ID:013146 Engineering Systems III Restricted to School of Engineering students. Prerequisite ENGR 312.

This lecture course introduces students to discrete signal processing and linear system identification. Major topics include z transforms, the bilinear transform, the autoregressive moving average with exogenous input (ARMAX) model, frequency selective filters, Least-Squares Method and Maximum Likelihood Method.

Outcomes

Parsimonious estimation of the parameters in a linear system. Components: Lecture(In person) Requirement Group: Prerequisite ENGR 312 Room Requirements: Electronic Classroom(1)

ENGR 321(2) Course ID:013147 15-JUN-2016 Electronic Circuits and Devices Restricted to School of Engineering students. Prerequisites: ENGR 201, PHYS 112K Co-requisite: ENGR 311 & MATH 266

This course introduces students to electrical, magnetic, diode, and transistor circuits. Major topics include nodal and loop analysis; Thevenin's and Norton's Theorems; alternating current steady-state analysis; magnetically coupled networks; and large and small signal analysis of diode and transistor circuits. The classroom has been flipped, which enables students to learn material through video instruction and practice circuit analysis during designated-classroom time.

| Components: | Lecture(Blended) | | | | |
|--------------------|--|--|--|--|--|
| Requirement Group: | Prerequisites: ENGR 201, PHYS 112K Co-requisite: ENGR 311 & MATH 266 | | | | |
| Room Requirements: | Electronic Classroom(1) | | | | |

ENGR 322(3) Course ID:013142 01-MAY-2015 Chemical & Thermal Processes

Restricted to School of Engineering students. Prerequisites: ENGR 321. Co-requisite: ENGR 324L.

This course introduces students to basic chemical and thermal processes, expressed through state-space representation. Major topics include mass balance, energy balance, the First and Second Laws of Thermodynamics, open and closed systems, entropy balance and exergy balance.

Outcomes: 1. Application of mass balance and energy balance to surface water and sustainable architecture problems.

Components: Lecture(In person)

Requirement Group: Prerequisite: ENGR 321 with a minimum grade of C- Co-requisite: ENGR 324L Must be enrolled in the Engr

Room Requirements: Electronic Classroom(1)

ENGR 323(2) Course ID:013148 05-JUN-2015 Digital Electronic & Computer Engineering Restricted to School of Engineering Students. Prerequisites: ENGR 321, ENGR 324L.

This course introduces students to elements of digital electronics and digital computers. Major topics include Boolean algebra, combinatorial logic, sequential logic, arithmetic circuits, computer architecture, micro-architecture, assembly -language programming, and memory systems. Mastering these topics enable students to complete the course project of building a microprocessor.

Outcomes:

Ability to construct and analyze a working microprocessor. **Components:** Lecture(In person) Requirement Group: Prerequisite: ENGR 321 with a minimum grade of C- Co-requisite: ENGR 324L Must be enrolled in the Engr

Room Requirements: Electronic Classroom(1)

ENGR 324(3)Course ID:01314901-MAY-2015MechanicsRestricted to School of Engineering students.Prerequisite: ENGR 311.Co-requisite: ENGR 324L.

This lecture course introduces students to the fundamentals of modeling continuous media. Major topics include stress, strain and constitutive relations; elements of tensor analysis; basic applications of solid and fluid mechanics; and application of conservation laws to control volumes. Outcomes:

1. Application of stress and strain to a wide range of engineering problems.

2. Application of the governing equations of motion and equilibrium of continuous media.

Components: Lecture(In person)

Requirement Group: Prerequisite: ENGR 321 with a minimum grade of C- Co-requisite: ENGR 324L Must be enrolled in the Eng:

Room Requirements: Electronic Classroom(1)

ENGR 324L(1) Course ID:013150 01-MAY-2015 Core Engineering Lab Restricted to School of Engineering students. Prerequisite: ENGR 311. Co-requisite: ENGR 322, ENGR 323, ENGR 324. This lab course enables students to experiment with concepts learned in concurrently taken core engineering courses ENGR 322, ENGR 323 and ENGR 324. Outcomes: Application and analysis of microprocessor, chemical, thermal and mechanics concepts. Laboratory(In person) Components: Requirement Group: Co-req:ENGR 322,323,324 Room Requirements: Electronic Classroom(1) ENGR 325(3) Course ID:013151 01-MAY-2015 Materials Engineering Restricted to School of Engineering students. Prerequisites: ENGR 322, ENGR 323, ENGR 324, ENGR 325L. This lecture course introduces students to the structure, properties, and processing of materials commonly used in engineering applications. Major topics include material structure (bonding, crystalline and non-crystalline structure, imperfections); properties of metals, metal alloys, ceramics and polymers; phase transformation and material failure. Outcomes Selection of an appropriate material for an engineering application Lecture(In person) Components: Requirement Group: Pre-reqUISITES: ENGR 322,323,324/L Room Requirements: Electronic Classroom(1)

Grad Schl at Medical Center - Biomedical Sciences - Subject: Biomedical Sciences

BMSC 499(0 - 2) Course ID:012580 13-FEB-2013 Research Prerequisites: First year PhD students will register for one research rotation in the Fall semester (2 credit hours), and two research rotations in the Spring semester (3 credit hours). Research rotation course for first year students in the Integrated Program in Biomedical Sciences. Outcomes: Research course will provide laboratory experience during the first year of study, expected to culminate in the selection of a dissertation research laboratory and mentor at the end of the first year. Components: Seminar(In person) Requirement Group: Restricted to Graduate School students. Room Requirements: Classroom Not Needed(1) BMSC 600(0) Course ID:001262 29-JUN-2012 Dissertation Supervision Following completion of the required 48 credit hours in the first 2 years, IPBS PhD students maintain registration via BMSC 600. Outcomes: IPBS PhD students will complete their degree work while registered for BMSC 600. FTC-Supervision Components: Course Equivalents: MIIM 600, PIOL 600 Requirement Group: Restricted to Graduate School students. BMSC 610(0) Course ID:001435 15-OCT-2011 Doctoral Study

History of Medicine and Bioethics Lecture(Online) Components: Requirement Group: Restricted to Graduate School students. 12-MAY-2011 BEHP 414(3) Course TD:012006 Moral Theology for Bioethics This course provides an introduction to Catholic moral theology through a historical review of its development and a consideration of key documents, events, arguments and concepts beginning with the scriptural witness of Christ and concluding with the moral teaching of John Paul II as it bears upon contemporary Catholic moral theology. Outcomes: Its goal is to assist in establishing an historical and theoretical foundation for those who are interested in bioethics as it is considered and practiced in the Catholic tradition. Lecture(In person) Components: Room Requirements: Classroom Not Needed(1) BEHP 415(3) Course ID:012007 12-MAY-2011 Catholic Bioethics in Clinical Practice This course offers a topical survey of bioethical issues pertinent to clinical practice in the Catholic context. The United States Conference of Catholic Bishops' document, Ethical and Religious directives for Catholic Health Care Services, 5th Edition, serves as the guiding document of the course. Topics and concepts considered include abortion, contraception, sterilization, nutrition and hydration, withdrawal of life support, care of the dying, cooperation, conscience, human dignity and personhood. Outcomes: This course aims to assist students in establishing a substantive familiarity with the positions and moral reasoning of the Catholic tradition in clinical bioethics through a consideration of Church documents, scholarly texts and articles and formative debates within contemporary Catholic bioethics. Lecture(In person) Components:

Catholic Bioethics and Social Justice

This course involves an historical study of the development of the body of official Catholic Social Teaching (CST) specific to its impact on healthcare delivery in the United States. Current developments in select key social issues and movements are also addressed insofar as those issues and movements influenced healthcare delivery. The pastoral letters of the U.S. Bishops, especially their teachings on healthcare reform, also receive attention. The interface between religious faith and public policy debates is a constant concern throughout the course. Practical strategies for fostering a social justice consciousness in healthcare settings are also considered.

Outcomes: Extensive use of case discussion and analysis will help to develop the participants; understanding of the principles of CST and their application to the healthcare context.

Lecture(In person) Components: Course Equivalents: IPS 655 Room Requirements: Classroom Not Needed(1)

Course ID:012009 12-MAY-2011

Narrative Ethics

BEHP 417(3)

This course will consider a major theoretical framework in bioethics that has emerged as a serious alternative to principle-based bioethics. In this course, students will gain an understanding of what narrative bioethics is, read theoretical texts related to narrative ethics, and also read a variety of narratives that relate to medicine and health care (stories, films, etc). The role of narrative in the ethics consultation process will also be explored.

Outcomes: This course aims to equip students with a sophisticated understanding of narrative and the role it plays in medicine and bioethics.

BEHP 418(3) Course ID:012010 12-MAY-2011 Cultural Competence in Health Care This course introduces the individual, organizational, and structural factors in creating a cultural competent health care system. We will explore the important opportunities and challenges in defining and evaluating cultural competency strategies. The topics cover the role of racial and economic health disparities in the process of care and health outcomes, Cultural and Linguistic Appropriate Standards (CLAS) in health care, self-assessment and evaluation of institutional needs. Outcomes: Knowledge and skills gained in this course can be used to develop an advocacy role for evaluating and promoting cultural competency within a heath care system. Components: Lecture(In person) Course Equivalents: IPS 656 Room Requirements: Classroom Not Needed(1) BEHP 419(3) Course ID:012393 02-MAY-2012 Org Ethics II: Eth Ldrshp for Changing Hlthcare Environment This course examines the theory, role, and elements of leadership that effectively serve non-profit healthcare systems. In particular, the nature of leadership is examined. Questions of leadership style and theories of what constitutes effective leadership are considered. Outcomes: Key focus on communication strategies and methods of organizational change. Seminar(Hybrid) Components: Course Equivalents: IPS 653 BEHP 420(3) Course ID:012394 02-MAY-2012 Bioethics, Biotechnology & Law This class will explore the historical relationship between law and bioethics and examine how law and bioethics come together or may be at odds. Recognize/discuss changing nature of physician-patient relationship, continuing evolution of informed consent, intersection of commerce and science, changing definition of death, growing complexity of reproduction. Outcomes: Resolve dilemmas raised by changing biotechnology. Components: Lecture(Online) Room Requirements: Classroom Not Needed(1) BEHP 421(1 - 3) Course ID:012396 15-APR-2016 Department Consent Required Practicum in Clinical/Research Ethics Prerequisite: BEHP401 Practicum will enable students to work on a project which translates both general and discipline-specific information into clinical ethics/research practice. Student must demonstrate the capacity to utilize knowledge and make evidence-based decisions regarding clinical ethics issues, and exhibit leadership, creativity, and the ability to work well with others. Outcomes: Provide students the opportunity to use knowledge and skills acquired in the academic program in a clinical/research setting. Components: FTC - Doctoral Study(Blended) Room Requirements: Classroom Not Needed(1) BEHP 422(1 - 3) Course ID:012397 15-APR-2016 Department Consent Required Practicum in Organizational/Public Health Ethics Prerequisite: BEHP419 The practicum will enable the student to work on a project which translates both general and discipline-specific information into organizational ethics or public health practice. Students must demonstrate the capacity to utilize knowledge and make evidence-based decisions regarding these topics, and exhibit leadership, creativity, and the ability to work well with others. Outcomes: Goal of the practicum is to provide students the opportunity to use knowledge and skills acquired in the academic program in a professional setting under the direction of a preceptor. Components: FTC - Doctoral Study(Blended)

This course will review and critically examine the professional codes of ethics of a variety of health-related professions: medicine, nursing, dentistry, social work, chaplaincy, risk management, and allied health. We will examine the growth of professionalism as a movement and answer questions related to this topic.

Outcomes: Understand what is a profession, what are professional ethics. Difference between common morality and professional ethics, and difference between applied ethics and professional ethics. We will also discuss whether a pan-professional ethics code is needed for the health care professions.

15-APR-2014 BEHP 428(3) Course ID:012842

Writing skills are an essential form of communication not only between the instructor and students but also among and between the students themselves. Topics covered: Academic Integrity; Grammar; Resource Development/Citation; Clarity/Formality; Development of a Thesis and Writing of a Thesis Statement; Organization and Outlining; Critical Thinking/ Analysis/Reasoning; and Development of a Conclusion.

Outcomes: This course will provide a review of basic writing skills as well help students develop analytical and communication skills that are critical to scholarly writing in the multidisciplinary field of bioethics. Components: Lecture(In person)

Course ID:012843

Room Requirements: Classroom Not Needed(1)

Writing and Scholarship Skills

Pediatric Ethics This course will introduce ethical topics in the areas of pediatric medicine and research. Topics to be addressed may include; decision making, neonatal issues, teens and decisional authority, research with minors. Outcome: Discover aspects of the pediatric population that raise unique concerns, create novel moral environments, and thus require nuanced and sensitive attention to and tools of ethical inquiry. Lecture(In person) Components: Room Requirements: Classroom Not Needed(1) BEHP 430(3) Course ID:013116 15-JUN-2015 Department Consent Required Advanced Clinical Ethics Skills Two-month blended course of online learning and two-day intensive experience on Health Sciences Campus in Maywood. Course provides an opportunity for advanced graduate students to improve and refine clinical ethics skills. Participants will practice consultation skills, evaluate performance of others, and receive feedback from faculty reviewers. Prerequisit: BEHP 410 Ethics Consult Simulation Seminar

Outcome: Students will develop their own portfolio for quality attestation. Components: Seminar(Blended) Requirement Group: Prerequisite: BEHP 410 Room Requirements: Seminar(1)

BEHP 431(3) Course ID:013115 Advanced Topics in Research Ethics: Special Populations

This course will focus on unique ethical issues that arise in research with special populations. Included but not limited to children; women, fetuses, and embryos; prisoners; indigenous and racial/ethnic minority communities; healthy volunteers. Research in emergency and international settings as well as research at the end-of-life will be discussed.

Prerequisite: BEHP 405 Research Ethics, or permission from instructor.

Outcome: Material covered in this course will be relevant for ethicists, IRB members, and clinical investigators.

Components: Lecture(Online) Requirement Group: Prerequisite: BEHP 405 Research Ethics Room Requirements: Classroom Not Needed(1)

26-MAR-2010

IDIM 501(0) 12-MAY-2010 Course ID:011669

Seminar

IDIM 595(0)

IDIM501 is designed to help students stay abreast of current topics in infectious disease and immunology. Students will attend weekly seminars, and are encouraged to interact with invited seminar speakers by asking questions and contributing to group discussions. Upon completion students will have enhanced their understanding of current research.

Outcome: 1. Describe the results or conclusions from a given seminar presentation; 2. Understand how research is advancing knowledge in a given field covered by a representative seminar; 3. Question new data or their interpretation

Components: Seminar(In person)

Course ID:011670 IDIM 502(0 - 5)Special Topics in Infectious Disease and Immunology

IDIM is designed to immerse students in current literature, with new topics chosen each year. Students will read the primary literature and participate in discussion sessions. The course will enhance the ability of the student to critically read and interpret scientific literature in infectious disease and immunology.

Outcome: 1. Critically read and discuss scientific literature in the area covered by the course; 2. Discuss experimental approaches, their limitations, and the conclusions that can be drawn from observed results. Components: Seminar(In person)

Thesis Supervision A major component of the M.S. degree in Infectious Disease and Immunology is the successful completion of a research project integrating basic and clinical science. This course is similar to IDIM 492, except that students are expected to perform at an advanced level in all aspects.

Outcomes: Students will 1) Understand the significance and clearly communicate the research problem. 2) Describe the approaches used and results obtained. 3) Draw conclusions and identify future directions. Components: FTC-Supervision(Independent Study)

Grad Schl at Medical Center - Preventive Med & Epidemiology - Subject: Master of Public Health

 MPBH 411(3)
 Course ID:012212
 01-MAY-2015
 Instructor Consent Required

Prerequisites: The timing of the Capstone project will depend on the student's progress in completing the curricular requirements. Students should complete the program specific classes before registering for the Capstone project.

The MPH degree is a professional degree designed to enhance an individual's public health skills to an advanced level, allowing graduates to pursue careers as practicing public health professionals in leadership positions. Towards that end, students are required to demonstrate the knowledge and skills acquired during the MPH Program and the Capstone project provides the opportunity for students to demonstrate proficiency in public health skills through a written report and oral presentation.

Components:FTC-Supervision(In person)Room Requirements:Classroom Not Needed(1)

MPBH 413(3) Course ID:012704 05-DEC-2013 The Epidemiology of Obesity: An Energy Balance Perspective

This course is a survey course designed to expose MPH and other interested inter-professional students, e.g. nursing and dietetic students, to the multiple domains of the worldwide obesity epidemic. The course will explore determinants, outcomes and public health policy associated with obesity from the perspective of energy balance, i.e. that ultimately all determinants and outcomes of obesity.

Outcomes: Describe the concept of energy balance and how it is related to the development, treatment and prevention of overweight and obesity.

Explain the scope and historical trends of obesity prevalence among children and adults in both the industrialized and developing worlds.

Components: Lecture(In person)

Requirement Group: Public health, and graduate students in Nursing, Social Work, Sociology, and Dietetics **Room Requirements:** Electronic Classroom(1)

Course ID:012879 30-APR-2014

Global Health Policy

MPBH 414(3)

This course is geared towards graduate students in public health, medicine, nursing, and related programs who ideally have some prior training in international health affairs, law, or public policy. Enrollment is not conditioned upon satisfaction of any prerequisites.

This course introduces students to global health policy and focuses particularly on issues of governance, trade, human rights, and social determinants of health. Students reflect upon pressing and emerging issues in global health from the perspective of policy analysts by examining the distinct conceptual frameworks that can be employed to critically examine a global health problem.

This course will include weekly reading assignments, a scientific poster, and a final policy brief. Components: Lecture(Online)

Course ID:013194

Requirement Group: Restricted to Graduate students or students enrolled in the Master of Public Health Room Requirements: Classroom Not Needed(1)

MPBH 416(3)

Introduction to Health Services Research I

This course introduces students to the scope of health services research with an emphasis on primary data collection methods. Addresses the conceptualization and design of health services research including, the qualitative and quantitative approaches, choice and assessment of measures, sampling and instrument design, and ethical considerations.

06-OCT-2015

Outcomes: Determine health services research;s scope. Formulate questions and develop studies using primary data collection approach that are timely and relevant to contemporary organization, financing, and delivery of U.S. public health.

Components: Lecture(Online) Room Requirements: Classroom Not Needed(1)

MPBH 423(3) Course ID:009764 01-JAN-2016 Intermediate Epi Intermediate Epidemiology focuses on analysis of observational data. Students should have completed Introduction to Epidemiology and Biostatistics I prior to enrolling in this course. Components: Lecture(In person) Requirement Group: Restricted to Graduate School students. Room Requirements: General Classroom(1)

ENVS 218(3) Course ID:012715 15-JUN-2014

Biodiversity & Biogeography Prerequisite: ENVS 137 or UCSF 137

This course covers the creation and maintenance of biodiversity across taxonomic, temporal and spatial scales. It will provide an overview of the history of biogeography, increase understanding of the evolutionary processes that create biodiversity, the influence of biodiversity on ecosystem services, and the rapid biodiversity loss resulting from human actions.

Outcome: Students will gain knowledge of and appreciation for the biodiversity of life, its formation through the process of evolution, and the importance of biodiversity to ecosystem function and human welfare. Components: Lecture(In person) Attributes: Tier 2 Scientific Knowledge

Requirement Group: Prerequisite: ENVS 137, BIOL 101 or UCSF 137 Room Requirements: Electronic Classroom(1)

Course ID:012716 01-JAN-2015

Prerequisite: ENVS 137 or UCSF137 for students admitted Fall 2012 or later. Exceptions: Students admitted prior to Fall 2012 or with a declared major in Anthropology, Biology, Chemistry, Environmental Science, Physics, Bioinformatics, Forensic Science or Neuroscience.

This course introduces the properties, functions, and conservation of soil. Topics include belowground ecosystem services, soil biodiversity, biogeochemical cycles, and conservation, human impacts to soils, and the socioeconomic implications of soil degradation. Lectures, laboratory/field soil testing, field trips, and presentations by experts in sustainable soil management are employed.

Students will understand the properties, functions and methods of conservation/remediation of soils, learnComponents:Lecture(In person)Attributes:Tier 2 Scientific KnowledgeRequirement Group:Prerequisite: ENVS 137, BIOL 101 or UCSF 137Room Requirements:Electronic Classroom(1)

ENVS 224(3) Course ID:012717 Climate & Climate Change Prerequisite: ENVS 137 or UCSF 137

This course introduces students to basic principles and knowledge to explain climate change. Students will learn about natural and anthropogenic causes of climate change, the interactions between earth-atmosphere-ocean systems, climate feedback mechanisms, and impacts of climate change on the natural physical environment.

Outcome: Students will develop cognitive and mathematical skills to draw valid, logical conclusions regarding various observed phenomena such as observed changes in the climate system and observed impacts of climate change.

Components:Lecture(In person)Attributes:Tier 2 Scientific KnowledgeRequirement Group:Prerequisite: ENVS 137, BIOL 101 or UCSF 137Room Requirements:Electronic Classroom(1)

Science & Conservation of Freshwater Ecosystems

Focus: Freshwater ecosystems are threatened by water extraction, pollution, invasive species, and many other pressures. This course covers physical, chemical, and biological processes in freshwaters, and the benefits that humans derive from these ecosystems. Major issues for conservation will be covered at global and Great Lakes scales.

Prerequisite: ENVS/UCSF 137

Outcomes: Students will gain understanding of different types of freshwater ecosystems, their functioning and importance for human societies, and the range of pressures they currently face. Components: Lecture(In person) Attributes: Tier 2 Scientific Knowledge Requirement Group: Prerequisite: ENVS 137, BIOL 101 or UCSF 137 Room Requirements: Electronic Classroom(1)

ENVS 238(1) Course ID:012765 02-JAN-2016 Foundations of Environmental Science Lab Prerequisites: ENVS 237 (prerequisite or co-requisite) or CHEM 111 or BIOL 111

A lab course designed to be associated with ENVS 237, this course is designed to introduce all ENVS majors to lab safety, basic lab techniques such as use of balances and microscopes, data analysis, and the application of these techniques to the study of environmental science.

Outcome: Students will understand and demonstrate safe lab practices and learn to use basic lab equipment to take and analyze environmental science data.
Components: Laboratory(In person)

Requirement Group: Prerequisites: ENVS 237 (may be taken as co-requisite) or CHEM 111 or BIOL 111 **Room Requirements:** Lab - Biology(1)

Course ID:012719

ENVS 267(3) Bird Conservation & Ecology Prerequisite: ENVS 237

Environment of China

This engaged-learning course provides an introduction to the theory and practice of avian conservation, ecology and management. Field trips for viewing birds in the wild, observing behavior and collecting data on habitat assessments are highlighted. Students participate in a community service project to gather data for avian conservation and management.

15-JUN-2014

Outcome: Students will become skilled in critical reasoning and some bird monitoring techniques, and demonstrate an understanding of the many facets of bird conservation. Components: Lecture(In person) Attributes: Engaged Learning

Introduction to Epidemiology

Public Health Principles and Practice

Epidemiology is the study of the distribution and determinants of disease in populations and remains the basic science of public health. This methodology is unique to epidemiology, and in some cases, has even been appropriated by other fields. The objective of this course is to familiarize students with the range of tools used to conduct epidemiologic analysis, including design and measures of association. This course will be taught as an online course combined with an intensive interactive session with faculty and students one weekend in Spring.

Components:Laboratory(Online)Requirement Group:Restricted to Juniors and Seniors within IESRoom Requirements:Classroom Not Needed(1)

Course ID:013075 15-JUN-2015

ENVS 319(3) Winter Ecology

Prerequisite: BIOL 265 or ENVS 280 or permission of instructor Students will immerse themselves in the winter environment and learn about habitats on, in, and under snow, both terrestrial and aquatic, organisms that live in these habitats and their physiological, behavioral and morphological adaptations for survival. Students will gain an understanding of research on winter ecosystems.

Outcomes: Students will gain understanding of habitats and organisms present during winter in temperate ecosystems and gain experience with field techniques employed when studying these ecosystems.

ENVS 320(3) Course ID:012751 15-JUN-2015

Conservation Biology Prerequisites: ENVS 280 & 286

Students will learn to apply ecological and evolutionary biological principles to the preservation of wild plant/animal species, and to the preservation/management of ecosystems. Conservation approaches and challenges for all types of ecosystems, will be covered, with emphasis on contemporary threats to biodiversity, including habitat fragmentation, invasive species, and climate change.

Outcome: Students will understand how the science of ecology can be used to address issues in species/ecosystem conservation, and recognize that consideration of human actions is essential to address conservation problems.

Components:Lecture(In person)Requirement Group:Prerequisites: ENVS 280 & 286

ENVS 321(1) Course ID:012732 02-APR-2015 Conservation Biology Lab

Prerequisites: Prerequisite: ENVS 280/286; co-requisite ENVS 320.

Students will apply principles learned in ENVS 320 to conservation problems in the Chicago region and elsewhere, through visits to conservation sites and discuss concerns/initiatives with land managers and policy makers. They will develop skills in species identification, ecosystem delineation and description, and the use of field equipment and methods.

Outcomes: This course will provide practical field and lab experience in population, community and ecosystem conservation. Students will learn how the principles of Conservation Biology are applied, and the associated challenges.

Components:Laboratory(In person)Requirement Group:Prerequisites: ENVS 280, ENVS 286Pre- or Co-requisite: ENVS 320Room Requirements:Lab - Biology(1)

Course ID:012733

ENVS 325(3) Sustainable Agriculture Prerequisites: ENVS 280 or BIOL 265

This course provides an introduction to the environmental, social, and economic implications of sustainable agriculture. Students will learn the origins, major concepts, and current issues of sustainability in agriculture. Ecological concepts and principles applied to manage sustainable food production to support community health and economic justice will be explored.

15-JUN-2014

Outcomes: Students will be able to explain the characteristics of the U.S. agricultural system, the inter-relation among components of sustainable agriculture, and steps necessary to develop a sustainable agricultural system.

Components:Lecture(In person)Attributes:Engaged LearningRequirement Group:Prerequisite: ENVS 280 or BIOL 265Req. Designation:FieldworkRoom Requirements:Electronic Classroom(1)

ENVS 326(3) Course ID:012734 15-JUN-2014 Agroecosystems

Prerequisites for Environmental Science and Environmental Studies majors: ENVS 237 & 238; OR BIOL 102 & 112; ENVS 223 is recommended.

In this hands-on course, students will build knowledge and skills in agriculture and ecology through work in greenhouse, laboratory, classroom, and field settings. Students will build on foundations of Environmental Science and Biology by examining challenges of food production, management decisions, and environmental change facing agroecosystems both locally and abroad.

Outcomes: Students will develop understanding of agricultural systems as related to sustainable practices, develop skills in ecological analysis of these systems, and demonstrate proficiency in communicating Components: Lecture(In person) Requirement Group: ENVS Majors: ENVS 237 & 238; OR BIOL 102 & 112 Room Requirements: Electronic Classroom(1) ENVS 327(3)

Food Systems Analysis Prerequisite: ENVS 237

This course links conceptual and practical considerations of food-system assessment and develop a base of tools for practitioners. It examines major elements of the assessment process: systems thinking and conceptual frameworks; the food system from consumer and producer perspectives; identifying leverage points that might be influenced to affect positive change.

Outcomes: Students will understand inter-relationships among environment, food supply, markets, American diets, and health, learn to analyze assessment methods for food-system sectors, and examine conceptual frameworks for food-system analysis.

Components:Lecture(In person)Requirement Group:Prerequisite: ENVS 237Room Requirements:Electronic Classroom(1)

ENVS 330(3) Course ID:012739 10-MAR-2015 Restoration Ecology

Prerequisites: ENVS 280 & 286

This course provides a theoretical and practical basis for the increasing global efforts to reverse damage caused by humans to ecosystems and species, emphasizing the many perspectives (e.g., ecological, social, political, engineering) that must be considered to develop, implement, and assess restoration projects across a range of ecosystem types.

Outcomes: Students will apply knowledge from ecology and other disciplines to the practice of ecosystem restoration, and learn to integrate information from multiple disciplines, and stakeholder input, to **Components:** Lecture(In person)

Requirement Group: Prerequisites: ENVS 280 & 286 or BIOL 265 & 266; Co-requisite: ENVS 331 Room Requirements: Electronic Classroom(1)

ENVS 331(1) Course ID:012740 10-MAR-2015 Restoration Ecology Lab

Prerequisites: ENVS 280 & 286 or BIOL 265 & 266; Co- or Pre-requisite: ENVS 330

Students will apply principles learned in ENVS 330 to restoration sites in Chicago and beyond. They will visit restoration sites and discuss strategies and initiatives with land managers and policy makers. Students will develop skills in ecological-site description, and in the analytical methods required to determine success of restoration projects.

Outcomes: Students will gain an understanding of how the science of restoration ecology is applied in practical settings and learn methods used in restoration and assessment of actual restoration projects. **Components:** Laboratory(In person) **Requirement Group:** Prerequisites: ENVS 280 & 286 or BIOL 265 & 266; Co or Pre-requisite; ENVS 330

Requirement Group: Prerequisites: ENVS 280 & 286 or BIOL 265 & 266; Co or Pre-requisite: ENVS 330 Room Requirements: Lab - Biology(1)

ENVS 338(3) Course ID:013209 01-JAN-2016 Department Consent Required Environmental Health Policy This course provides an introduction overview of the health consequences associated with climate change and the local, federal, and global response to mitigate these negative health outcomes. During the course students will be expected incorporate course content and develop a realistic response public health plan to climate change for a locality of their choosing.

Outcomes:

Outline fundamental public health concerns that have been associated with climate change.
 Identify and critique future steps forward to reduce public health concerns of climate change.
 Components: Lecture(Online)
 Requirement Group: Restricted to Juniors and Seniors within IES
 Room Requirements: Classroom Not Needed(1)

ENVS 345(3) 15-JUN-2014 Course ID:012742 Conservation and Sustainability of Neotropical Ecosystems Prerequisites: For Biology Majors/Minors: Bio 265; For Environmental Science Majors: ENVS 280

This course provides an introduction to conservation ecology in Neotropical ecosystems via classroom sessions and experiential learning activities during a Spring-Break field trip to Belize. Students will gain experience in environmental monitoring and biological survey methods. Ecosystems studied: coral reefs, mangrove forests, subtropical rain and dry forests, savannas, rivers, wetlands.

Outcomes: Students will gain an understanding of tropical climates, neotropical terrestrial/aquatic ecosystems and applied conservation and environmental practices such as nature reserve design and management, community-based resource management, ecotourism, and ecoagriculture.

Field Ornithology

Prerequisites: ENVS 280/286 or BIOL 265/266. Recommended: BIOL 215 (not required) Field ornithology is an intensive 3-week engaged-learning course at the Loyola University Retreat and Ecology Campus during the peak of the migratory season intended to provide an introduction to the theory and practice of field ornithology. Emphasis will be on field identification and song recognition, census techniques, and avian behavior.

Outcome: Students will become skilled in critical reasoning, field techniques, and scientific investigation that demonstrate an understanding of knowledge and techniques used in field ornithology

Components:Lecture(In person)Attributes:Engaged LearningRequirement Group:Prerequisites: ENVS 280 & 286 or BIOL 265 & 266Req. Designation:FieldworkRoom Requirements:Electronic Classroom(1)

ENVS 380(3) Course ID:012570 15-JUN-2014 Instructor Consent Required Introduction to Geographic Information Systems Prerequisites: This course is intended for upper-division undergraduates (junior/senior) and graduate students.

Geographic Information Systems (GIS) is a mapping tool that allows users to create interactive searches, analyze spatial information, edit data and maps, and present the results visually. The course includes lecture, laboratory, and project components. Students will learn basic GIS skills and applications and work on projects with community organizations.

Outcomes:

¿ describe the conceptual/theoretical and practical/technological background of GIS. Components: Lecture(In person) Course Equivalents: UNIV 410 Attributes: Urban Studies Room Requirements: Lab - Computer(1)

Course ID:012752

ENVS 383(3) Human Dimensions of Conservation

This course will increase student knowledge of the social, political, economic, psychological, and cultural dimensions that influence the success of conservation projects and develop skills in conducting human dimensions-inquiry using surveys, interviews, observation, and/or participatory methods. It will contribute to preparation for employment in the conservation field and/or graduate study.

07-JAN-2014

Outcomes: Students will understand the importance of treating the human dimensions of conservation problems with the same scientific rigor customarily given to the ecological dimensions.

Components: Lecture(In person) Room Requirements: Electronic Classroom(1)

ENVS 385(3) Course ID:013208 01-JAN-2016 Global Health Epidemiology This course covers a specific topic in public health.

Outcome: Students will be able to articulate a general understanding of the selected topic. Components: Laboratory(Online) Requirement Group: Restricted to Juniors and Seniors within IES Room Requirements: Classroom Not Needed(1)

Art and Spirit: The Sacred and the Secular

An introduction to the visual arts exploring various approaches to understanding art, art history, terminology, techniques, media, and motivating factors for creating art from secular and sacred perspectives. A secular art appreciation textbook will be used in conjunction with Sacred Art Learning Units including lectures, readings, museum visits, and discussions on art from the Catholic tradition and other perspectives.

15-JUN-2014

Outcomes: Students will gain an understanding of liturgical art and environment ministry; enriched sense of religious identity; understanding of basic components of secular and sacred visual art, art history, contemporary art, and the value of art.

Components: Seminar(Online)

Room Requirements: Classroom Not Needed(1)

IPS 435(3) Course ID:012871 15-JUN-2014

Spirituality and Same-Sex Orientation

Spirituality is the lived experience of faith. What is the lived experience of Christian faith of gay and lesbian persons? What are the classical and contemporary resources biblical, theological, scientific, psychological, spiritual and experiential by which gay Christians affirm a spiritual core from which they live their lives and faith?

Outcomes: Demonstrated understanding of key elements by which gays and lesbians shape lives that are simultaneously faithful to the gospel of Christ, their religious tradition, and the truth of their sexuality. Components: Seminar(In person)

Room Requirements: Electronic Classroom(1)

IPS 436(3) Course ID:012867 15-JUN-2014

Prayer: Ongoing Path of Conversion

The course combines theory and practice. It presents prayer as an intimate means of ongoing conversion in the Christian life. Content includes the biblical, historical, and theological foundations of prayer, psychological factors, and the actual practice of various Christian meditative and contemplative practices (lectio divina, meditation, Ignatian contemplation, centering prayer).

Outcomes: A demonstrated understanding of: the history of Christian prayer; growth and development models in prayer; biblical and theological foundations; the experience of 4 Christian and 1 non-Christian prayer form. Components: Seminar(In person)

Room Requirements: Electronic Classroom(1)

Introduction to Canon Law

This course introduces students to Canon Law, also known as church law, which is grounded in the theology and ecclesiology of the Catholic Church.

Outcomes: General overview of canon law as needed for lay ecclesial ministry; basic understanding of canon law as a discipline; knowledge of canons as related to sacrament of marriage and sacraments of initiation. Seminar(In person) Components: Room Requirements: Electronic Classroom(1)

IPS 472(3) Course ID:012868 15-JUN-2014

Pastoral Counseling in an Intercultural Context

This course invites students into a reflective, interactive, experiential process of exploring the place of culture, values, beliefs, and biases in the counseling context. Students examine their own cultural experiences, with special attention to power dynamics, even as they study the complex dynamics of other cultures.

Outcome: Deepen awareness of one's own cultural dynamics; develop an increased understanding of other cultures; consider strategies and interventions for sensitively meeting the needs of those encountered in pastoral counseling.

Components: Seminar(Hybrid) Room Requirements: Electronic Classroom(1)

IPS 473(3) Course ID:004082 22-JAN-2014 Family Therapy and Personal Transformation

Family therapy is a unique way of working with individuals, couples and families. This course will examine the foundations of and theory and practice of family therapy as expressed in five major schools. We will integrate psychological and theological dimensions throughout. The course will balance didactic input and experiential exercises.

Outcome: Demonstrated knowledge of application ability of family system theory, family therapy, and understanding of culture and other effects on family systems Seminar(In person) Components:

Organizational Ethics II

IPS 653(3)

Organizational Ethics I

This is a two-month long blended course of online learning and a two-day intensive experience on the HSD campus. This course examines the theory, role, and elements of leadership that effectively serve non-profit healthcare systems. In particular, the nature of leadership is examined.

Outcomes: Questions of leadership style and theories of what constitutes effective leadership are considered. Communication strategies and methods of organizational change key focuses.

Lecture(Online) Components: Course Equivalents: BEHP 419 Room Requirements: Classroom Not Needed(1)

Course ID:012928 01-JAN-2015 IPS 654(3)

Catholic Bioethics and Clinical Practice

This course offers a topical survey of bioethical issues pertinent to clinical practice in the Catholic context. Topics and concepts considered include abortion, contraception, sterilization, nutrition and hydration, withdrawal of life support, care of the dying, cooperation, conscience, human dignity and personhood.

Outcomes: Assist students in establishing a substantive familiarity with the positions and moral reasoning of the Catholic tradition in clinical bioethics.

Lecture(Online) Components: Course Equivalents: BEHP 415 Room Requirements: Classroom Not Needed(1)

Course ID:012929 01-JAN-2015 TPS 655(3)

Catholic Bioethics and Social Justice Course involves an historical study of the development of the body of official Catholic Social Teaching specific to its impact on healthcare delivery in the United States. Current developments in select key social issues and movements are also addressed insofar as those issues and movements influenced healthcare delivery.

Outcomes: Develop the participants understanding of the principles of Catholic Social Teaching and their application to the healthcare context.

Components: Lecture(Online) Course Equivalents: BEHP 416 Room Requirements: Classroom Not Needed(1)

Cultural Competence in Healthcare

Course ID:012930 IPS 656(3) 01-JAN-2015

A two-month long blended course of online learning and a two-day intensive experience on the HSD campus. Topics cover the role of racial and economic health disparities in the process of care and health outcomes, Cultural and Linguistic Appropriate Standards (CLAS) in health care, self-assessment and evaluation of institutional needs.

Outcomes: Knowledge and skills gained in this course can be used to develop an advocacy role for evaluating and promoting cultural competency within a health care system.

Components: Lecture(Online) Course Equivalents: BEHP 418 Room Requirements: Classroom Not Needed(1)

Alternative Dispute Resolution Workshop One credit workshop focusing on dispute resolution in an employment setting. Workshop takes place over two days. Both the first and second day of the workshop involve resolution of an EEO complaint in full length simulations -- the first day using mediation, and the second day resolving the dispute using arbitration. Students are expected to read and research in preparation for both days of the workshop. Participation in the one credit workshop requires attendance in an evening Human Resources and Employment Relations (HRER) course. Students will be assigned to teams and will begin working with HRER team members at this evening session. Each workshop day is followed by a debriefing session. All participants will be observed and evaluated by employment attorneys skilled in ADR. Enrollment is limited to students simultaneously enrolled in Professor Sacha Coupet's other ADR course and students who are seeking an intensive mediation and arbitration experience in addition to that provided by the foundational ADR course.

LAW 473(2) Class Actions

Some of the most cutting-edge and challenging litigation in the courts today are class actions or complex cases involving numerous parties and/or very complicated claims. These cases can take up enormous resources of our courts and the litigants and yet result in resolutions that are fair and efficient if litigated and adjudicated properly. This course focuses on the emerging issues in such cases, the innovative uses to which scientific evidence is being put in class actions, and the methods used to resolve such disputes. Students will be expected to participate as part of litigation teams in strategic discussions and exercises highlighting the material covered in the course and will be evaluated on those exercises as well as a final examination. The class would meet, at a mutually convenient time, once a week for two credits and feature at least two guest speakers (e.g., class action lawyer, jurist, expert).

Labor and Employment Law in the Education Workplace This course, which meets once a week for two hours, will explore in depth labor and employment issues in the 21st century education workplace. Students will form teams -- representing individual employees, the union, and management- and advocate their respective positions in a variety of contexts, including collective bargaining, unfair labor practice proceedings, teacher discipline and dismissal proceedings, and contract grievance arbitration. Current events and contemporaneous developments will provide the backdrop for the course materials and class activities. Topics will include: tenure, reduction-in-force and seniority rights, and teacher accountability and evaluation of professional personnel under new education reform legislation; public sector bargaining trends in Illinois and nationally; the 2012 Chicago Public Schools teachers strike; LGBT issues, free speech, and workplace right of privacy.

Practical Skills Boot Camp

Loyola has prepared you to think like a lawyer. In this intensive Boot Camp legal practice seminar, learn to be a lawyer. This seminar will help bridge the gap as you transition from law school into private practice. You will gain the personal skills, practical skills, and business sense to succeed in your legal practice from day one. Among other things, you will learn to think and behave like a practicing attorney. You will learn how to create professional correspondence, organize your practice, interact with colleagues and staff, and build a consistent book of work. You will also learn substantive litigation and transactional skills that will enhance the quality of your legal practice from day one. And you will hear from prominent attorneys in the community as to what they look for in new lawyers and what makes a successful new lawyer.

LAW 112(2)

Law and Film

From the turn of the 20th century through today, law has been critically important to American cinema and American cinema has been critically important to the law. This course will examine how cinema represents the law, indoctrinates audiences in jurisprudence, and explores the position of law in our culture. The course will consider such topics as the ways in which cinema portrays the negotiation of cultural conflicts through the law, interrogates the associations between law and morality, and reinterprets historical cases, evincing cultural anxieties and desires with regard to the legal system. Further, we will analyze how law films investigate issues of guilt and justice, situate audiences as jurors, and create ideal and flawed images of the lawyer, law firms, and the lawyer-client association. Films for class discussion will include Anatomy of a Murder, To Kill a Mockingbird, Presumed Innocent, Judgment at Nuremberg, Compulsion, 12 Angry Men, Michael Clayton, Adam's Rib, Philadelphia, and The Social Network.

LAW 117(3) Philosophy of Law

Philosophy of Law: Legal and Moral Issues of Economic Sanctions This course will start with a brief overview of economic sanctions in the contexts of international relations and global governance, and will then look closely at the issues of effectiveness and humanitarian impact. Throughout the course we will draw on materials from a number of sanctions regimes, including South Africa, Cuba, Iraq, and Iran. We will examine a number of ethical topics, looking at the issues of intent, consent, and moral agency in the context of economic sanctions. We will also look at a number of legal issues: whether sanctions come into conflict with international human rights law, such as the International Covenant on Economic, Social, and Cultural Rights; the problem of extraterritoriality; and the recent cases coming out of the European Courts on asset freezes, such as the Kadi case.

Advanced Constitutional Law

29-MAY-2012

This course gives students an opportunity for an in-depth consideration of the constitutional challenge to the Affordable Care Act (ACA) of 2010, which the Supreme Court is scheduled to decide in June. Topics include: the history of the passage of the ACA, political and popular mobilization against the ACA, the litigation history of the constitutional challenge, media coverage of the challenge, the Supreme Court's ruling on the issue, and possible implications of the challenge. Students will be responsible for periodic short writing assignments, at least one in-class presentation, and active participation in class discussion. Those who have not completed Consitution Law will be required to attend one additional session on Commerce Clause doctrine. The course will be offered on a pass-fail basis. The class will meet every other week.

This course will be taught at Chicago Kent College of Law. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students

The Constitutional Challenge to the Affordable Care Act

LAW 121(3) Course ID:012157 09-SEP-2011

This course will focus on the history and substance of equal protection under the Constitution. First, we will explore the relationship of the original Constitution to slavery, and slavery's role in shaping law and constitutional doctrine. Next, we will study the Reconstruction amendments and the unusual circumstances of their adoption. Lastly, we will focus on the developmet of equal protection doctrine from its beginnings after Reconstruction to the present.

Transactional Skills Seminar The course will examine the lawyer's role in business transactions by looking at examples of two decidely different transactions - the negotiation of commercial real estate leases and the structure of the purchase, ownership, and operation of a corporate aircraft. The practical skills and knowledge acquired by examining these examples can be applied to virtually all commercial transactions. The class will consider the art of negotiating those transactions - and will focus on the role of the lawyer in those negotiations. We will consider a variety of negotiating stragegies and how to deal effectively with opposing counsel who may, or may not, share your particular strategy. In addition, the class will examine a corporate aircraft transaction - with a myriad of parties and opposing interests and regulations - with the goal of appreciating the juggling and balancing necessary to achieve the best result possible. Along the way, we will look at how there is not ONE way to do things, rather there are many ways and many strategies. The rules and processes **Components:** Seminar(In person)

LAW 134(2) Course ID:010990 27-OCT-2011 Complex Federal Criminal Practice Seminar

From the convening of a grand jury to the disposition of charges, federal criminal prosecutions involve a series of complex investigative and prosecutorial topics. This class will explore complex issues involved in federal criminal law including corporate criminal liability, the prosecution of public corruption cases, involving foreign and domestic initiatives, and organizational prosecutions utilizing RICO.

13-DEC-2010

Taught by an experienced trial attorney, Ms. McClellan (currently an Assistant United States Attorney) the class will analyze issues surrounding the prosecution and defense of complex criminal matters. In the context of corporate criminal matters, the issues analyzed will involve the expansion of the principles surrounding corporate liability, internal and external investigations and whistle blowers after the Dodd-Frank Act. With regard to prosecutions of public corruption, the course will focus on domestic

Law & Catholic Social Thought Introduces students to the major documents that comprise the Catholic Church's social teachings. The documents will serve as a basis for a broader discussion of whether the social teaching has anything relevant to say or should have to say about current trends in American law. Considers whether lawyers of faith are obliged to move the law in a direction that comports with their core religious values and how that can be done in a pluralistic society' whether Catholic social teachings offers ideas and values that might find broad-based acceptance; and what happens if a lawyer determines that the profession and/or the society are hostile to the values presented in the social teaching. A twenty page paper delving into a particular issue or subject matter will be required for successful completion of the course. (2 Credits; however, a 3 Credit option is available to those members of the seminar who write a longer paper of thirty pages.) Components: Seminar(In person)

Requirement Group: Restricted to Law School students. Room Requirements: Seminar(1)

LAW 137(3)

Course ID:012435 International Arbitration: Public and Private

Arbitration is increasingly the dispute methanism of choice, particularly in international disputes. Τn private international commercial arbitration, neither party wants to be required to resolve a dispute in the foreign court system of the opposing party. In state to state arbitrations, and in state to private company arbitrations, no sovereign state is willing to be subject to the jurisdiction of another sovereign state. Thus, as international business and investment has grown, so has the prevalence of arbitration to resolve international disputes. This course will focus on various forms of international arbitration, whether between two private companies from different countries trying to resolve a contract dispute, two sovereign nations involved in a border dispute, or an investor and a host country deadling with an investment dispute. No prerequisite is required.

The Art of In-House Counseling

This course will introduce students to the evolving history, roles and responsibilities of in-house legal counsel. Students will investigate the skills and characteristics that contribute to successful and effective practice as an in-house counsel and explore the similarities and differences between in-house legal practice and outside legal practice. Topics covered during the course will include: the relationship between in-house counsel and his/her client; in-house counsel's role in adding value to his/her organization; advising and counseling clients; fact gathering and investigation; managing an in-house counsel to address a variety of situations in which an in-house counsel would be expected to act. Students also will observe experienced, practicing in-house counsel address similar situations and analyze the factors and considerations that contribute to effectively addressing the situations. Students will be expected to regularly attend and participate in class. There will not be a final exam in this course. Students will be Components: Seminar(In person)

Course ID:004414 28-OCT-2013

This course introduces the elements of crime by teaching principles that apply to many crimes. These principles include the nature of criminal acts and of criminal fault, as well as defenses such as self-protection. Homicide and other specific crimes may also be discussed, as may theories of punishment. The primary materials are statutes -- in particular, the Model Penal Code and/or the Illinois Criminal Code.

This is a Juris Doctor Required course. Lecture Components: Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: General Classroom(1)

Applied Civil Procedure This course will give students practical experience with common pre-trial civil litigation tasks they will encounter in private practice. The instructor's principal goals is to expose students to the ""nut and bolts" of pleading, discovery and fact gathering - with particular emphasis on writing - so that they will be more effective junior lawyers on their first day or practice. Throughout the semester, each student will represent a client in simulated litigation of a fictional civil case in which one of their classmates is opposing counsel. Class time is devoted to discussing how to prepare and complete the tasks that arise in litigation generally and in the mock litigation in particular. As a result, students become familiar with the Federal Rules of Civil Procedure and obtain actual, albeit simulated, experience drafting pleadings, discovery and other writings. Specifically, this course wil address: (i) conducting faculty investigations preceding and during litigation; (ii) drafting initial pleadings, such as complaints, answers, affirmative **Components:** Lecture(In person)

Requirement Group: Restricted to Law School students. Room Requirements: General Classroom(1)

LAW 151(2)

Housing Law and Policy in United States

The course includes the study of public and private housing, with reference to federal and state constitutionaland statutory law. In 1949, Congress declared the goal of a ""decent home in a suitable living environment for every American family."" However, more than 60 years later, over 95 million Americans confront serious housing problems or have no housing at all. Students will gain an understanding of the history of housing law, the lack of adequate housing in the United States, the consequences of inadequate housing, as well as the programs and legal tools designed to meet housing needs. Students will examine various programs designed to facilitate access to decent and affordable housing and develop strategies for addressing the housing crisis. Each student will prepare a seminar paper (or series of papers) on an aspect of housing as well as present in class on that topic.

| Wills and Trust Drafting | | |
| This is a Skills course. | | |

This is a hands-on, participative skills course in which students will learn how to properly structure and draft basic wills and trust documents, both testamentary and living. Practical tools, such as, engagement letters and client questionnaires, will be discussed and developed to give insight into the active practice of estate planning which the student can utilize in the work world. Estates is a prerequisite. Estate and Gift Tax is not a prerequisite. Students who take this class may NOT take estate planning. You may take Wills and Trust Drafting OR Estate Planning, but not both. Final grade will be based on class participation and drafting assignments over the course of the semester. Class size is limited to 16.

LAW 154(3)

Natural Law and Natural Rights

3) Course ID:011138 11-MAR-2009

The purpose of this course is to introduce students to the role of natural law in the development of the law, with an emphasis on the position of natural rights in American Law and International Law. The specific context of our examination will be the natural rights of the human person. Three interrelated objectives of this course are (1) to develop an understanding of what the natural law is and what it is not; (2) to dispel the skepticism (myths) about the role of natural law; and (3) to demonstrate the critical role in the evolution of natural human rights in American Law and Intenational Law. Several particular rights will be examined to sharpen the focus of our investigation and discussion. Our readings will consist of primary and secondary sources complied into a reader that will be made available in electronic form. Thee is one required book that will have to be purchased, viz. Heinrich Rommen's ""The Natural Law.""

Mergers and Acquisitions

This course will introduce students to the issues that arise in merger and acquisition transactions. Students will study the legal framework within which merger and acquisition transactions and the negotiation and documentation of such transactions take place. Students will analyze the considerations involved in selecting various structural alternatives for meger and acquisition transactions, examine the dynamics of the merger and acquisition transactions negotiation process, investigate the various stages of merger and acquisition transactions and focus on the lawyer's role in adding value to such transactions. Students will also have the opportunity to study, evaluate, draft and/or negotiate various types of documents that are commonly encountered in merger and acquisition transactions (such as, confidentiality agreements, employee retention agreements, investment banker engagement letters, letters of intent and purchase and sale agreements: Lecture(In person)

LAW 166(1 - 4) Course ID:011009 20-MAR-2014 Instructor Consent Required Education Law Practicum

This unique course has a classroom component and a field work component. The class meets formally one hour per week to cover substantive education law issues and to develop skills tailored to the practice of education law. For the field work component of the class, students have the option to work in one of a variety of local placements where they will work under the supervision of practicing attorneys. Students may choose to provide either: (1) direct representation and legal assistance to children and families in need of special education services; or (2) representation of school districts in education law matters. Students may also work on educational policy matters. Placement options include local organizations, school districts, law firms and government agencies. In the Spring semester, students may participate in Loyola¿s Educational Advocacy Project as an alternative to an external field placement.

Course ID:012410 Alternative Dispute Resolution

This course provides an introduction to negotiation, mediation, and arbitration as alternatives to traditional litigation, and studies the ADR movement in general. The course will combine lectures and class discussions based upon assigned readlings with a series of increasingly complex simulated exercises, with the goal of exposing students to the theory and practice of various ADR techniques. You may not take this course if you have taken either negotiations or mediation.

Must have completed 40 credit hours; you cannot take this course if you take, or have taken, either Mediation or Negotiations. If you have taken the Mediation & Other ADR Procedures Clinic, you cannot take this class.

International Trade Law

The goal of this course is to provide students with an overview of International Trade and U.S. Customs law, in its domestic and international contexts. Students should be prepared to learn about the history and current role of international trade organizations; U.S. government agencies and their roles in international trade; U.S. Customs law and compliance issues. Students will receive an overview of antidumping law and the litigation of antidumping and U.S. Customs issues at the U.S. Court of International Trade and the U.S. Court of Appeals for the Federal Circuit. The role of NAFTA and other free trade agreements in international trade will be discussed, in both legal and political settings. The class will also cover compliance issues that arise under U.S. Customs law, and how a client's non-compliance can incur penalties from the U.S. government and affect overall client profitability.

LAW 180(1) Course ID:013199 25-FEB-2016

This course will be taught by Illinois Attorney General Lisa Madigan, assisted by Dean Jean Gaspardo. The Attorney General is the state's chief legal officer and is responsible for protecting the public interest of the state and its people through advocacy, legislating, and litigating. Protecting consumers and businesses that have been victimized by fraud, deception or unfair competition is one of the primary functions of the Attorney General. Her office receives 25,000 consumer complaints each year. In her many years of service since 2003, Attorney General Madigan has gained a solid, national reputation for prosecuting offenders perpetrating fraud against Illinois consumers. Most recently, she paired with a couple of other mid-west states Attorney Generals to prosecute the many big banks [¿too big to fail¿] for their predatory lending tactics, recovering billions of dollars. The course will focus on Consumer Law, including the role of the state in enforcing legislation protecting consumers. The course will also address the role of private

Supreme Court Seminar

LAW 181(4)

Comparative Consumer Law

The aim of this seminar is to provide students with a deeper understanding of the Supreme Court of the United States, its personnel and work, and the important role it plays in American government and society. Students will consider the processes by which Justices are appointed to the Court; the standards and processes the Court uses to choose cases for review and decision on the merits from among the multitude decided each year by the lower courts, leading to the creation of precedents of national applicability; the ways in which advocates endeavor to persuade the Court that it should (or should not) grant review in a particular case; and the ways in which the so-called ¿merits cases; (those in which review has been granted) are briefed, argued, and decided. A substantial part of the semester will be devoted to the study of a small number of cases currently pending before the Court, either as candidates for review or for decision on the merits. Students will learn about the work of the Court by studying briefs that were actually filed and transcripts

Business and the Law The majority of practicing lawyers represent businesses or individuals with business or investment interests. Unfortunately, the majority of law students have had limited exposure to business law and the first year curriculum offers few opportunities to explore this area. This course is intended to expose first year law students to the fundamental issues and perspectives that pervade business law. The goal is to make these topics accessible to all students, particularly those who have not taken many, if any, undergraduate courses in business, economics or accounting.

The course will be divided into three segments. The first segment, entitled ""The Law of Business,"" will introduce students to fundamental business and tax law concepts as well as transactional issues that business lawyers confront. These issues include the alternative ways of organizing a business (corporation, partnership or limited liability company) and the alternative ways of structuring a business acquisition or **Components:** Lecture(In person)

Advanced Issues in Family Law

Learn everything you need to know to be a successful associate in a domestic relations firm. Most family law firms have little or no training programs. Theoretical knowledge of the law is not enough to step into a firm and start practicing. This course is designed to teach you all of the practical basics Partners want you to know as an Associate family law attorney. This course addresses the practical application of the Illinois Marriage and Dissolution of Marriage Act and related statutes. Topics will focus on developing the skills necessary to excel in domestic relations practice such as strategic planning for a dissolution of marriage case, complex financial analysis, developing and maintaining the attorney client relationship, and practical drafting skills.

Students read and analyze legal authority and learn how to apply the legal authorities to particular fact situations. Through a series of legal memoranda writing assignments, students develop their analytical and writing skills. Students are taught legal research methods through written exercises, research memos, and lectures. Second semester, the course builds on the basic writing, analysis, and research skills students

have learned first semester and introduces persuasive writing skills. Students also learn how to present an oral argument to the court. Computerized research techniques are included in the course. In order to provide significant opportunities for instructor feedback, the first-year writing classes are organized into sections of approximately twelve students. Each section is staffed by both a legal writing instructor and a student tutor.

International and Comparative Antitrust

This module explores the internationalization of competition law in the context of globalization and international trade. It examines the regulatory framework governing competition among firms internationally, identifying and analyzing the existing limitations and challenges in this regard. In particular, it looks into rules governing extraterritorial jurisdiction, discovery, recognition and enforcement of judgements in the international context. It also explores issues pertaining to merger review, trade and competition interface and the existing cooperation between antitrust agencies. The course is comparative in nature and focuses predominantly on US Antitrust and EU Competition Law. No prior knowledge of competition law (antitrust) or international economic law is assumed.

Course ID:007394 Advanced Business Organizations including a Comparative Perspective

This course focuses on U.S. corporate law and governance. It begins with an introduction to the different legal issues encountered in business entities across jurisdictions: agency problems between (1) directors and shareholders, (2) majority and minority shareholders, and (3) shareholders and other stakeholders (employees, creditors, the State, etc). It then turns to the three agency problems as they arise in private or publicly held corporations. This covers the questions of allocation of powers between shareholders and the board, directors; elections, executive compensation (say-on-pay), self-dealing transactions, going private transactions, insider trading, mergers and acquisitions, fiduciary duties and participation of other stakeholders in the corporate governance. For each topic, we will define the legal issues involved and examine how U.S. statutory and case law respond to them. We will also take a comparative perspective to analyze how other jurisdictions respond to the same legal issues. The comparison will thus provide students Components: Seminar(In person)

Business Valuation

LAW 199(2)

Attorneys play an active role in business transactions every day in connection with mergers and acquisitions, estates and gifts, divorce, filings with the SEC, etc. This includes attorneys who are in private practice or in with a company. Understanding business valuations and financial statements form a cornerstone of most of these transactions. In fact, the business world today and the financial work involved demands that today's lawyer understand the value and financial reporting of a business. This course will help attorneys to better understand the methodology and techniques involved in business valuations. This will also include basic financial statement analysis. Topics will include the proper standards for valuation, valuation methodology, cash flow analysis, financial analysis techniques, financial reporting issues, international standards, and specific uses of valuations.

Emerging Issues in Public International Law

LAW 200(1)

28-FEB-2012

02-JUL-2012

Over the past several decades, largely within the context of international organizations, the global legal community has faced complications posed by the threat of terrorism and the reemergence of genocide. As a result of these developments, there has been a reexamination of the traditional role of the sovereign state as the constitutive element of public international law. Consequently, there is an emerging trend to regard, at least by some, the need to augment the role of the sovereign state with that of the international organization to respond to these new global challenges. A principle illustration of this is the concept of the "responsibility to protect". Readings will be taken from primary sources (especially documents of international organizations) as well as contemporary secondary sources, principally scholarly articles. Students will be required to purchase a short book that introduces the major topics of public international law. NOTE: This course is available as a 5th credit (ungraded) and only to Loyola University Chicago **Components:** Lecture(In person)

Requirement Group: Restricted to Law School students. Room Requirements: General Classroom(1)

LAW 214(3) Course ID:013111 19-MAR-2015

This course covers interdisciplinary, critical perspectives on race and racism and the roles of law and history in shaping the meanings of race in the United States. We will study the histories of the major racialized groups in the United States: African Americans, Indians, Latinos/Latinas, Asian Americans, and Whites. We will also study the differing implications of enslavement, conquest, colonization, and immigration. We will explore how race and racism play out in selected areas such as equality, education and crime and explore significant current events and findings such as: important studies of implicit bias; the Voting Rights Act and allegedly race-neutral restrictions on voting; disparate treatment of minorities in the criminal justice system; and demographic changes and their implications.

I expect each student to complete a 25-page research paper on a subject of her choice related to the course. Components: Lecture(In person)

Requirement Group: Restricted to J.D., LL.M. and Health Law, Child and Family Law, and Business and Governance Law, Busin

Room Requirements: Electronic Classroom(1)

LAW 215(2) Course ID:012414 29-MAY-2012 Domestic Violence Courthouse Practicum

This course will offer a clinic-style experience working with clients who have been victims of domestic violence. After initial training and instruction about the dynamics of domestic violence, the Illinois law governing protection orders, and the operation of the domestic violence courthouse, students will work with clients at the courthouse (555 W. Harrison, two blocks from the law school) for six hours per week. Work with the clients at the courthourse will include helping clients fill out petitions for emergency protection orders, advising clients on their cases, and perhaps even speaking for clients in court.

For the first five weeks of the semester, students must be available from 12:00-5:00pm on Fridays. For the remainder of the semester, students should have one morning (preferable Monday or Friday) clear in their schedule in order to work at the courthouse for a 3 1/2 hour block. Students who have not had Evidence or **Components:** Seminar(In person)

LAW 216(1) Women and Leadership

Women & Leadership is a one credit, seven week seminar course for law students that examines the obstacles (internal and external) that prevent women from reaching leadership positions in proportional numbers. Over the course of seven weeks, students engage in dialogue in response to assigned readings and self-assessment tools. Students also hear from female leaders working in different areas of legal practice who will discuss their experiences and the decisions that helped shape their careers. Grading is based on participation and a final paper.

LAW 227(2) Course ID:012629 26-JUN-2013

Transportation and logistics is a multi-trillion dollar industry. Every item you purchase or use in your everyday life was delivered by a truck or other mode of transportation (rail, ocean, air). America could not function without the transportation industry. There have been a series of deregulations affecting the transportation industry over the years. After September 11, 2001, cargo security became an important issue for the United States, which lead to many new laws and regulations. This constant roller coaster of deregulation and regulation makes being a transportation attorney very exciting. This course will briefly describe the different modes of transportation and the regulating bodies for each. We will focus on the surface modes of transportation, namely trucking and rail. The main topics discussed will be contracts, tariffs, liability for loss and damage to cargo, tort liability of shippers, carriers, customers, and brokers during and after the transportation of freight and a comprehensive understanding of insurance and the various **Components:** Seminar(In person)

Requirement Group: Restricted to J.D. and LL.M. students

LAW 228(2) Course ID:012366 23-MAR-2012

This course focuses on the development of legal theory, precedent, and governmental regulation of sexual harassment in the workplace, educational institutions, and public accommodations. Students will learn about the continuing evolution of sexual harassment law regarding male-on-male harassment, unionized workplaces, intersectionality of race and gender, and vicarious liability. Skills used by attorneys who practice in this area will be discussed, including litigation, alternative dispute resolution, policy development, investigation, and training. Additionally, the class will take a critical look at conceptions and misconceptions regarding this legal issue in other arenas such as culture and politics.

Negotiable Instruments

LAW 230(3)

The course examines the law of commercial paper (negotiable instruments payable in money) as codified in Articles 3 and 4 of the Uniform Commercial Code. The formal requisites of the various types of instruments are considered, as are the rights and liabilities of the several parties to such negotiable contracts. The concept and legal significance of holding in due course is treated in depth. Approximately one-third of the course concentrates on the mechanics of bank collection of checks and the related law as incorporated in Article 4 of the Code.

This is a Bar course. Components: Lecture Requirement Group: Restricted to Law School students. Room Requirements: General Classroom(1)

LAW 231(3)

Secured Transactions

This course examines the law of consensual liens on personal property under Article 9 of the Uniform Commercial Code. It deals with the use of personal property, tangible and intangible, as collateral to secure payment or performance obligations. Course materials cover creation of the security interest, validity of the security interest as against the claims of third parties, priorities of claims between competing secured parties and other lien holders, and rights upon foreclosure. Emphasis is on risk aversion and problem solving.

Bar Exam Fundamentals is a two-credit course that will teach you the analytical and organizational skills necessary to enhance your bar exam preparation. In this pass/fail course, we will focus on a combination of substance and skill through the presentation of specific techniques for maximizing performance on all parts of the bar exam. The course will focus on the most heavily tested doctrine in three bar exam topics, exhibiting how those topics have been tested on the Multistate Bar Exam (MEE) and on the Multistate Essay Exam (MEE). In this class, you will learn and review heavily tested subtopics, learn essay and MBE test-taking strategies, increase proficiency in taking MBE questions, and learn how to write a passing bar exam essay answer. You will receive individualized feedback on written assignments that will help you hone your writing skills and give you the tools you need to successfully self-grade during bar prep. While we will complete many essay and MBE-type questions, there will be no final exam.

Entertainment and Sports Law

This seminar will introduce students to the real world(s) of sports and entertainment law, examining the separate and distinct bodies of law and practices of both, while giving due to the many commonalities between the two fields, from intellectual property to professional contracts. As legal issues in both sports and entertainment law frequently appear in the headlines, this course will address up-to-the minute issues, while covering the seminal topics and cases within each, both in litigation and transaction. Guest lecturers may participate, as their schedules permit. As there will be efforts made to accommodate guests relevant to this course, the syllabus will be in flux. Further, attendance and class participation are required, making up a significant portion of the grade along with a take-home final examination. Reading assignments can be significant on a weekly basis relevant to the upcoming week's topic.

Room Requirements: General Classroom(1) LAW 243(3) 17-0CT-2014 Course ID:012961 Remedies: Problems and Practice First-year law students learn that there is no right without a remedy and focus extensively on determining the scope and content of rights. This practical upper-level class focuses on the client;s crucial question: what remedy will he get? We will examine how attorneys determine the kinds of judicial relief available to a client, and how they devise litigation strategies to meet the client¿s unique remedial objectives. Specifically, we will cover the determination and calculation of damages arising from various causes of action; equitable remedies including injunction, specific performance and constructive trust; and

restitution. While the content and teaching method of the course are highly pragmatic, Remedies is often considered a ¿capstone,¿ in which students revisit and synthesize the relationship among private law doctrines such as tort, contract and property and consider from a global policy perspective the purposes that law can and does serve on behalf of individuals and groups.

LAW 264(2) Course ID:004487 29-OCT-2007

The purpose of this course is to provide exposure to contract drafting and negotiation to students with an interest in transactional law. During the course of the semester we will examine the purpose and process of drafting documents. We will also spend time discussing the business side of transactional law and how best to work with and counsel clients. In some instances, we will start with form documents borrowed from prior transactions (precedent) and we will revise these documents to reflect the particular facts and circumstances surrounding our transaction. In other instances we will work through drafting a document from scratch. Finally, we will spend time reviewing and revising existing documents and discussing the logistics of working through a variety of business transactions. The course will include numerous drafting exercises and some negotiation. By the end of the semester, students should have a basic understanding of how and why contracts are drafted and negotiated. In addition, each student should be able to draft a precise and practical **Components:**

LAW 274(1) International Arbitration

LAW 275(2)

This is a one credit course taught sometimes in one of the summer programs. In this course, students will learn how international commercial arbitration works. In most international contracts, the parties agree that all disputes will be resolved by arbitration. This private dispute mechanism provides a number of advantages over litigation. One of the most important advantages is that by agreeing to arbitrate, a party avoids ending up in the other party's court system. An arbitration award is also more easily enforced in a foreign jurisdiction than a court judgment, because of an international treaty known as the New York Convention. Students will learn about the various laws and rules governing international arbitration, as well as specific, practical knowledge about arbitrating, such as how to draft an arbitration clause, how to choose an arbitral institution, how to select arbitrators, the ethical rules that apply to arbitrators, the bases for challenging arbitrators, the conduct of the arbitral hearing, rules governing admission of evidence,

Spanish for Lawyers The course is designed for law students who are looking to supplement their existing knowledge of the language with Spanish that focuses on the legal field. Its main objective is to develop adequate communication skills that will allow you to advise Spanish-speaking clients on issues related to criminal, property, civil, labor, administrative, tax, commercial, and litigation law.

04-MAR-2015

18-JAN-2011

Course ID:013110

We will work with real documents and texts, analyzing cases, as well as reinforcing knowledge of both Spanish in the legal field as well as of different branches of law in the judiciary system. Coursework will be carried out in groups, and a system of continuous evaluation will be implemented using assignments and projects. The course will also include a cultural component, the aim of which will be to understand, contextualize, and handle effective exchanges with Spanish-speaking clients.

Components: Seminar(In person) Requirement Group: Restricted to JD students.

LAW 277(2) Patent Law Litigation

LAW 278(2)

International Law

This is an advanced patent seminar course that uses a simulated litigation format to develop further the basic concepts introduced in the survey IP class. The goal is to provide students with ""real world"" patent litigation experience and precedent. Student are divided into plaintiffs and defendants and will participate in various aspects of an actual patent dispute including discovery, claim construction (Markman) and summary judgment. Through this process both practical and substantive aspects of patent ltigation practice are covered.

Prerequisite: Intellectual Property or Patent Law Seminar except with permission from instructor or Director of Intellectual Property Program: Professor Cynthia Ho.

Components:Seminar(In person)Requirement Group:Restricted to JD and LLM Business Law students.

LAW 282(2) Law and Accounting

This course is intended to provide an understanding of basic accounting principles and their practical application in connection with the practice of law. There are no prerequisites and no requirement of a business background. Topics covered include fundamental principles of accounting for business enterprises; how to analyze and understand an income statement, balance sheet, and statement of cash flow; basic concepts of revenue recognition; conventions for capitalization versus expenses; and how to recognize possible manipulation of financial and accounting statements. Recent high profile accounting scandals such as Enron and WorldCom will also be explored.

LAW 298(2) Course ID:011962 22-MAR-2011 Contracts in Complex Commercial Transactions

The objective of this course is to familiarize the student with contracts as used by sophisticated parties. Accordingly, this course will explore ""real-world"" contracts actually entered into by ""real-world"" companies -- the Coca-Cola's, Microsoft's, and HP's of the world. Through this course, the student will attain a certain facility with agreements, their organization and structure, their language, and their provisions (and the interaction of these provisions). The course will pay considerable attention to how courts have treated various contractual provisions. The examination of actual contracts will begin with non-disclosure agreements and will proceed into employment agreements, services agreements, and agreements for the sale of goods. Topics will also include merger-and-acquisition agreements. In addition, readings will include comments from leading practicing attorneys (from law firms such as Sidley, Kirkland, and Cravath, and from legal departments at companies such as Microsoft, Accenture, and JP Morgan), and there is **Components:** Seminar(In person)

Critial Legal Studies Seminar

Critical Legal Studies posits that the influence of the social construct of race in America is ubiquitous, including in law. Moreover, it suggests that so-called color blind law-making is unlikely to address the most important means by which race continues to operate to oppress many persons in America. Finally, it teaches that racial reform occurs only in accordance with the interests of those with political and economic power. This course will survey the key scholarly works that form the basis for these precepts and seek to test these positions against the reality of race in America today. Components: Seminar

05-APR-2012 LAW 304(2) Course ID:012378 A Practical Introduction to Daley Center Courtrooms ""Daley Center"" is a practical course to acquaint the future attorney with the Circuit Court of Cook County, which is one of the largest unified court systems in the world, handling more than 2 million cases annually. It is divided into eight divisions and six municipal districts with over 400 judges hearing cases daily. This course focuses on the Daley Center which is the hub of all legal activity in the City of Chicago and is the busiest of the circuit districts. It will provide a familiarity with the various structures, functions and operations within the Daley Center, which houses 120 court and hearing rooms, related government agencies and the Cook County Law Library (one of the largest law libraries in the nation.) This course is essential for the prospective attorney who intends to practice in Chicago and the surrounding area. It will provide practical guidance to handle a lawsuit from its inception to initial hearing before a Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: Electronic Classroom(1) LAW 305(3) Course ID:012453 03-AUG-2012 Instructor Consent Required Global Law Seminar and Field Study This seminar examines the laws and legal system of a different country each year and consists of a semester-long class and a required field study and service component over spring break. Past countries of study have included Tanzania, India, Thailand, South Africa, and Turkey. This unique team-based experience actively engages students in the learning process. Students, working in teams under faculty direction, conduct research, make class presentations, organize the field study and service components of a course, develop group research proposals, and produce scholarly papers, several of which have been published. School of Law - Law Department - Subject: Law

LAW 309(3) Course ID:013272 08-MAR-2016

This course will provide an introduction to the ""civil law"" legal systems (which include almost all of Western and Eastern Europe and Latin America, as well as, portions of Africa and Asia). The course will begin with the roots of the Civil Law in Rome around 450 BC and subsequent developments, including its preservation by Byzantine Jurists in the Corpus Juris Civilis, and its revival by scholars in medieval Italy. The various events and influences that led to the modern Civil Law will be considered. Differences between the modern Civil Law and Common Law approaches and attitudes toward law will be covered. (Perspective Elective course)

Note: Students who have taken Comparative Law (LAW 172) may not enroll in this course. Components: Seminar(In person)

Illinois Civil Litigation Practice

This course will empower you to practice in Illinois state courts (where 90% of all litigation is heard) with the efficacy of a seasoned litigator. Teaming star civil litigators with veteran judges, this redesigned two-session intensive course will focus sharply on the crucial knowledge and skills needed to survive the confusing and hectic civil court system. The course will enhance your written and oral argument skills in the context of the labyrinth of procedural rules and statutes that govern different phases of civil litigation in Illinois. Using hypothetical scenarios, students will learn how the rules apply to the facts and substantive law in a concrete way, as well as how to argue issues arising in the pre-trial setting. You will write briefs (up to 8 pages), argue motions, serve as a judge, and instruct your fellow students on the law, all over two sessions, each one lasting one and a half days. The first session will generally focus on pleadings and motions directed to pleadings, while the second session will generally focus on discovery and **Components:** Lecture

Some of the most cutting-edge and challenging litigation in the courts today are class actions or complex cases involving numerous parties and/or very complicated claims. These cases can take up enormous resources of our courts and the litigants and yet result in resolutions that are fair and efficient if litigated and adjudicated properly. This course focuses on the emerging issues in such cases, the innovative uses to which scientific evidence is being put in class actions, and the methods used to resolve such disputes. Students will be expected to participate as part of litigation teams in strategic discussions and exercises highlighting the material covered in the course and will be evaluated on those exercises as well as a final examination. The class would meet, at a mutually convenient time, once a week for two credits and feature at least two guest speakers (e.g., class action lawyer, jurist, expert).

LAW 324(2 - 3) State Constitutional Law

This course examines state court decisions from around the country to illustrate the array of state constitutional issues occurring in modern American law. State constitutions are a source of rights independent of the Federal Constitution and frequently are applied by state courts to grant more expansive protection for individual rights than the Federal Constitution afford. Moreover, state constitutional law, like its federal counterpart, is not limited to issues involving individual rights. Course coverage may include equality, due process of law, criminal procedure, property rights, religion, freedom of speech, school funding, the right to a remedy, the structure of state government, judicial power, and amendment processes.

Components: Lecture Requirement Group: Restricted to JD students.

Course ID:004534 16-OCT-2014

Conflict of Laws

LAW 325(3)

This course deals with the legal ramifications of disputes involving contracts with two or more states or other jurisdictions. When such disputes reach the courts, what law should be applied and how should the determination be made? The course explores these questions and the various methods courts and scholars have proposed and adopted to answer them. The contrasting points of view regarding choice of law, jurisdiction and recognition of foreign judgments are analyzed in terms of which policies best promote harmony and efficiency in the federal system and accord with the federal constitutional requirements of due process of law and full faith and credit to the judgments of sister states .A special focus this year will be on the application of these areas of law to family law issues.

LAW 330(3) Remedies

This course examines what courts, including juries, have the power to do in civil cases once a litigant shows he or she has been legally wronged or is threatened with legal wrong. The subject matter of Remedies, now a required subject of inquiry on most state bar examinations, is very broad, meaning, in part, that it draws on many topics of legal study. Constitutional Law, Torts, Contracts, and Federal Civil Procedure, in particular, bear directly on the subject matter of the course. Remedies is therefore sometimes called a ¿capstone course, ¿ because it provides students an opportunity to bring together what they have learned in other courses on substantive and procedural law. One important component of the course is review problem sets (problems similar to examination questions and often presaging them) that are discussed in class. Another is an emphasis on how the remedial issues that become the subject of appellate opinions arise in the first instance, and are presented and play out at the trial court level. Open to all second and third year **Components:** Lecture

Telecommunications Law

This course surveys the field of electronic communications, from the telephone to broadcast media to the Internet. Historically, the field of communications has been divided between the traditional mass media (broadcasting, cable, satellite broadcasting) and telecommunications media (wireline and wireless telephone carriers). Today, the two general divisions are converging. One of the vehicles of that convergence is the Internet, which is capable of providing both mass media and individual communications services. This course will examine legal issues affecting all of these media. Much of the course material necessarily covers the history and theory of communications regulation as practically applied through FCC rulemakings.

Expert Witness Theory and Practice

The expert witness is a powerful weapon in a trial attorney's arsenal. Expert Witness Theory & Practice gives students the opportunity to learn about expert witnesses and work with experts in a mock trial environment. During this two credit hour course, students will learn who can be an expert, what an expert can testify about, the pretrial disclosure requirements for experts, differences between Illinois and federal law regarding experts, and the fundamentals of direct and cross-examination of experts. Students will then participate in simulations including a discovery deposition and a mock trial where students will present and cross-examine psychology graduate students serving as expert witnesses. Students will be graded on their performance of these exercises as well as written exercises and classroom participation. The mock trial will serve as the final examination for the course. Completion of Trial Practice or Evidence is highly recommended.

| Patent Law | | | |

This course is designed to expose students to legal issues concerning patents. The substantive law governing patents, including how they are obtained and enforced, is addressed. The format of the class includes lecture/discussions, as well as problem-solving and practical/clinical exercises. No technical background is required (although students should be aware that some patent cases may involve technical subject matter). Prerequisites: Intellectual Property is a pre-requisite OR permission of the instructor.

Real Estate Seminar

The seminar will focus on recent Illinois zoning and land use cases. Land use and zoning is one of the most important substantive law areas applicable to real estate development. Each student will select a recent reported case concerning subject property in the Chicago area. The instructor will assign the cases leaving students free to propose suitable alternatives. Students may trade cases with other students. Once case assignments have been finalized, the student assigned the cases will visit the site(s), perhaps taking photographs or videos. To the extent possible, the parties and their counsel will be interviewed. No library research should be necessary. However, all students will read the court;s opinion, and the student reporting on the case will also read the briefs of the parties. Each student will be given one full class period (50 minutes) to present an oral report to the seminar, beginning at the sixth week of classes. All members of the seminar will be required to attend these reports. After reporting and discussing the case with the seminar, **Components:** Seminar

02-MAR-2015 LAW 356(2) Course ID:012195 Advanced Courtroom Communication This course is designed to train student lawyers in the art of persuasive presentation and storytelling. Training will focus on the goal of persuading juries and engaging witnesses by presenting complex material with the ease of a conversation. In the first segment, students will learn also how to use vocal inflection and body language to tell the story between the words, project confidence while remaining flexible, and how insight, point of view, clear language, and mental/emotional connection equal authenticity. Courtroom delivery is examined through principles that apply to all spoken interaction: use of space, use of visuals, use of time. The second segment of the course focuses on effective storytelling for litigation. Students will learn how to construct powerful stories that illustrate critical aspects of the case, and develop a practical understanding of theming and use of character point of view. The course focuses concepts drawn from great political orators, theatrical performance, and public speaking. Students learn the practical skills that Seminar(In person) Components: Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: Electronic Classroom(1) LAW 357(1 - 2) Course ID:012703 04-DEC-2013 Multistate Bar Examination Workshop This unique workshop will help to prepare students for the Multistate Bar Examination (MBE). The MBE contains 200 multiple choice questions in the areas of constitutional law, contracts, criminal law and procedure, evidence, property and torts. In most states, including Illinois, the MBE constitutes one; half of the entire bar exam. Each workshop will focus on three of the substantive areas tested on the MBE. Students will receive test taking strategies, guidance in answering commonly tested questions, practice answering questions and analysis of their performance. This is a Bar course. LAW 363(2 - 3) Water Resources Law

This seminar examines the legal regime that governs the allocation and management of surface and ground water in the United States and on international rivers and aquifers. The class will cover the two basic allocation regimes in the United States -- riparian rights and prior appropriation -- and a variety of current topics. These include the capacity of the legal system to adapt to global climate change, the emergence of a human right to water, the impact of environmental laws on the right to divert water, the management of the Great Lakes, and the special rights of Indian Tribes.

This course will be taught at Chicago Kent College of Law. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students

Women and Jewish Law

This course will examine the primary issues of Jewish Law affecting women, particularly as they pertain to family law. Among the topics that will be highlighted are marriage, divorce, sexual relations, and child rearing responsibilities. The course will involve an examination of both the classical Jewish law texts on these topics (in English) as well as a discussion of more current positions on the issues covered. Students need not have any background or religious affiliation to take this class.

LAW 398(2) Course ID:012416 29-MAY-2012

This course examines the negotiation process engaged in by lawyers. It is intended to increase a student's understanding of that process and to develop his/her skills as a negotiator. Experts in various fields discuss negotiations as they apply in those areas of the law. Students engage in mock negotiations in a variety of contexts, such as divorce, real estate, contracts, commercial law, labor law, and criminal law. Not all instructors cover each of these areas of substantive law, and different instructors emphasize different areas of substantive law.

Must have completed 40 credit hours; if you take Mediation or Negotiations, you cannot take Alternative Dispute Resolution. If you have taken the Mediation & Other ADR Procedures Clinic, you cannot take this class.

Corboy Fellows I Corboy I is a graded course available to students in their first year of the Corboy Fellowship program. Instructor permission is required for enrollment. In the Corboy I course students earn 3 graded units in the Fall and 3 graded units in the Spring which includes mandatory participation in the evidence/trial practice boot camp at the start of each semester in addition to successful completion of course work in trial practice as required by the syllabus provided by the instructor. In the Fall semester of the course students develop the skills necessary to conduct a trial, including case analysis, opening statements, direct and cross examinations of witnesses, evidentiary objections and foundations for admissibility of evidence, and closing arguments. In the Spring semester of the course students build upon the basic trial advocacy skills developed in the Fall through in-depth case analysis and strategy, advanced direct and cross examination including expert witnesses, and use of the motions in limine to support the basis for evidentiary objections and

Business Entity Formation provides an opportunity for students to form various types of business entities including partnerships, limited liability companies and corporations. Students apply the legal doctrine learned in Business Organizations and other courses to a series of progressively more sophisticated simulation exercises and prepare the documents necessary to create and organize the entities. Students utilize information gathering, planning, counseling and negotiating skills in the development of the documents.

Prerequisite: Business Organizations Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students

LAW 404(1 - 2) Course ID:009782 27-FEB-2015 Client Counseling and Negotiation Weekend Workshop This skills training course will be conducted in an intensive workshop format over the course of two successive weekends. Students will learn the basic elements of client counseling and negotiation techniques and put them into practice. We will cover the process of interviewing and counseling clients and the negotiation process from the initial establishment of rapport, to the resolution of the conflict and compromise, to reach final agreement. The skills will be taught through role playing as client and attorney and as attorney vs opposing counsel. The course is ungraded, however, students will be evaluated by in class performance, by written exam and by a final performance in counseling a client and/or an assimilated negotiation to determine a grade of pass or failure.

Students may elect [in advance] to receive one or two credits for the course based on participation in one or Components: Seminar(In person) Requirement Group: Restricted to Law School students.

LAW 405(2) Course ID:013213 15-DEC-2015 Business Practice Transactional Skills This course will promote skills essential to successful lawyers in busines

This course will promote skills essential to successful lawyers in business transactional practice: evaluating facts; understanding the central business objectives of clients as well as the goals of other parties to the proposed transaction or relationship; issue spotting and problem solving; and developing, advocating for, and implementing responsive strategies.

Three parallel case studies will run through the course, illustrating the application of each topic to different types of client organizations: a Fortune 500 industrial company, an entrepreneurial family-owned business, and a medium-sized not-for-profit organization. The class will be presented with a series of problem simulations built around diverse, realistic business situations for these mock clients. Topics may include structuring; due diligence; letters of intent and similar preliminary documentation; suggesting

Mediation Advocacy

This class will focus on mediation theory and practice from the perspective of both the mediator and the advocate. The goal is for students to gain an understanding of the mediation process and to develop a working knowledge of negotiation and problem-solving strategies, techniques and skills that can be used to more effectively represent clients in resolving disputes. The course will also address public policy, legal and ethical issues that arise in the mediation context. Mediation skills are best learned from hands-on experience. Therefore, a substantial portion of this class will involve role-playing simulations. Over the course of this class, you will have the opportunity to serve as mediators, represent clients, be clients, and give feedback as observers.

Restorative Justice Workshop

In recent decades, courts, communities and schools are returning to restorative methods to address family issues such as child guardianship; escalating violence in our schools and streets; reintegrating prisoners into their communities; making decisions about appropriate sentencing; and the role of victims in the process. In each context, the same issues must be addressed: who is involved, what are the needs of the parties, and what can be done to resolve the issues at hand. This one credit course will be conducted in workshop format over the course of one weekend. Students will be able to identify the core principles underlying the restorative justice paradigm, compare and contrast restorative and retributive justice models, and learn the basic elements of conflict resolution techniques through a restorative lens. We will address the history of restorative justice and students will be trained on a restorative dialogue process.

Federal Litigation Practice

A significant portion of federal litigation occurs prior to the filing of a dispositive motion or a trial. This course will explore complex areas of federal litigation that are likely to result in a hearing before a federal judge. Each week, during the first part of the class, the students will explore a different area of substantive law involving frequently litigated topics in federal court such as attorney/client privilege, review of electronic evidence, use and scope of protective orders, and motions to compel. The second half of each class will involve the ""litigants" presenting their arguments to the Court based on fact scenarios given to the litigants the prior week. The course is taught by federal judge, Hon. Virginia M. Kendall, and will take place in her courtroom in the Dirksen Federal Building.

Feminist Jurisprudence

LAW 425(3)

The purpose of the course is to explore, in ways that are personally meaningful and professionally useful, the role of law in regulating the lives of women. We will cover the historical background of feminist legal theory, the standards of constitutional equality, the various feminist theories, and the construction of female sexuality. We will turn to Nussbaum's work on sex and social justice in order to pursue a philosophical grounding in the anti-subordination principle on a global basis. The remainder of the course will study one or more of the following, to be determined by the class: violence against women, reproduction, marriage, mothering, education, wage labor, and the legal profession.

Special Education Law and Advocacy

This course, which meets once a week for two hours, will deal in depth with current and timely issues in the education of children with disabilities. Students will learn federal and State statutory and regulatory procedures in determining eligibility for services, evaluation, development of the individualized education program, and provision of services in the least restrictive environment. The education of special needs children from early childhood through post-secondary transition will be addressed. The course will focus on advocacy, statutory and regulatory compliance, and dispute resolution. Students will form teams assuming the roles of parent/student advocate, school administrators, and school service providers in a variety of simulated activities throughout the semester, including: participation in eligibility and IEP conferences; disciplinary manifestation determination reviews; resolution sessions, mediation, and pre-hearing due process procedures; and determining Section 504 eligibility and developing and implementing a Section 504 service Seminar(In person) Components:

LAW 443(2) Course ID:010214 16-OCT-2007 Immigration Law and the Workplace

An estimated 12 million people live and work in the United States illegally, according to many news accounts. As the immigration debate rages, the focus is on both the immigrant workers and the employers who supply the jobs. It has been illegal to employ unauthorized immigrants in the U.S. since 1986. The Immigration Form & Control Act (IRCA) requires all employers to verify employment eligibility through the I-9 form, but the government has not been consistent enforcing immigration laws in the workplace. Moreover, many states and municipalities have taken on the issue and have passed their own immigration laws. The Immigration and Customs Enforcement (ICE) agency is responsible for ensuring that employers comply with the law and has issued new priorities in workplace enforcement. Other laws protecting workers, such as labor and comprehensive immigration reform. This course will focus on the obligations of US employers, both under IRCA and beyond and the implications of illegal immigrant employment. It will examine pitfalls that await an **Components:** Lecture(In person)

Comparative Education Research

This unique course will immerse students in a comparative analysis of early education law and policy in Italy and the United States. The specific focus of the class will be the world-renowned approach to preschool education developed in Reggio Emilia in northern Italy. The preschools in Reggio Emilia are widely regarded as the best in the world. The ""Reggio"" approach to early education is built on a particular understanding of the biological and social nature of children, and the role of the state in developing its young. Accordingly, the class will begin with an exploration of the neuroscience undergirding the Reggio approach and how this science informs: educational objectives and methods; the architecture of the educational environment, the connections between school and community and the legal and political structures surrounding children. Throughout the class, the ""Reggio"" aapproach will serve as a benchmark for understanding and assessing the law and policy of early childhood education in the United States. Negotiations Seminar

LAW 449(3)

Negotiating effectively is one of the most important qualities of a successful lawyer. This course seeks to help you move from negotiating by instinct, as most people do, to negotiating more thoughtfully, more comfortably and with a clearer sense of purpose.

This course merges theory with practice to: (1) develop your understanding of negotiation, and your awareness as a negotiator; (2) give you tools and concepts for analyzing and preparing for negotiations; (3) enhance your negotiating skills through frequent role plays, analysis, and feedback; and (4) teach you how to keep learning from your own negotiation experience. In addition to negotiation skills and theory, you will be introduced to issues of representation, ethics, and the place of negotiation in our legal system.

Religious Liberty Seminar

One of our first Freedoms: the freedom to worship in the way of one's conscience is arguably the foundation of liberty in the United States. This course will concern itself with the First Amendment's protections and limitations on our religious liberty by an examination of both historic and current issues in religious freedom whether involving personal behavior, medical issues or political activity tinged with religious issues. In addition to constitutional protections federal and state legislation concerning religious liberty will also be examined. A presentation and paper on topic in the area from each student will be required.

LAW 456(1 - 2) Mediation Seminar

Mediation is an alternative to litigation which enables disputing parties to negotiate their own agreed settlement. It involves an impartial third party neutral, the mediator, who assists disputing parties in this alternative dispute resolution (ADR) process. This course will offer an overview of mediation techniques, applications, and history. Through simulations and other in-class exercises, students will consider how mediation differs from other types of ADR processes, how mediation styles and models differ from one another, and how the role of the attorney-advocate changes during mediation.

LAW 457(1) Course ID:012412 29-MAY-2012

Each student enrolled will choose a current project of the Institute of Illinois Business Law and work with the members of that project sub-committee. The Institute has been located at Chicago-Kent for the past four years, under the Directorship of Prof. Philip Hablutzel. Over the past 30 years, the Institute and its predecessor has written all the major business statutes in Illinois. Each year, the Institute has six to eight law reform projects in various states of drafting or submission to the Illinois General Assembly. One or more students will work with a project sub-committee and do legal research and other assistance. The time commitment is four hours per week. Supervision will be by Prof. Hablutzel and the project chair.

Prerequisite: Business Organizations completed or taken concurrently; and permission of instructor. Students will be required to perform four hours of fieldwork each week.

Education Law and Policy

This seminar will explore the difficult legal, political and practical issues currently confronting American education. The course will begin with an analysis of the fundamental political and philosophical principles underlying the American educational system. Students will then be challenged to apply these principles to difficult areas of education law, such as: (1) the limits of compulsory education; (2) the relationship between public education and religious institutions and practices; (3) the nature of a constitutional right to education; (4) the adequacy and equity of school funding; (5) the balance between federal control through statutes, like the No Child Left Behind Act, and state control over curriculum; (6) school governance; (7) the rights and responsibilities of students; (8) traditional and novel torts in the educational environment; and (9) the rights and responsibilities of educators. Students will be required to participate actively in class, to facilitate class discussion of a selected topic, and to submit a paper which analyzes critically an

Course ID:012669 25-SEP-2013

This course is designed to introduce 1L students to the many specialized areas that a practitioner of ¿international law; must consider in an era of globalization. No prior knowledge of international law is required. The course will discuss situations of current interest in the world, illustrating the inter-relationship of public international law (relations among states, individuals, NGOs and others), the law of international business and finance, comparative law (the common law and civil law traditions), institutions and procedures for the settlement of cross-border disputes, and U.S. law that bears on issues that involve one or more other countries. Specific topics to be covered will probably include modern piracy, Wikileaks, money laundering, human trafficking, and the like.

Tax Controversy Intensive

This course offers students the opportunity for a hands-on approach to developing their skills and knowledge of the procedures and dispute resolution strategies involved in federal tax controversies. This intensive course will offer experience with pre-controversy planning techniques such as: pre-filing motions, conflict resolution with the IRS through both examination and appeals, and preparing for tax court litigation. Students will be engaged in a series of real-time scenarios for identifying issues, drafting responses and preparing memos related to both corporate and individual tax disputes.

Experienced tax attorneys will guide students through a series of mock procedures and interactions with the IRS, and assist the students in developing and improving their analytical and writing skills. Through a mix of panel presentations and guests lectures, students will gain an understanding of the types of challenges **Components:** Clinical(In person)

Comparative Education Law This course begins with an exploration of the legal and political structure of American education, including issues such as: (1) the role of government in mandating education; (2) the relationship between state and religion in the educational process; (3) the governance of educational institutions and the shaping of curriculum; and (4) the rights and responsibilities of teachers and students. The American legal system's resolution of these difficult issues are then compared to the resolution of these same issues by legal systems in other countries. Finally, students are asked to question the fundamental assumptions underlying the American educational system based on their understanding of different assumptions underlying the educational systems in other nations. Students are required to help to facilitate class discussions and to prepare a paper that analyzes critically an issue raised in the class.

Advanced Torts: Perspectives on Tort Law

This course has several objectives. It offers the student an opportunity to study several important torts topics not usually covered in the first year, such as products liability, misrepresentation, and business torts. It also offers an opportunity to consider whether tort law is a just and efficient way to resolve disputes and provide remedies for personal injuries and other types of harm. Perspective readings on tort reform evaluation will be included . Students also will conduct research on a topic of the student¿s choice and present findings to the class. The grade will be based on the quality of the presentation and a two-hour take home exam.

School of Law - Law Department - Subject: Law

LAW 476(3) Course ID:011958 21-MAR-2011

Art Law and Transactions is a study of the main legal issues involved in the acquisition, ownership and disposition of works of art. The primary perspective is that of an attorney in the representation of an art collector, and how the transactional arc involves regular concerns, such as contract law, as well as art specific concerns, such as Nazi-era looted art. Part I Acquisition begins with a focus on the legal issues raised by the various venues for art purchases (art commissions, through a dealer, at auction) and follows with the two core issues of authenticity and good title. Part II Ownership concerns three topics that could arise during the ownership phase: crossing borders, moral rights and art loans. Part III Disposition completes the transactional loop with a discussion of how one transfers works of art during life or at death, whether by sale or gratuitious transfers, including valuation concerns. The course will include several drafting exercises (some of which will be done in teams) and a one-hour in-class final.

Reading Constitutions: A Comparative Inquiry

Constitutions establish a framework of government and a regime of rights; they may also serve the purpose of expressing the deepest values and aspirations of the people for whom they are intended to provide a form of government. Constitutions come in all sizes and shapes, with varying substantive provisions, enforcement mechanisms, and amendment processes. Constitutions may contain provisions that are quite specific or highly general; most constitutions contain both. Some constitutional provisions may be transparent and straightforward, while others may be more or less opaque. To the extent that some provisions are opaque, that may be by accident or design. Public officials, including judges, must give meaning to constitutional provisions. How does one characterize the activity in which judges or other public officials engage when they are called upon to give some meaning to, or ¿apply,¿ constitutional provisions? Is there a proper method of constitutional interpretation applicable to all constitutional systems, regardless of their individually

International Litigation

LAW 479(3)

This course examines the litigation of international disputes in U.S. This is a perspective elective designed for 1Ls but available to all students. It covers the familiar civil procedures in the international context including choice of forum, choice of law, personal jurisdiction, subject matter jurisdiction, discovery, enforcement of judgments. It also covers topics unique to international litigation such as sovereign immunity, the act of state doctrine and foreign compulsion. The course also includes select topics in international litigation in foreign courts and an introduction to international commercial arbitration.

LAW 482(2) Course ID:012675 10-OCT-2013 Advising Not-For-Profit Organizations: Business Practicum There are more than 1.5 million not-for-profit organizations in the United States alone, and more throughout the world. Not-for-profit organizations contribute to society in many ways, through diverse missions from education and research, to social services, relief, and advocacy, to religion, to arts and culture. In addition to the impact made through their missions, not-for-profits as a group are significant as employers and for their contribution to the general economy as well. Not-for-profit organizations exist to further their charitable purposes, do not distribute dividends or net revenues (having no private shareholders or owners), and often are formed and operated to qualify for Federal income tax exemption under Section 501(c)(3) or other provisions of the Internal Revenue Code. Nonetheless, they have many of the same operational needs and characteristics of any other business. They occupy space Components: Seminar(In person) Requirement Group: Restricted to Law School students. Room Requirements: Seminar(1) LAW 483(2 - 4) Course ID:004672 01-JAN-1901 Instructor Consent Required Federal Tax Clinic The purpose of the Federal Tax Clinic is to educate the student in the practice and procedures of federal tax law and dispute resolution before the Internal Revenue Service (IRS) and the United States Tax Court. The tax clinic is neither exclusively a ""skills center"" nor a ""theory center."" Instead, all the numerous components of tax law practice are integrated in the curriculum of both classroom study and legal practice with actual clients. Some of the subjects include client interviewing and counseling, negotiations, and tax litigation. Students handle cases at the IRS and Tax Court level on a clinical basis and, with the clinic attorneys, prepare all appropriate written responses to the IRS, prepare Tax Court petitions, and litigate tax cases. Federal Income Tax is a prerequisite, and Tax Audits, Procedure and Ethics is recommended. This is a Skills and Experiential course. Collaborative Law Workshop

This course will provide students insight and practical knowledge of alternative dispute resolutions. This course focuses on the attorney's ability to understand the differences in the practice of mediation and the more recent development of the Collaborative law process and understand the application of each. Students will learn through didactic as well as skill-centered methods, giving each the opportunity to practice skills through role play and ¿fishbowl¿ exercises. We will cover the basics of mediation and Collaborative practice while emphasizing useful derivative skills that will serve students well in their future law careers. A client-centered approach, the primary goal of this class is to expose students to effective communication methods and skills that lead to settlement without litigation. Guest lecturers will bring their specific areas of expertise to the class so that students will be able to see first-hand the application of the processes we will be studying and be able better to emulate them. The final grade will awarded based partly

Construction Law

LAW 513(2)

Construction law draws upon many areas of law from contracts to torts to insurance and land use. This course allows students to understand how they interact and work together. It will focus on the legal issues common to the construction industry from transaction considerations to litigation. We will examine the parties involved in a construction project, project delivery systems, negotiation of contracts, scheduling and delays, insurance and bonding considerations, mechanics liens, defects, claims procedures, remedies, warranties, and termination. Students will gain practical experience in drafting construction contracts as well as writing complaints for a construction dispute. Readings will include state and federal cases and statutes, with a focus on Illinois law. In addition, this course will look at current construction projects and disputes going on in Chicago.

Components:Seminar(In person)Requirement Group:Restricted to Law School students.Room Requirements:General Classroom(1)

LAW 514(2) Media Law Course ID:012692 28-OCT-2013

This course will teach students the fundamentals of traditional media law with a particular focus on the intersection between injury law and constitutional speech and press protections. This area of study poses intriguing questions about the American balance between the rights of individuals to protect their reputation and privacy and the rights of those who speak via media ¿ whether traditional mainstream news reporters or citizens using social media platforms such as Facebook or Google Glass. In the words of former New Republic counsel Scott Gant, ¿we¿re all journalists now.¿ As a result, it is almost inevitable that even lawyers whose practice does not focus on media will confront questions about rights and liabilities arising from client speech. In addition to discussing defamation and privacy doctrine, we will cover statutory regimes that apply to public speech, such as the privilege to protect sources and rights of access to government institutions and documents, and consider whether and how those statutes apply to both old and new media

Construction Law

Loyola University Chicago

Course Catalog

Run Date: 04/01/2016 Run Time: 11:35:41

School of Law - Law Department - Subject: Law

LAW 526(2) Course ID:012630 26-JUN-2013

The course introduces students to the contractual relations among participants in the construction process; legal disputes arising out of the bidding and construction process; and the customs of the construction industry as they relate to legal problems. The course also includes discussion of the bidding process and bonding requirements; the contractual interrelationships among the owner, the architect, contractors, and subcontractors as defined by the ""contract documents"" and as implied by law; and an analysis of typical construction disputes arising from contract interpretation, change orders, time problems, and payment issues.

This course will be taught at Chicago Kent College of Law. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students

International Arbitration Oral Advocacy

LAW 527(1) Course ID:013197 19-OCT-2015

This course is designed to introduce participants to the oral advocacy skills useful for witness examination in international arbitration evidentiary hearings. Through PowerPoint presentations, the instructor will introduce fundamental concepts in eliciting witness testimony especially in cross-examination. Students will play the roles of counsel and witnesses in simulation exercises practicing cross-examination and redirect examination skills. The current Vis International Commercial Arbitration competition case materials will be used as the fact pattern for the exercises and will be supplied in advance so students can carefully review and prepare before the class sessions. Readings will be recommended from the book International Arbitration Advocacy co-authored by the instructor, Susan L Walker. A copy will be on reserve in the law school library and copies are available online at Amazon.com.

LAW 528(2) Contract Drafting

This course will teach the fundamentals of drafting precise and clear contracts. Drafting concepts will be taught through assigned readings, lectures, in-class exercises, hands-on drafting in pairs and alone, and review of, and comments to, an individual's work and the work of others. The majority of the semester will be devoted to drafting without the use of forms or precedent documents. For the first several weeks of class, students will draft the components of a contract, each component being either peer-reviewed or reviewed by the instructor. The components will be revised according to the comments received and integrated into a complete contract. The individual drafting will be supported by independent in-class exercises and review of the assigned reading and relevant cases. The final project will simulate a real-world drafting experience in which students will receive precedent documents, term sheets, emails, relevant statutes, and due diligence and will be required to prepare the first draft of the operative document for a transaction.

24-AUG-2012

22-AUG-2012

This seminar will examine select topics in contemporary international law practice and scholarship. Approximately every other week, the course will feature presentations of papers or works in progress by a leading international law scholar or practitioner. Students will submit short written comments of each paper in advance of its presentation. These comments will be sent to the speaker and the two hour session will be devoted to discussion of the paper and these comments.

LAW 541(3) Energy Law

This course offers a basic overview of the legal framework within which the production, distribution and sale of energy takes place. It is offered as part of the Program in Environmental and Energy Law but is open to all students. After a brief introduction to scientific concepts of energy and the history of energy technology, the course will survey the major sources of energy. The traditional sources have been oil, natural gas and coal converted to consumer products such as electricity and gasoline. Newer sources include nuclear and solar energy. Each source and delivery system has its own network of property rules and contract relationships. National energy policy will be reviewed and the impact of interregional competition on the regulation of energy will be studied, as will constitutional and economic concepts affecting the pricing of energy. Particular emphasis will be placed on energy issues in environmental law.

Advanced Tax (K)

LAW 543(2)

This seminar examines the tax and business planning aspects of mergers and acquisitions, including taxable and nontaxable transfers of businesses and real estate. Transactions covered include installment sales, earn-outs, options, technology transfers, reverse mergers and like-kind exchanges. Particular attention will be given to planning whether to use asset sales or stock sales, structuring financing for acquisitions and techniques for compensating investors. The seminar will also explore the taxation of partnerships, S corporations and limited liability companies and their special application to corporate and real estate acquisitions. Prerequisite: Personal Income Tax

Components: Seminar(In person)

Requirement Group: Restricted to J.D. and LL.M. students

LAW 544(4)

Course ID:012481 Community Lawyering and Civic Rights Practicum

This course focuses on how lawyers work with communities and organizations to bring about change and takes a practical approach to understanding different forms of community-based lawyering. Students will work (for an approximate total of 50 hours in the semester) on projects with community organizations. Their work may entail doing research, creating fact sheets and manuals, conducting ""know your rights"" presentations in the community, helping to craft the message of a campaign, writing press releases, and strategizing with community members on how to identify and resolve particular issues. In addition to their fieldwork, every week, students will be assigned readings relating to course topics, such as organizing and different theories of change, the tools and strategies of lawyers, the history of lawyers working with different communities, and the role of law and lawyers in different movements. We will have discussions based on the assigned readings, and guest speakers will join us throughout the semester.

Anatomy of a Deal

LAW 546(1)

This weekend course will provide the essential skill set you will need as an entry-level deal lawyer. This is increasingly important, in light of growing client unwillingness to pay junior associate rates for attorneys to learn on the job. Facing an ever more competitive recruiting environment, it will be crucial for you to come out of the gate armed with the appropriate skill set for your chosen practice area. This course is designed to prepare you to speak intelligently in interviews and hit the ground running on the job. To this end, the focus of each class will be how to perform due diligence and how to draft resolutions, third-party opinion letters, and closing documents ¿ tasks commonly assigned to junior associates. You will also study sample agreements that appear in many different types of deals, including commitment papers, indemnities, guaranties, escrows, pledge agreements and security agreements. When appropriate, we will invite guest lecturers to join us to provide real life insights into the transactional law practice.

International Patent Law

The management of large international patent portfolios (comprising patent applications filed in several jurisdictions), and an understanding of law and treaties affecting those portfolios, is fundamental to international patent practice. We will discuss the basics of filing and prosecuting patents under the Patent Cooperation Treaty (PCT), including issues that may arise when prosecuting a US application under the PCT. We will also consider other multinational patent treaties commonly used in foreign patent application filings that affect the management of international patent portfolios and US patents. We will take a comparative look at several aspects of U.S. and foreign patent laws, and will consider current controversies surrounding

Antitrust & Intellectual Property Seminar

This seminar focuses on the interface between Intellectual Property (IP) and antitrust law. Patents, copyrights and trademarks and other IP regimes confer exclusionary rights. Exclusive rights provide incentives and serve other ends, but their exercise can also impede competition distort otherwise competitive markets. This seminar will address the intersection of IP and Antitrust with respect to issues such as standard setting, licensing, corporate strategy, product design, effors to increase market share and mergers and acquisitions.

Prerequisites: Intellectual Property, Copyright or Antitrust Law or instructor permission. Components: Seminar(In person) Requirement Group: Restricted to JD students.

LAW 550(2)

Course ID:012295 20-FEB-2012 Search and Seizure: 4th Amendment Law and Practice in Illinois

A practical skills course on 4th Amendment/Search & Seizure law as it applies in Illinois, and how the most common issues are litigated in criminal cases. The class explores applicable Illinois statutes, Illinois Supreme Court rules, and federal and state case law that sets forth the prevailing legal basis for individuals' rights against unreasonable search and seizure. Taught by a Cook County Assistant State's Attorney and with question and answer sessions with a defense attorney and law enforcement; the course takes a balanced look at both the prosecution and defense approaches to Motions to Quash and Suppress, the bread and butter of pretrial litigation and the chief avenue for deciding 4th Amendment issues. After learning the legal basics, students will be tested on their ability to identify and analyze Search & Seizure issues in various scenarios and argue for or against 4th Amendment violations, as well as, practice some basic motion writing and oral arguments.

Comparative Education Law & Policy This unique course will immerse students in a comparative analysis of early childhood education law and policy. The course begins with an exploration of the legal and political structure of American early childhood education, including issues such as: (1) the role of the national and local government in regulating education; (2) the constitutional right to education; (3) the governance of educational institutions and the shaping of curriculum; (4) the rights and responsibilities of teachers; and (5) the image of the child. The American legal system;s resolution of these issues is then compared to the resolution of these same issues by legal and educational systems in other countries, particularly those in Italy and Finland.

One focus of the class will be the world-renowned approach to preschool education developed in Reggio Emilia, Components: Seminar(In person) Requirement Group: Restricted to Law School students. Room Requirements: Seminar(1)

Course ID:012501 18-OCT-2012

The purpose of this course is to develop and understanding of human behavior in changing organizations, and the managerial awareness, tools and methods that are available to increase effectiveness. The course surveys principles and theories about individuals and groups at work, motivation and interactive drives and processes for satisfying needs, organization strategies for effectively utilizing people and creating the environment to achieve goals of people and companies. New models of leadership, teams, organization structure are studied as the product of today's transforming organizations. Some elements of organization development methods are incorporated to show how OC practitioners work.

Leadership

Course ID:012526 19-DEC-2012

This seminar will cover the following topics: the legislative process in enacting budgets and tax legislation at the State and Federal level; how tax legislation affects the budget process; the political and legal issues in the legislative process of tax and budget laws; the intended and unintended consequences of legislation (e.g., the alternative minimum tax and the estate tax); the relationship of tax and budget policy to social and economic issues (Social Security, Medicare, health care, pollution issues, poverty, housing); comparison of tax and budget policy in the U.S. to other countries; and issues of fairness and compliance in tax and budget policy.

This course will be taught at Chicago Kent College of Law. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: Seminar(1)

Animal Law This course will offer a comprehensive examination of the rights afforded to animals as well as a look at the application and enforcement of those rights. Topics will include a history of animal rights, legislation, case law, ethics, lobbying and a discussion of issues confronting major lobbying and activist organizations. Constitutional, land use planning, international and environmental law issues will also be presented. The course will be taught through lecture and extensive class discussion including case and regulation analysis. Components: Seminar(In person)

History of the Federal Judiciary

People use the expression ""trial and error"" in reference to a continual experiment yielding both positive and negative results. Yet, it is all but forgotten that the federal courts developed in precisely this manner at the hands of many successive (and sometimes shortsighted) Congresses. Since 1789, Congress has tinkered with every conceivable detail pertaining to the Third Branch, from the important (such as defining federal jurisdiction) to the trivial (such as micromanaging times for holding court). Some of these efforts were short-lived, while others have persisted since the first Judiciary Act of 1789 and today constitute cornerstones of the modern federal judiciary. With that pedigree in mind, this course will examine certain aspects of the evolution of the federal courts from 1789 to the present, with particular emhasis on the structure and function of current, abolished and reconstituted Article III (i.e., constitutional) courts, federal judicial legislation, the federal judiciary, specialized Article III courts, the advent of Article I

LAW 568(1 - 3) European Union Law

The European Union establishes one of the largest markets in the world, is a major US trading partner, and a site of a number of US firms' overseas offices. The EU legal order is therefore an established component of the day-to-day business of numerous US firms. The EU legal order is likely to have an even more significant impact on US firms over time, as the current President of the European Commission has recently stated that one of the Commission's priorities is negotiating a trade agreement with the US to further trade between the EU and the US by abolishing custom duties on each other's products and adopting transatlantic product stated that

The purpose of this seminar is to enable students to fully understand the legal framework within which firms operate in the European Union. It will start with a study of the institutions and the structure of EU, which shares some features with other international organizations and federal structures, but also is unique in **Components:** Lecture(In person)

Securities Enforcement This course will examine the enforcement of the federal securities laws from the perspectives of both the

Securities and Exchange Commission and defense counsel. We will examine the SEC's investigative process, including the taking and defending of testimony; and will examine selective types of securities fraud investigations, including accounting fraud, insider trading, and offering frauds. We will also evaluate the role of auditors and in-house counsel in detecting and preventing securities fraud; remedies available to the SEC; the settlement process; and collateral actions by other civil and criminal authorities. The required weekly reading will consist of recent enforcement cases, rulemaking, related statutes, law review articles and other commentary. Most classes will begin with a student presentation on a securities law-related topic of their choosing. Guest instructors may be used to address specific topics throughout the semester.

Civil RICO and Pragmatism

This seminar will explore the Racketeer Influenced and Corrupt Organizations Act (RICO), which was enacted to combat organized crime but with the allure of triple damages and attorney's fees has been used in all manner of business and contract disputes. This expansive trend has met resistance from many federal judges, most notably Richard Posner of the Seventh Circuit Court of Appeals, sometimes referred to as the ""tenth Supreme Court justice."" We will examine Judge Posner's economics and ""pragmatic"-based methods of deciding RICO cases. Is this what Congress intended in enacting RICO? Or has he usurped the legislative role?

This course will be taught at Chicago Kent College of Law. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: Seminar(1)

Topics in International Law This seminar will explore in depth several current topics in public international law, for example, human rights, the use of force, humanitarian law in a world confronted by terrorism and torture, international criminal law, protecting the environment including outer space and the polar regions, and the right to consular access by aliens in death penalty cases. The seminar is designed to provide students with a foundation upon which to think about and research these issues, and the way that domestic law is often implicated in the formation and reformation of foreign policy. Students will be expected to sign up to present their own assessments of the developing law in several areas, one of which will likely become the basis of their seminar paper. During the first three weeks of the course, the instructor will present a brief overview of the international legal structure - its sources and limitations, and how it operates - as well as a philosophical foundation for a system of human rights. The overall goal of the course is to get future

Special Education Dispute Resolution

This one credit hour course will provide students with an intensive simulated experience in the various processes of resolution of special education disputes. Areas addressed will include some or all of the following: contested IEP meetings, manifestation determination reviews, resolution meetings, mediation, and due process hearings. Assuming the roles of parent legal advocate and school district counsel, students will develop a practical working knowledge of federal and Illinois statutes and regulations governing special education dispute resolution; develop a legal understanding of, and working familiarity with, student special education records and documents; and learn how to interview and prepare clients, witnesses, school personnel, experts, and others for their respective roles in the dispute resolution process.

This course counts as a Skills and Experiential Learning course. Components: Seminar(In person) Requirement Group: Restricted to J.D. and LL.M. students Room Requirements: General Classroom(1)

LAW 573(2) Course ID:012650 Prosecuting and Defending Terrorism Cases

This class will examine how terrorism cases are investigated, prosecuted, defended and punished. It will address how suspected terrorists are targeted and captured, including surveillance methods and interrogation techniques, as well as the questions of whether these measures are effective and potentially undermine well-established and deeply in-grained constitutional liberties and culture. It will cover classified evidence in the adversarial process -- including how it is gathered, how it impacts charging decisions and trial strategies, and how courts manage it in adversarial proceedings. In addition to drawing out these issues as they operate in civilian courts, the course will also examine judicial alternatives, including the use of military tribunals or national security adjudicative systems in other constitutional democracies, as well as extra-judicial and judicially pre-emptive measures such as preventative detention, designations and the freezing of assets. Overarching issues that will animate our exploration will be the need for emergency Components:

LAW 574(2) Course ID:012535 Canon Law on Ecclesiastical Administration

16-JAN-2013

14-NOV-2013

While the Catholic Church ultimately exists for spiritual purposes, religious institutions must operate in the real world of human resources, leadership development, strategic thinking, communication, marketing, property and finance. Canon law is the Church¿s own legal system that regulates ecclesiastical administration. In order to function effectively in this environment, knowledge of the Church¿s legal system and how it interacts with civil law is essential for lawyers and administrators responsible for the management of ecclesiastical entities such as Catholic hospitals, universities, social service agencies, dioceses and parishes.

Examples of specific issues would be in the areas relating to Catholic identity, sponsorship, mergers and joint ventures involving Catholic schools and health care institutions; incorporation and tax-exempt status Components: Seminar(In person)

LAW 576(2) Course ID:012528 19-DEC-2012 The Corporation and the Constitution (Kent)

This class will investigate the origin in law of the corporate form and explore the challenges presented by the modern corporation, both from the standpoint of its legal structure as a business organization formed by law, and the rights and privileges afforded corporations under case law that interprets the corporation as a jural ""person."" Readings will be considered from colonial charters to the recent U.S. Supreme Court decision in Citizens United v. FEC (2010). There will be special emphasis on the contracts and commerce clauses of the Constitution, as well as the 14th Amendment. This course is not so much concerned with corporate responsibility as it is with corporate governance and accountability. We will explore the concept of limited liability, trace the evolution of legal personhood, examine the original public purpose requirement of the corporate entity as contemplated in law, and consider the role of public law in the world of the self-regulating market.

LAW 579(1) Course ID:012605 Practice Fundamentals: Interviewing Skills

Some of the most common complaints about lawyers stem from a single fundamental truth: we are trained to talk, but we are not trained to listen. Clients tell us frankly that we ""have poor listening skills,"" and further that we ""don't genuinely care about them or their case,"" that we ""think we know everything"" and ""nitpick every word they say.""[1] Other client frustrations, such as ""not communicating clearly,"" ""not keeping [them] informed,"" and ""kill[ing deals]""[2] are superficially unrelated to our listening skills, but at bottom reflect a failure to appreciate the client's point of view. In short, all lawyers need to know how to elicit and contextualize information from those they represent in order to represent them well. While interviewing is crucial to client relationships, its value does not end there. Young attorneys juggle many audiences in a day. These include assigning partners or department supervisors and those encountered in the course of doing the legwork that is a beginner's bread and butter: opposing counsel and their staff, or **Components:**

Externship Long Distance

Legal Issues in Student Discipline

Students who have completed their first year of law school may receive two or three hours of credit per semester for supervised work done in chambers under the supervision of a member of the judiciary and his or her clerks. The externship course includes a classroom component which has been designed to compliment and support the field placement. The course is taught on Tuesday, Wednesday and Thursday evenings from 5:00pm - 6:00pm. Students may elect the day of the week they wish to attend the class at the time they apply for the externship. Applications are available on the law school website and in the offices of the Director of Experiential Learning.

LAW 597(2) Military Law

This seminar introduces students to U.S. and international law governing the use of the U.S. military both domestically and abroad. Topics include the constitutional power to initiate and regulate military action, the domestic and international law regulating military operations, and permissible and impermissible domestic uses of the military. It may also briefly touch upon the constitutional rights of service members and introduce students to certain unique aspects of the military criminal justice system. We will examine these topics through the lens of the campaign against ISIL (the self-described ""Islamic State"") and transnational counter-terrorism. A paper or take-home exam will be required.

LAW 602(3) Course ID:004727 17-OCT-2012 Instructor Consent Required ChildLaw Trial Practice (Intensive)

This is Trial Practice I with an emphasis on those issues important to advocacy in cases involving children. The course is taught by a team of lawyers and judges experienced in child advocacy, with a student/faculty ratio of no more than 8 to 1. The principal objective is to introduce students to litigation principles, and to teach them advocacy skills in an intensive learn-by-doing environment. The case files from which exercises are drawn also enable students to prepare for the special challenges involved in the representation of children (child witnesses, unique problems in expert testimony, special evidentiary issues, etc.). At the end of the course each student conducts a complete trial before a mock jury at the Daley Center. Evidence is

a prerequisite and the course requires instructor permission. This is a Skills and Experiential Learning course. Components: Clinical **Requirement Group:** Restricted to Law School students. **Room Requirements:** General Classroom(1)

LAW 603(3) Course ID:004728 04-AUG-2009 Interdisciplinary Seminar on Domestic Violence

This seminar explores issues of family violence, with an emphasis on domestic violence, through an interdisciplinary lens. An overview of the laws, public policy, and psychosocial approaches and trends addressing family violence issues. The course seeks to provide an opportunity for students in different disciplines to learn about the theories, philosophies, ethics, and practices of the range of professions that must confront family violence issues, and the impact of decision making in one forum on the practices and decisions made in another forum. Student are challenged to consider the strengths and weakness of the responses of various disciplines, and their interaction.

In the last decade, children have become ""the newest kids on the human rights block."" This seminar examines new laws and treaties developed to respond to age-old problems faced by children around the world. The course begins with a study of the U.N. Convention on the Rights of the Child, the most rapidly and widely accepted human rights document in the history of international law. It then examines ways in which these laws are being implemented, including a review of child and family law cases decided by the European Court of Human Rights in Strasbourg. The course explores such substantive areas as the comparative treatment of child abuse and delinquency, and the issues of child labor, international abduction, the plight of child soldiers, and the sexual exploitation of children.

The Civitas ChildLaw Clinic represents children in a variety of settings including child protection (abuse and neglect), child custody and visitation, education, and delinquency cases. Students typically work on at least two cases during the course of a semester, under the supervision of at least one member of the Clinic faculty. The Clinic also includes a weekly seminar that addresses relevant substantive law, advocacy skills, and ethical issues in the representation of children. Students will learn about the law governing their areas of practice and gain experience with a range of lawyering skills, including client interviewing and counseling, case planning, and written and oral advocacy. While the subject matter of the Clinic's cases focuses on children's issues, students should expect to develop skills transferrable to any practice setting. The course is open to all students eligible for a student practice license under Illinois Supreme Court Rule 711, and no prior experience in working with children is required.

Mediation Workshop

LAW 625(1)

Mediation is an alternative to litigation which enables disputing parties to negotiate their own agreed settlement. It involves an impartial third party neutral, the mediator, who assists disputing parties in this alternative dispute resolution (ADR) process. This course will offer an overview of mediation techniques, applications, and history. Through simulations and other in-class exercises, students will consider how mediation differs from other types of ADR processes, how mediation styles and models differ from one another, and how the role of the attorney-advocate changes during mediation. This course will be conducted in an intensive workshop format over the course of one weekend where students will role play as client and attorney. No textbook is required, nor is there a first assignment.

This is a Skills and Experiential Learning course. Components: Seminar(In person) Requirement Group: Restricted to Law School students. Room Requirements: General Classroom(1)

LAW 626(1 - 2) Course ID:004743 01-JAN-1901 Mediation Practicum This mediation course allows students to mediate family cases through several community projects. Students are required to have participated in some type of 40-hour mediation training in order to register for this course. These students receive additional training in family mediation, co-mediation and related issues. Students mediate in family group conferences and other multiple party mediations. Students participate in multiple simulation and mediations and receive feedback on their skills. The course meets once a week for the two hours for most of the semester, however students are also required to mediate at other times during the semester. There is no examination. Grading is based on participation in mediations, simulations and discussions and self-evaluations. Students may take the course for 1 or 2 credits. For 2 credits, a paper on mediation theory or practice is required. Where the student is taking the course for 2 credits, the research

paper is included in the grade. Enrollment is limited to eight students. Components: Field Studies

LAW 667(2) Course ID:012152 13-JUN-2013 Introduction to Children's Law , Policy and Practice

Prerequisite: Introduction to the Study of Law and Legal Systems

This required course is designed to give students an introductory overview of the law as it affects children. It begins with a discussion of the constitutional relationship among children, parents and the state, as well as the respective roles of the federal and state governments in the regulation of children and families. The course then introduces students to the principal areas of civil and criminal law that affect children and families. With this baseline of understanding, students can choose elective courses that provide a more in-depth study of a particular topic (e.g. education law, child welfare, etc.)

finance, and communications. Components: Lecture

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

Education Law and Policy

LAW 669(2)

This course explores some of the challenging legal and practical issues confronting education in America, including the uncertain boundaries between public and private education, the constitutional and statutory rights of students, including equal access and treatment, the increasingly fluid constitutional and statutory rights of teachers, and the structure of educational governance, including the role of the federal government, local control, school board powers and even strategic planning.

Prerequisite: LAW 665, 667 & 668

Child Welfare Law and Policy

Juvenile Justice Law and Policy

Components: Lecture(Wide World Web) Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

LAW 670(2)

Course ID:012209 28-NOV-2011

Course ID:012217

This course focuses on federal and state legal and policy efforts to protect children from abuse, neglect and other forms of maltreatment. Topics include mandatory reporting laws, liability issues, the general structure and content of child protection laws, including permanency planning termination of parental rights. Students will explore the concept of the best interest of the child in a legal context and review laws and research aimed at promoting children's welfare.

Prerequisite: Law 665, 667 and 668 **Components:** Lecture(Wide World Web) **Requirement Group:** Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

08-DEC-2011

LAW 671(2)

This course explores the law, policies and practices of the American juvenile justice system, past, present and future. The focus is on children who are in conflict with the law and those who, by virtue of their status as children, are subject to the jurisdiction of the juvenile court for engaging in conduct such as curfew violations, running away, and other forms of potentially harmful adolescent behavior. Among other issues, the course will examine how juvenile justice law and policy has been shaped by new research on adolescent development, including brain research.

Components: Lecture(Wide World Web)

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

LAW 672(2) Course ID:012220 08-DEC-2011

Family Law and Policy

The focus of the course is on the rapidly changing legal, social, and scientific landscape of family law. The course covers traditional areas such as marriage formation and dissolution, support, child custody and the role of the child's attorney, as well as emerging areas such as same-sex marriage, collaborative law, and defacto and equitable parenthood.

Components: Lecture(Wide World Web)

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

Mental Health Law and Children

Loyola University Chicago

School of Law - Law Department - Subject: Law

Course ID:012221 19-MAR-2013 LAW 673(2)

Mental health and substance abuse impacts everyone. According to the National Institute of Mental Health, in a given year approximately one quarter of adults in the United States are diagnosable for one or more mental illnesses. Additionally, one out of five children, either currently or at some point during their life, are diagnosed with a mental illness. Mental illness has a profound impact on children and families, including the legal response to these issues. Students will study the cases, statutes, and legal doctrines relating to the rights and inpatient/outpatient treatment of persons with mental illness or a developmental disability, with a special emphasis on children, youth, and parents and/or legal guardians. Topics covered include: informed consent to outpatient and inpatient treatment, aadmission/transfer/discharge, confidentiality of mental health records, litigation issues addressed by practitioners, and risk management strategies for mental health practitioners. This course will use cases and examples to compare and contrast application of Components: Lecture

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

08-DEC-2011

LAW 674(2)

Course ID:012218 Law, Poverty and Public Benefits

According to the National Center for Children in Poverty, children are disproportionately impacted by poverty, especially children of color and immigrant children. These risks are greatest for children who experience poverty when they are young and/or experience deep and persistent poverty. This course concerns those areas of civil law which most affect low income children and families, including public benefits such as welfare, housing, education, and health care. Other systemic issues will be explored, such as wealth discrimination, use of legal remedies to promote social change, and the delivery of legal and other services to children.

Lecture(Wide World Web) Components:

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

LAW 675(2) Legislation and Law Reform

Course ID:012219 08-DEC-2011

Course TD:012154

Course ID:012469

Course ID:012505

This course introduces students generally to the legislative process and more specifically to federal and state laws and policies that affect children and families. Students will have an opportunity to draft model legislation, critique existing or proposed legislation, and learn techniques for educating lawmakers and policies makers about children's needs and the importance of research and data in formulating child-centered and effective laws an policies.

Components: Lecture(Wide World Web)

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

29-APR-2012

04-SEP-2012

LAW 677(4)

Thesis/Capstone Project

Students are expected to complete either a thesis or capstone project of substantial depth that explores a specific area of children's law and policy and that integrates subject matter and/or leadership skills learned in the M.J. curriculum. The project is completed in close cooperation with a faculty advisor. Students are required to present their thesis or capstone project to faculty and fellow students during their graduation (Educational Immersion) weekend.

Components: FTC - Thesis Supervision

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

LAW 678(2) International Children's Rights

Prerequisite: Introduction to the Study of Law and Legal Systems; Introduction to Children's Law and Policy; and Leadership Development

Components: Lecture(Online)

Children's Health Law and Policy

Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

LAW 679(2)

13-NOV-2012

The purpose of this course is to teach interested students the application of law to critical public health issues that affect children and youth. Students will first learn basic principles of public health including the distinction between health promotion, disease prevention, and health protection. Next, the course will address the constitutional and statutory foundation of public health law, how legislative and regulatory decisions must negotiate the balance between individual rights and public good, and how the principles of parens patriae and state police powers affect child health. Cases studies in the areas of obesity, reproductive health rights of minors, mandatory school immunizations, student drug testing, and violence prevention will illustrate the application of public health jurisprudence from the national to the state levels.

Components: Lecture(Online) Requirement Group: Restricted to students in the Master of Jurisprudence, Children's Law and Policy online program.

School of Law - Law Department - Subject: Law

LAW 713(1 - 3) Course ID:004772 01-JAN-1901 Instructor Consent Required Health Law Directed Study Open to: LLM, MJ, SJD, and DLaw students. Prerequisites: none. LLM, MJ, SJD, and DLaw students may earn credit for participation in a targeted research tutorial. The scope and subject are chosen with the guidance of a faculty member who directs the students. (JD students can research in the health law field, but must register for the JD Directed Study.) This is a Non-Graded Course. **Components:** Supervision Requirement Group: Restricted to students in the Graduate Legal Studies program. LAW 714(1 - 3) Course ID:004773 01-JAN-1901 Instructor Consent Required Health Law Graduate Externship Open to: LLM students enrolled in campus courses. Students enrolled in the LLM in Health Law degree program may earn externship credit for working at an approved health law externship site. This program is designed to offer students practical experience to further develop lawyering skills and health law expertise. Students may receive up to three credits. This is a Non-Graded course. Field Studies Components: Requirement Group: Restricted to students in the Graduate Legal Studies program. LAW 715(2 - 3) Course ID:004774 03-AUG-2015 Bioethics, Law & Policy This course provides an overview of American law as it relates to emerging ethical issues in medicine and health care. It is intended to give students an appreciation of the ways in which medical practice and decision-making are guided by modern American principles of constitutional, tort, administrative, and criminal law. Students will learn how the law's regulatory powers have been used to set boundaries in medicine, and, in turn, how theories of medical ethics and practice have informed modern legal developments. Topics covered vary from year to year, but may include issues in end-of-life care, research ethics, reproductive autonomy, distributive justice, and genetic technology. This course counts as a Perspective Elective course. Components: Seminar Requirement Group: Restricted to J.D. and Health Law students **Room Requirements:** General Classroom(1) LAW 716(2) Course TD:004775 01-JAN-1901 Law, Medicine & Technology Components: Lecture Room Requirements: General Classroom(1) LAW 717(2) Course ID:004776 01-JAN-1901 Mental Health Law This course introduces students to the cases, statutes, and legal doctrines relating to the rights, treatment, and commitment of persons with mental illness, developmental disabilities, or intellectual disabilities. Topics covered include: confidentiality of mental health records, forms of surrogate decision-makers (i.e. guardianship, powers of attorney), mental health treatment for minors, right to refuse treatment, special education, and the Americans with Disabilities Act (ADA). Students will discuss real-life cases and examples to compare and contract application of the law and policies. LAW 731(1) Course ID:004790 04-JUN-2014

Medicare and the Affordable Care Act The U.S. Medicare program is a health insurance program for the aged, severely disabled and people with end stage renal disease. As a major federal entitlement program, the Medicare program raises a host of legal issues for beneficiaries of the Medicare program and the providers and suppliers who provide health care services to these beneficiaries. This course is a survey of the important legal issues that health lawyers are likely to face in representing Medicare beneficiaries, providers and suppliers. This course also provides an overview of how the Medicare program affects the regulation of health care organizations and I

LAW 732(1) Course ID:004791 18-FEB-2014

This course will examine the three major Federal laws governing healthcare fraud and abuse: the Stark law, the Anti-Kickback Statute, and the False Claims laws. Students will learn how to navigate through the complex maze of statutes and regulations. In addition, the public policy concerns which underlie each law will be discussed in great detail throughout the semester. The goal of the course is to equip the future lawyer with the tools necessary to properly identify healthcare fraud and abuse issues, and to effectively advise their clients on these issues.

The Americans with Disabilities Act was passed in 1990 as a key civil rights law to help persons with disabilities obtain access to employment, government functions at all levels, and most public Accommodations. This seminar will explore how our disability laws have succeeded, and failed, to fulfill their promise. We will also examine closely the significant recent activity by the Supreme Court in this evolving, dynamic area of the law. Each student is expected to select a topic of particular interest to him or her, perform an in-depth review of the law related to that topic, and write a paper on the subject. Student's progress will be tracked through class discussion, informed reaction papers and the final research paper.

Provides students with an overview of key legal and policy issues in the diverse and growing field of long term care. In the context of the seminar long term care will be cast broadly as an area that deals with diverse populations that have profound and ongoing health/social needs including disabled populations and the elderly. While much of the course will focus on statutory and regulatory law, significant emphasis will be placed on evolving public policies in long term care that impact programmatic developments in quality assurance , insurance coverage and the regulation of institutional and community actors. Specific areas of focus will be selected for each term for review and analyses including diseases of aging, prevention of abuse and neglect, uses of telehealth, senior housing policy and end of life care. Materials from the United States, Canada, the EU and Japan will be referenced. Students will be required to write two memoranda and participate in a group project.

Health Justice Advocacy

LAW 769(3)

Topics in Long Term Care

The Health Justice Advocacy course is a live-client clinic that provides law students with an intensive, challenging education in the fundamentals of legal practice. Students practice and hone their ability to investigate facts, interview, issue spot, and advocate on behalf of a client. Students may address a variety of legal matters related to the client; health, including medical debt forgiveness, advance care planning, housing conditions and public benefits denials. Students also gain experience collaborating on an interprofessional level and an understanding of legal systems that affect poverty and health. This course is ideal for a student embarking on a public interest, social justice or health law career.

This is an Experiential Learning and Skills course.

LAW 773(0) Course ID:004808 15-OCT-2011

Doctoral Dissertation Supervision Open to: SJD and DLaw students only. Prerequisites: Doctoral Dissertation Research I and II, Bibliography Tutorial. The dissertation advisor will work with the candidate to form a doctoral committee comprised of the advisor and two outside readers. (In the case of foreign students, one outside reader may be sufficient.) The committee will assist the student by consulting on dissertation substantive issues, reviewing the working draft and approving the final product. Dissertations should represent important contributions to the field, (minimum length 150 pages and double spaced) but specific format and content needs to be clarified between the candidate, the advisor, and the committee. Once clarified, the suggested format must be followed. Once the dissertation has been completed, it must be presented at an open forum to be attended by interested members of the law school community. Students must enroll in this course during both fall and spring semesters of his/her second year.

Health Care Compliance This course is designed to expose law students to key legal concepts in the health care corporate compliance and ethics fields, which may be broadly defined as the application of internal corporate initiatives to ensure compliance with applicable federal and state laws and regulations. Health care is a highly regulated industry, and a health care attorney must have a broad understanding of compliance issues. Through readings and class discussion on common health law topics such as the Anti-kickback Statute, the Stark law, the False Claims Act and its whistleblower provisions, students will develop an understanding of the need for and the role of the Compliance Officer in a health care institution. Students also will begin to explore recent movement toward more broadly-based organizational integrity and ethics programs. Underlying course themes will include how to structure an effective compliance program and the role of government enforcement in controlling health care costs.

Health Law Colloquium

This a unique course offered once a year to a select group of students from Loyola and DePaul. Enrolled students read and discuss draft articles of nationally renowned professors in the field of health law. They must also write a three page memo (double spaced) with comments on the article that will be useful to the professors. The articles are typically draft law review articles. The discussions are focused on helping the professors to refine and improve their articles, such that a strong foundation of health law is expected, even though there is no official pre-requisite. This course meets every week, but the students only meet in person roughly half the time, with the other half of the sessions done by videoconference. Three of the in-person classes will be at DePaul and the other three in-person classes will be a Loyola. Please be sure that your schedule allows you to arrive at either law school by 4 p.m. There is no final exam or research project required for this class. Instead, students are required to attend and actively participate in all

M.J. Introduction to Business & Law

This course is taken in the first semester of study to gain an overview of the structure and functioning of our legal system. The class introduces the basic law school curriculum from a business law perspective including: Constitutional Law; Contracts Law; Torts Law; Civil Procedure; Criminal Law; and, the UCC. Students are also introduced to legal analysis and reasoning, including how to read and analyze written judicial opinions and statutes. This course also provides an overview of the laws that affect businesses day-to-day including ethical business conduct policies, consumer protection, human resources and employment issues, real estate, intellectual property and corporate governance.

Components: Lecture(Wide World Web)

Requirement Group: Restricted to students in the M.J. in Business Law Online program.

LAW 801(4) Course ID:004822 Introduction to Legal Studies and Legal Writing

This course introduces legal research methods and principles of legal writing in the first semester of the program. Through a series of exercises on relevant topics, students will refine their writing skills. By ressearching and writing on varied issues, students learn to apply legal research techniques. Students read and analyze legal authority and learn how to apply legal authorities to particular fact situations. Through a series of legal memoranda writing assignments, students develop their analytical and writing skills. Computerized research techniques are included in the course.

LAW 811(2) Course ID:012383 30-OCT-2013

In this course, students will study and analyze the law and practice of corporate governance law for publicly held corporations. Introductory sessions will detail corporate governance law and regulation, with a specific focus on he impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. Thereafter, a number of alternative proposed reforms will be assessed. Finally, the course will address practical elements of corporate governance practice including professional responsibility issues, the director selection process, board diversity, and empirical learning regarding the best corporate governance practices.

Requirement Group: Restricted to students in the M.J. in Business Law Online program.

LAW 812(2) Course ID:012385 22-FEB-2016 Financial Institution Regulation I

The course has two objectives. First, it will examine and analyze the current bank regulatory system. Consideration will be given to the function and regulation of depository institutions, as well as, that of various classes of affiliated entities such as those involved in the issuance of securities, insurance and merchant banking. Second, the course will examine the mechanics of key bank operations including, syndicated lending, underwriting and the securitization of debt securities.

Where Business Meets Law Prerequisite: Business Organizations

In this course, students will focus on contract drafting, communications, transactions analysis, matter management, negotiation and client service. We will use simulations, role playing, in-class negotiations and a five week drafting and negotiation lab to introduce you to the basic work of a transactional lawyer. The goal of this course is to offer you a basic primer on the actual practice of transactional law. Practicum(In person) Components:

LAW 827(3) Course ID:012918 30-JUN-2014 Instructor Consent Required Succession Planning For The Family Business This Capstone Course is limited to twelve, 3Ls who have completed Estate & Gift Tax and Advanced Corporate Tax. For the first half of the semester, the capstone students will be part of the Estate Planning class taught by Prof. Rhodes during which time they will learn the fundamentals of estate planning. After spring break, the Capstone students will have their own specialized classes co-taught by Professors Kwall and Rhodes

that focus on family business planning. The Capstone Course is intended to serve as a ¿bridge to practice; for future lawyers representing entrepreneurs of successful multi-generation, family-owned businesses. These clients expect to be serviced by a lead professional who can integrate business, income tax, and estate planning objectives. Although the Tax Certificate program offers a rich curriculum in income tax and estate tax, these courses only provide the building blocks to comprehensive planning. This Capstone Course is designed to equip students with the Components: Seminar(In person)

School of Law - Law Department - Subject: Law

26-OCT-2015 LAW 855(3) Course ID:013023 International and Comparative Antitrust Law This module explores the internationalization of competition law in the context of globalization and international trade. It examines the regulatory framework governing competition among firms internationally, identifying and analyzing the existing limitations and challenges in this regard. In particular, it looks into rules governing extraterritorial jurisdiction, discovery, recognition and enforcement of judgments in the international context. It also explores issues pertaining to merger review, trade and competition interface and the existing cooperation between antitrust agencies. The course is comparative in nature and focuses predominantly on US Antitrust and EU Competition Law. No prior knowledge of competition law (antitrust) or international economic law is assumed. Components: Lecture(Online) Requirement Group: Restricted to students in the M.J. and LL.M. Global Competition Law programs. LAW 856(3) Course ID:011714 21-AUG-2012 Advanced Alternative Dispute Resolution The course will focus on the substantive and procedural elements of the various forms of alternative dispute resolution techniques in the United States. The class will cover arbitration, negotiations, mediation, mini-trials, non-binding arbitration using legal assistance, and the role of counsel in each of these processes. A significant amount of class time will deal with mediation as well as both administered and non-administered arbitration. The class will address established principles of arbitration law, the various types of arbitrations, the rules governing arbitration, the role of counsel in the processes, as well as the power, responsibilities and ethical requirements of both mediators and arbitrators. The course will combine a traditional lecture format with practical experience designed to provide the student with a strong substantive basis in mediation and arbitration, as well as clinical experience with several mock mediations and arbitrations insterspersed during the course term. Components: Seminar(In person) Requirement Group: Restricted to the Master of Laws Trial Advocacy students. Room Requirements: Seminar(1) LAW 860(2) Course ID:004836 15 - 0CT - 2011LLM Tax Seminar FTC-Supervision Components: Requirement Group: Restricted to students in the Master of Laws, Taxation program. LAW 863(2) Course ID:013025 22-DEC-2014 Instructor Consent Required Consumer Protection Law The course surveys consumer law from a transactional perspective, beginning with issues of deception, including false advertising, related to consumer purchases. There is coverage of the law of consumer credit, including issues of discrimination, overpriced credit and deceptive credit practices, and standard form contracts of adhesion and recent rulings covering binding arbitration and class actions. Consumer remedies and special issues of consumer fraud on the Internet complete course coverage. Components: Lecture(Online) Course ID:011979 LAW 864(2) 05-APR-2011 Federal Criminal Trial Advocacy Students will follow the evolution of a federal criminal case from investigation to trial. The class will focus on one mock problem - which will likely be a federal narcotics investigation that resulted in a two-count indictment. The indictment will allege that the defendants conspired to distribute more than 280 grams of a controlled substance and that they indeed distributed the controlled substance. Because it will be too complex for a one-semester course, I do not recommend that the mock problem include a Title III investigation. The class will be divided into three parts: 1) Investigation 2) Suppression Hearing and 3) Trial. Components: Seminar(In person) Requirement Group: Restricted to JD & LLM Trial Advocacy students.

LAW 882(2) Course ID:012434 30-JUL-2012 Legal Research and Writing II This course is required for international students in the LL.M. and U.S. Law or the LL.M. in International

Law.

During the fall semester, students take Legal Research and Writing I and are introduced to legal research methods and the fundamentals of legal writing. Students read and analyze legal authority and learn how to apply the legal authorities to particular fact situations. Through a series of legal memoranda and exam writing assignments, students develop their analytical and writing skills. Students are taught legal research methods through written exercises, research memos, and lectures. During the spring semester, students take Legal Research and Writing II which builds on the basic writing, analysis, and research skills learned in the first semester. In the spring semester, students are also introduced to persuasive writing Lecture(In person) Components:

Course ID:010704 Introduction to Legal Study and Legal Writing

This foundation course introduces students to the sources and functions of law in our society. The course begins with an explanation of the structure of the American court system. Students then learn to read and brief cases, synthesize cases, and develop basic legal writing and analysis skills. Through multiple short writing assignments, students learn to construct a legal office memorandum, the final course requirement. The course utilizes health law cases and problems and provides students with background for future health law studies.

Components: Lecture(Online)

Requirement Group: Restricted to students in the Health Law Online Program.

Course ID:010907

LAW 901(1) Introduction to Legal Research

This course provides an overview of the legal research process. The student will learn basic legal research skills with a focus on online legal sources. Students will search for health law cases, statutes, regulations and law journal articles. They will learn how to use citators to verify that a case or statute is still good law and also learn the proper form for citaion of legal authorities.

LAW 926(2) Human Subjects Protection

This course will cover the law of protecting human subjects in clinical research. Federal agencies require institutions conducting research to have a study approved by an Institutional Review Board (IRB), obtain informed consent from the human subject, and self-disclose to the government various events. The course will review the regulations governing IRBs, the content of informed consent forms, the monitoring of research studies, and the disclosure of unanticipated events and significant non-compliance. The course will look at enforcement cases as well as tort liability. Financial relationships between investigators and sponsors will also be covered. LAW 958 (Life Sciences, Research and the FDA) is a preferred prerequisite but is not required.

Components:Seminar(Online)Requirement Group:Restricted to MJ and LLM Health Law Online students

Course ID:013062 28-JAN-2015

LAW 927(2) Advanced FDA Law

This course will cover advanced topics in the law governing development and approval of devices, drugs, and biologics under the jurisdiction of the U.S. Food and Drug Administration. The course will review regulatory obligations for both manufacturers and providers conducting FDA-regulated clinical research. The course will also cover enforcement of non-compliance and how organizations develop compliance infrastructure to manage the highly detailed FDA regulations. LAW 958 (Life Sciences, Research & the FDA) is a preferred prerequisite but is not required.

31-MAY-2011 PLAW 101(3) Course ID:012070 Comparative and Ethical Lawyering for the Rule of Law This course will develop the students' key knowledge and skills required to provide effective advise and assistance in a country with a culture and a legal system different from the culture and legal system in which students received their legal educations. The course will examine and compare the main elements of particular relevance to rule of law assistance work in each of the three major world legal systems: common law, continental civil law and Islamic law and the typical institutional frameworks adopted to organize each of these legal systems. It will also explore customary law sources in developing countries and how they are integrated in a formal way into modern legal systems and/or applied in practice. The course will also provide practical examples of successes and failures of cross-system rule of law assistance efforts attributable to success or failure to manage differences in legal systems and culture and explore relevant strategies for success. Finally, the course will encourage students to consider the ethical dimension of Components: Seminar(In person) Requirement Group: Restricted to students in the Rule of Law Development LL.M. program. Room Requirements: Seminar(1) 31-MAY-2011 PLAW 102(3) Course ID:012071 History, Theory and Practice of Law for Development This course will develop the students' working knowledge of the history, theoretical models and current approaches of academicians and practitioners to understanding the rule of law. It will examine the relationship between law and development and how that relationship operates in rule of law advising. The course will survey academically-oriented rule of law work in the 1960's and the earlier theoretical work upon which it was based and follow the development of the field to date with a focus on theory and practice of

rule of law initiatives undertaken in the setting of international development assistance programs. Examples from bilateral and multilateral assistance efforts will be analyzed to learn from the successes and failures of rule of law iniatives aimed at the promotion of human rights, the promotion of democracy and good governance and the improvement of the legal framework for investment and trade. The course will also explore alternative change models to which rule of advisors can refer in their engagement with counterparts and in **Components:** Seminar(In person)

PLAW 103(3) Course ID:012072 11-SEP-2013 Theory and Practice of Assessments in Rule of Law Advising This course will provide students with the knowledge and skills required to undertake the assessments of needs, the crucial lynchpin required for the design of specific rule of law initiatives. As this aspect of rule of law work requires the performance of tasks, which are generally outside the experience and training of law graduates, students will be provided with a new set of research and analytic tools and methodologies from outside their field. While concentrating on examples from the legal and justice sector, these tools will include interviewing skills, use of data from existing sources, the generation of new data, the design and conduct of reliable surveys, the use and interpretation of statistical data and the drafting of the assessment documents themselves. The course will relate closely to the courses on Comparative and Ethical Lawyering for the Rule of Law and the International Development Architecture, insofar as assessments will require analysis and description of the state of the target country's legal system, the functioning of Components: Seminar(In person) Requirement Group: Restricted to students in the Rule of Law Development LL.M. program. 31-MAY-2011 PLAW 104(3) Course ID:012073 International Development Architecture

This course will prepare students to provide rule of law advice, which takes into account the complex framework of national and international legal and institutional arrangements and policies, which has gradually been established since 1945, especially as such framework relates to rule of law advisory work. The course will begin with a review of the Bretton Woods institutions and regional international financial institutions (IFI's) from both a legal and functional perspective to clarify the role of such organizations in international development and how they operate. It will analyze the loan and program portfolios of these organizations to develop an understanding of the direct role, which the IFI's are playing in the financing of rule of law projects and programs. The course will then compare the policies, portfolios and working modalities of a selection of national (bi-lateral) donors and the European Commission to identify how these donors are contributing to rule of law work. This part of the course will also include an examination of the Seminar(In person) Components:

Requirement Group: Restricted to students in the Rule of Law Development LL.M. program. **Room Requirements:** Seminar(1)

PLAW 105(3) Advsing for Economic, Social and Institutional Reform

This course will survey the substantive areas most frequently dealt with in rule of law initiatives, the key issues present in each area and tested strategies for encouraging reform and building capacity in each area. The course will group the substantive areas into three categories and explore the main issues and reform strategies for each. First, the course will explore issues related to the development of the legal framework for investment, international trade and business and the capacity to structure, manage, govern and negotiate in these areas. Second, the course will examine how rule of law initiatives are dealing with issues relating to the well-being and security of individuals and social groups. This will include an examination of how rule of law initiatives interact with such issues as human rights, trafficking of people, restoration of rights after conflicts or national disasters, transitional justice, gender equity, environment, land tenure, health and legal empowerment of the poor. Finally, the course will examine how rule of law initiatives are Components:

Course ID:012120

Design of Rule of Law Programs and Proposal Preparation This course will improve the understanding and skills of students in the area of project design and the preparation of proposals related to rule of law assistance. Accordingly, the course will develop the students' skills in undertaking the principle steps in the design process. Building on the course on needs assessments, the course will begin with effective needs and problem analysis and then analyze the process of identification of goals, objectives and activities; project inputs and expected outputs, selection of appropriate project partners; the identification of performance indicators, design of a monitoring and evaluation plan, design and stucturing of a proposal; prospective donor identification and the designing of a plan for project management and reporting. The course will include instruction and practice in the building of logical project frameworks, the principal analytic tool used for project design in the international development community, the establishment of the credentials of the proposer to undertake the project and the Components Seminar(In person)

PLAW 250(3) Course ID:012121 09-JUN-2015 Thesis Research and Writing on the Rule of Law Each student shall be expected to undertake research under the supervision of a faculty member for three credit hours. Supervised Research provides a seminar-type experience to a student in those areas where there is no curricular offering or where a student wishes to explore a subject in greater depth than would be possible in an existing course or seminar. The supervisor and student will establish a calendar of face-to-face meetings and e-mail feedback sessions that allows for substantial interaction and discussion. The supervisor will also provide feedback on research methodology and counsel the student on areas within the topic on which the quality of the research can be improved or the breath or depth of the research can be extended. Components: FTC-Supervision

Requirement Group: Restricted to students in the Rule of Law Development LL.M. program.

CMAN 569(3) Course ID:012241 Comparative Effective Research in Healthcare

Prerequisites: GNUR 450 or equivalent required. CMAN 439 and 440 recommended.

Comparative effective research (CER) is a central tenet of health care reform. This course offers an overview of policy implications and rationale for CER and explores different approaches of developing, analyzing and communicating CER. Research comparing the clinical and economic merits of different treatments, devices and procedures will be explored.

Outcomes: Apply political, social and ethical perspectives to uses of CER, Demonstrate effective retrieval of CER reviews from public sources, Demonstrate knowledge of major CER methods and tools, Evaluate quality of evidence from CER reports, Assess treatment options in defined patient population.

Components:Lecture(In person)Requirement Group:Prerequisite: GNUR 450 or equivalentRoom Requirements:Classroom Not Needed(1)

This course promotes in-depth exploration of theories, practice and research related to health education and health behavior change across a broad spectrum of high risk behaviors. It emphasizes an ecological approach to disease prevention and health promotion based on the Healthy People 2020 determinants of health.

Outcomes: Describe the integration of the Healthy People 2020 determinants of health: personal, biologic and genetic, social, economic, and environmental factors; Apply relevant individual, interpersonal, organizational, community and population-focused theories and models for change.

School of Nursing - General Nursing - Subject: General Nursing

15-MAR-2006 GNUR 231(3) Course ID:009693 Success in Nursing II This course is the second of a two course sequence designed to help nursing students increase their academic success. Outcome: The student will have the opportunity to explore ways to improve their academic performance by examining their own learning. The student will be able to use case studies to improve critical thinking and problem-solving. Components: Lecture(In person) Room Requirements: General Classroom(1) 26-AUG-2010 GNUR 238(5) Course ID:011790 The Foundations of Clinical Practice in Nursing Prerequisite: Biology 152 This course introduces basic nursing concepts, including physiologic and safety needs, physical assessment, and fundamental nursing skills. Students are prepared for the professional role of the registered nurse. Students learn the foundations of nursing practice using the American Nursing Association (ANA) Standards of Practice and Professional Performance. Outcomes: Demonstrate history and physical assessment techniques and fundamental nursing skills. Laboratory(In person), Lecture(In person) Components: Requirement Group: Restricted to undergraduate nursing students. Room Requirements: Electronic Classroom(1) 15-MAR-2006 GNUR 243(2) Course ID:009736 Professional Nurse Leadership I This course discusses the concepts essential to the development of the professional identity and role of the nurse as a leader. Outcome: The student will be able to incorporate concepts of leadership and civic engagement in relation to the health care system. Components: Lecture(In person) Requirement Group: Restricted to Nursing students. Room Requirements: Electronic Classroom(1) GNUR 290(2) Course ID:013273 11-MAR-2016 Concepts in Older Adult Health This course introduces students to the care of older adults. It is designed to explore current concepts and practices pertaining to aging. This course provides an overview of the normal physical, psychological, and social-cultural aspects of the aging process. It addresses health and health alterations of aging and exploration of attitudes toward care of the older adult. Enrollment is restricted to students admitted to the BSN program. Components: Lecture(In person) Requirement Group: Restricted to undergraduate nursing students. Room Requirements: Electronic Classroom(1) GNUR 293(4) Course ID:003357 12-APR-2010 Pathophysiology Prerequisites: BIOL 152 and BIOL 209. This course provides the student with knowledge of the basic mechanisms involved in pathophysiological processes. Outcome: The student will be able to use critical thinking skills in the application of pathophysiological processes to clinical practice. Components: Seminar Requirement Group: Restricted to Nursing students. Room Requirements: General Classroom(1) GNUR 294(3) Course ID:003358 30-JUN-2015 Foundations of Pharmacology Prerequisites: GNUR 238, GNUR 293 / Restricted to Nursing students This course introduces nursing students to pharmacology and provides them with the foundation needed to administer medications. Components: Lecture

Requirement Group: Prerequisites: GNUR 238, GNUR 293 / Restricted to Nursing students

Room Requirements: Auditorium(1)

School of Nursing - General Nursing - Subject: General Nursing

GNUR 295(2) Course ID:003359 15-MAR-2006 Pharmacotherapeutics This course applies the principles of pharmacokinetics, pharmacodynamics, safe and ethical medication administration to the pharmacotherapy of common health care problems. Outcome: The student will be able to apply principles of pharmacokinetics, pharmacodynamics, and medication administration to clinical practice. Components: Lecture Room Requirements: Electronic Classroom(1) GNUR 296(1) Course ID:003360 05-JAN-2009 Clinical Nutrition This course includes study of the nutritional status and needs of the individual during growth and development, through the life cycle, and as changed by various disorders, conditions and diseases. Outcome: The student will be able to use critical thinking to apply nutrition concepts to clinical practice. Components: Lecture Requirement Group: Restricted to Nursing students. Room Requirements: Electronic Classroom(1) 26-AUG-2010 GNUR 297(2) Course ID:011791 Clinical Nutrition for Nursing Practice Prerequisite: Junior Standing. This course introduces foundations of nutrition for nursing practice. Evidence-based nutrition is applied across the life-span and health continuum. Nutritional assessment, cultural practices and health policies are explored. Components: Lecture(In person) Requirement Group: Restricted to undergraduate nursing students. Room Requirements: Electronic Classroom(1) GNUR 320(3) Course ID:003361 01-JAN-1901 Clinical Nursing Elective This course is designed to provide an opportunity for beginning senior-level students from baccalaureate nursing programs to investigate and develop a self directed learning activity in relation to clinical practice in an acute care setting. Students gain knowledge and experience in the application of the self-directed learning process. Students also have the opportunity to enhance their skills in the clinical setting. Patient care resources and current issues in nursing are assessed and discussed in weekly seminars. (Majors only) Laboratory Components: Requirement Group: Restricted to Nursing students. Room Requirements: General Classroom(1) Course ID:003362 GNUR 324(2) 01-JAN-1901 Spiritual Dimen Nrsg Pract This course provides an opportunity to explore aspects of nursing care from the perspective of the personal quest for meaning. Various spiritual traditions are examined in light of hope and meaning. Students explore their own spiritual journey, their own beliefs and how they can give nursing care to the distressed spirit within the nursing process. Components: Lecture Room Requirements: General Classroom(1) GNUR 325(1 - 3) Course ID:003363 15-JAN-2004 х Selected Topics: This course will provide the student with content knowledge specific to particular areas of nursing. Topics may include peer teaching, critical care, emergency, high-risk childbearing families, community health, oncologic, rehabilitation, gerontologic nursing, or comparative health systems including international study. Components: Lecture Requirement Group: Restricted to Nursing students. Room Requirements: General Classroom(1)

School of Nursing - General Nursing - Subject: General Nursing

GNUR 327(3) Course ID:012479 01-OCT-2012 Introduction to Spiritual Care Spiritual Care is essential to providing quality nursing care. This course is focused on the nurse as integral to the care of the whole person. Historical, theoretical and practical perspectives of providing spiritual care are discussed as well as the nursing process, cultural considerations, therapeutic use of self, and most frequently used nursing interventions related to spiritual care. Outcomes: Discuss professional mandates for spiritual care. Explain importance of fostering personal spiritual self awareness in caring for spirit of the patient, family and community. Integrate elements of spiritual assessment into overall assessment of a patient. Use prayer to comfort patients. Define suffering and relationship to spiritual care. Components: Lecture(Online) Tier 2 Theological Knowledge Attributes: Requirement Group: Restricted to Nursing students. Room Requirements: Classroom Not Needed(1) 01-JAN-1901 GNUR 330(3) Course ID:003364 Alternative Methods of Healing Holistic health and selected alternative methods of healing will be explored. The focus will be on viewing health as a state in which the human body, mind and spirit are integrated. Components: Seminar Room Requirements: General Classroom(1) GNUR 331(3) Course ID:003365 15-MAR-2006 Theory of Knowledge Developments in epistemology from ancient to modern times and the foundational questions of methodology for research in the field of nursing science are examined. Outcome: Students will gain a deepened understanding of the history of epistemology, of what is ""scientific"" about scientific knowledge, and of some of the challenges in making truth claims in the natural and social sciences. Components: Seminar Room Requirements: General Classroom(1) GNUR 338(2 - 3) Course ID:003366 24-AUG-2011 Physical Assessment Prerequisites: GNUR 208, GNUR 293 / Restricted to Nursing students This course offers an experience through didactic material and simulated clinical practice to develop a beginning level of skill for physical assessment. Outcome: The student will be able to obtain and record a complete patient data base, identify nursing and medical problems so a plan can be affected to meet the health care needs of the client and facilitate communication with health care professionals. Lecture Components: Requirement Group: Prerequisites: GNUR 238, GNUR 293 / Restricted to Nursing students **Room Requirements:** General Classroom(1) GNUR 338A(3) Course ID:010081 12-JAN-2016 Physical Assessment for R.N.s Restricted to Graduate Nursing students. This course prepares students to conduct comprehensive health assessments. Students are provided experiential learning opportunities to demonstrate competency in health assessment. Emphasis is placed on the physical, psychological, social, cultural, spiritual, and economic dimensions of health and wellness, and the identification of real and potential patient health and wellness problems. Components: Laboratory(In person) Requirement Group: Restricted to undergraduate nursing students. Room Requirements: Lab - Nursing(1) GNUR 338L(1) Course ID:009908 29-MAR-2006 Physical Assessment Lab

| Research Internship This course provides an opportunity for the student to undergo a mentored experience in scientific inquiry. With the Course Director, students will identify a faculty mentor who has an active program of research and can provide an environment for a mentored experience in scientific investigation. The student and faculty mentor will mutually develop achievable objectives with measureable outcomes. This experience can encompass a broad range of research activities that span the scope of scientific investigation. Successful completion of the internship will provide the student with an experiential base of research, which will enhance their knowledge and skills in the conduct of research and facilitate their socialization into the multifaceted role of an investigator. Components: Independent Study(Independent Study) Requirement Group: Restricted to Graduate Nursing or Graduate School students. | | | | |

GNUR 542(1) Course ID:011296 12-NOV-2013

Grantsmanship Prerequisite: GNUR 512 and GNUR 513.

This course provides students with a basic understanding of the research grant application process. The overarching objective is to foster fundamental skills and strategies needed to prepare and submit a competative research grant proposal. Emphasis is placed on the means by which to best position a research grant application for success. Sources and types of funding from governmental agencies, private foundations and professional societies are considered, with an emphasis on federal (NIH, AHRQ) grant programs, mechanisma, application and review process. Key aspects of successful proposal development from conceptualization of an idea or research question to submission of the application is fully developed and explored. Strategies for successful writing of each component of a research grant are provided using examples **Components:** Lecture

HSM 110(3) Course ID:009913 15-JUN-2013

The course is comprised of two credit hours of classroom/didactic content and one credit hour of service. This course provides an introduction to the healthcare system, orienting the student to its overall structure, functions, and processes. The variety of roles and functions within the different segments of the health care industry are identified to assist the students in considering his/her potential area of specialization and ultimate career path. The description and possible roles within various health systems positions are defined including the roles and functions of administrators, including boards of directors in health agencies, systems and organizations. Service credit is achieved through volunteering at a selected health care agency.

HSM 210(3) Course ID:010171

Course ID:010039

Course ID:010040

This course will provide students with the opportunity to compare and contrast contemporary problems in health services policy and delivery in developed and developing nations. Students will analyze national performance from a financial, management, government, private sector and public policy perspective. The course will assist students to obtain a more complete understanding of the problems and possible solutions to U.S. health system inefficiencies and inequities by seeking an international perspective. Inefficiencies and inequities of other nations will be identified and ideas that have worked to increase access and quality of health services will be described.

HSM 220(3)

Aging in America

The focus on this course is the phenomena of `Aging in America¿. With our ever growing aging population, it is important to understand the aging process, how the aging population affects society and how society can promote well-being for our `agewise; citizens. The impact of the aging population on the healthcare system and the unique health needs of this population will be examined. Emphasis will be placed on options for long term care and the treatment of chronic illness. The diversity of the aging population and the myths and stereotypes of aging will be explored. Discussions will address psychosocial and physical issues, financial resources, legal and ethical issues as well as social justice concerns related to care of the elderly, public policy and services, and the potential vulnerability of the aged.

HSM 230(3)

Health Care Vulnerable Populations

(pre-requisite: GNUR 207) (Spring, Junior)

This course will provide students with an examination of health status and health access issues among diverse, vulnerable populations in the United States. The primary objective of the course is to build on previous content related to the policies, epidemiological, cultural, and linguistic factors that influence the etiologies of diseases within vulnerable subpopulations and contribute to health disparities. The approach will serve to analyze the health care access problems faced by vulnerable populations that constrain efficient management of services and equitable delivery of health care. This course will concentrate on filling the void that exists surrounding the lack of information available for those concerned with the health access and status of vulnerable populations in the United States. In addition, students will also benefit from learning the importance of linguistically appropriate considerations regarding health care. This

Management of Health Care Organizations Restricted to HSM Majors, HSM Minors, Nursing Students or Dept. Permission required.

This course is designed to provide students with an in-depth understanding of the complexity and unique features of managing health care organizations in the United States. The management roles of planning, organizing, directing, and controlling will structure the exploration of managing healthcare resources within the framework of Cost-Access-Quality. Management theories and the influence of ethical/social justice issues over management decision making will be discussed. This course focuses on the human resource management process, which includes recruitment, placement, training and competency development, performance monitoring and evaluation, and counseling. Particular emphasis will be placed on the importance of the development of an increasingly diverse workforce in assuring culturally competent care and quality outcomes.

COMM 254(3) Course ID:011923 04-JAN-2016 Literary Journalism This course familiarizes students with literary techniques in journalism and traces the influence of past writers on contemporary writers. Students look at ethical issues raised by the juncture of fiction with fact. Students learn to use literary techniques, rigorous factual reporting, interviewing, and enhance their own writing. Components: Lecture Requirement Group: Prerequisite: COMM 175 & COMM 205 **Room Requirements:** Electronic Classroom(1) COMM 256(3) Course ID:002097 04-JAN-2016 Broadcast News This course introduces basics of broadcast news and broadcast writing style. Students learn script writing and formatting, an introduction to radio and TV reporting, standard terms and basic newscast production, and an introduction to the studio. This course also provides a foundation for more advanced courses in the broadcast curriculum. Outcome: Students gain experience writing for radio and TV news, as well as basic knowledge of the broadcast news industry and contemporary issues pertinent to the field. Lecture Components: Requirement Group: Prerequisite: COMM 205 Room Requirements: Electronic Classroom(1) COMM 257(3) Course ID:002098 04-JAN-2016 Radio/TV Writing This is an intensive theory/skill course, including a variety of electronic media writing experiences: commercials, news, documentaries, continuity, and drama. Outcome: Selected written exercises by students may be produced by concurrent departmental radio and video production courses. Components: Lecture Film & Digital Media Studies, International Film & Media Studies Attributes: Requirement Group: Prerequisite: COMM 175 & COMM 205 **Room Requirements:** Electronic Classroom(1) COMM 258(3) Course ID:011747 01-JAN-2014 Game Studies This course examines games and their complex role within contemporary culture. Games are approached as ""texts"" that can be ""read"" using a variety of theoretical lenses. Students will explore what games say about the nature of identity, community presence, learning, and communication and reflect on their own experience in a blog. Components: Lecture(In person) Film & Digital Media Studies, International Film & Media Studies Attributes: Requirement Group: Prerequisite: COMM 200 Room Requirements: Electronic Classroom(1) 04-JAN-2016 COMM 259(3) Course ID:002100 News Editing This course examines problems and methods of copy editing, design and typography, and newspaper management and competition. Outcome: Students will gain experience with production skills in the print medium. Components: Lecture Requirement Group: Prerequisite: COMM 175 Room Requirements: Electronic Classroom(1) Course ID:012468 COMM 261(3) 12-NOV-2013 Sociable Media Prerequisites: COMM 200 Starting from the foundation of traditional offline business and social communities and communication, this course will show how the real relationships of online business and social communities use content to build personal and business success at the speed and reach of the Internet. Outcomes: Articulate how the Internet and social media has changed the way we produce and consume content and how social media has affected the way we work, shop, and interact online and off. Components: Lecture(In person)

Requirement Group: Prerequisite: COMM 200 Room Requirements: Electronic Classroom(1)

COMM 262(3) Course ID:002102 04-JAN-2016 Feature & Opinion Writing This course examines methods of researching and writing editorials, commentaries, and features for print media. Outcome: Students will broaden their research and writing skills. Components: Lecture Requirement Group: Prerequisite: COMM 175 & COMM 205 Room Requirements: Electronic Classroom(1) COMM 263(3) Course ID:002103 04-JAN-2016 Introduction to Design and Editing Introduction to Design and Editing is an introduction to information processing and readership, and basic principles of layout and editing. Students experiment with a variety of printed formats and practice copy fitting, typography, and photo-editing. Lecture Components: Requirement Group: Prerequisite: COMM 175 Room Requirements: Lab - Computer(1) 15-JUN-2014 COMM 264(3) Course ID:011924 Sports Reporting & Writing Modern sports journalism is much more than covering games and reporting scores. Today's sports reporting also involves money, media and social trends. In addition to teaching students how to cover a game this course will also teach important research, reporting and writing skills to tackle issues from college recruiting, to concussions to performance enhancing drugs. Outcome: Students will learn to conduct journalistic research, interviewing techniques, writing news and feature articles on sports. Components: Lecture(In person) Requirement Group: Prerequisite: COMM 205 Room Requirements: Lab - Mac(1) COMM 265(3) Course ID:012884 15-JUN-2014 Sports Broadcasting This course will teach students how to report and produce broadcast stories about athletes and athletic events. Students will have access to players and coaches on the professional and collegiate levels, attending games, practices and training. Students will learn to produce stories for radio and television, as well as sound broadcast presentation skills. Outcomes: Students will learn to conduct journalistic research, interviewing techniques, public speaking skills and how to produce stories for radio and television. Lecture(In person) Components: Room Requirements: Lab - Mac(1) COMM 266(3) Course ID:013082 15-JUN-2016 Creative Thinking and Problem Solving This course deals directly with your ability for creativity which is a critical skill in any field. It focuses on divergent thinking, the ability to develop multiple ideas and concepts to solve problems. Outcomes: Through a series of creativity building exercises, short lectures, and readings, learners develop both an understanding of creativity and increase their own ability. Lecture(In person) Components: Requirement Group: Pre-requisite: COMM 214 (minimum grade C-) Room Requirements: Electronic Classroom(1) COMM 267(3) Course ID:002107 04-JAN-2016 Business Reporting

This course analyses of the writing, editing, and production of both internal and external organizational publications, including newsletters, magazines, reports, manuals, brochures, and promotional materials. The emphasis is on effective writing, research, design, and support of organizational objectives.

Outcome: Students will broaden their production, research and writing skills for trade publications.

COMM 323(3) Course ID:011913 15-MAR-2016

Remixing Culture This course explores the remix culture as cultural exchange. While studying about remix culture and collaborative process, students will manifest projects that involve mashing up media using various web-based and mobile media creation, web-based editing, live online broadcasting and sharing and techniques of online presentation.

Outcome: Students will learn about the intermixing of cultures through individual projects in which they will combine different types of media. Lecture(In person) Components: Course Equivalents: ICVM 323 Attributes: Film & Digital Media Studies, International Film & Media Studies

Requirement Group: Prerequisites: COMM 100 & 200 OR Masters Digital Media and Storytelling Masters students. Room Requirements: Electronic Classroom(1)

Course ID:002123 15-OCT-2015

Film Genre

COMM 324(3)

Prerequisites: COMM 100, COMM 274 or Instructor permission; also open to Digital Media & Storytelling graduate students.

This course offers an in-depth analysis of film genres, their conventions, and /or cultural functions (e.g. documentary film noir, science fiction). Selected film viewing is a catalyst for analyzing the relations between ideology, authorship, and storytelling. May be repeated with different topic for a total of 9 hours but only 6 may count towards the major.

Outcome: Students will be able to demonstrate knowledge what constitutes a genre and the varied approaches used to analyze films within the context of genre studies. Lecture(In person) Components:

Course Equivalents: ICVM 324 Film & Digital Media Studies, International Film & Media Studies Attributes: Requirement Group: Prerequisites: COMM 100 & 274 or Digital Media & Storytelling graduate students. **Room Requirements:** Electronic Classroom(1)

Course ID:010551

COMM 326(3) Screenwriting

This course introduces students to the process of writing for the screen. Through exercises and analysis of structure and storytelling fundamentals, students will develop a working sense of the art of crafting a screenplay, learning how to build a script, step by step, from an original and compelling idea.

01-JAN-2016

Prerequisite: COMM 202

Outcome: Extensive writing requirements cover all aspects of screenwriting, from creating a treatment and character bios to writing action and dialogue, culminating in the development of a detailed step outline and polished first act of a feature-length script (20+ pages). Students are required to bring an original movie idea to the first class.

Lecture(In person) Components: Course Equivalents: THTR 209 Film & Digital Media Studies, International Film & Media Studies Attributes: Requirement Group: Prerequisite: COMM 202 Req. Designation: Writing Intensive Room Requirements: Electronic Classroom(1)

COMM 327(3) Course ID:011748 15-OCT-2015 New Media Campaigns Students will create integrated digital campaigns for real-world clients in this class, combining techniques from the fields of marketing, advertising and public relations. Students will present and discuss contemporary tactics in a seminar format, then apply appropriate tactics to their client campaigns. Components: Lecture Requirement Group: Prerequisites: COMM 100, 210 & 211; Graduate students majoring in Digital Media & Storytelling or Glob Room Requirements: Electronic Classroom(1)

School of Communication - Communication - Subject: Communication

COMM 401(3) Course ID:012971 15-JUN-2015

Foundations of Global Strategic Communication This course delves into two areas impacting communicators; success in the global arena: new media and culture. Through a blend of class discussions, interactive activities and guest speakers, students will study frameworks for strategic communication in a global environment and then apply these lessons in group and individual projects.

Enrollment limited to students in GSCM-MS Program.

Students are expected to understand fundamental concepts in strategic communication, be able to identify and explain the role of strategic communication in the global business context, understand the importance of dialogue and engagement, and have the ability to construct effective messages.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 402(3) Course ID:012972 15-JUN-2015

Organizational Leadership and Change Management

Students will examine best practices in organizational leadership and change management. Students will also be introduced to major economic, financial and business principles and the terms, concepts and values that guide organizations. Finally, will gain insights that will enable them to work more effectively as communicators and organizational leaders.

Enrollment limited to students in GSCM-MS Program.

Students are expected to gain knowledge and leadership skills needed to help organizations chart a successful course through change. They are also expected to understand the major drivers of organizational change; the role leadership plays in anticipating, planning and navigating organizational change.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 403(3) Course ID:012973 15-JUN-2015 Strategic Communication Research Methods

This course is designed to provide students with a critical framework for evaluating communication research and first-hand experience in the research process. Specifically, we will examine how research questions, originating from client-specific interests, are translated into a research project.

Enrollment limited to students in the GSCM-MS Program.

Students are expected to know how to read and evaluate a research study, select appropriate research
questions, develop measurements, draw a sample, collect and analyze data and interpret the results.
Components: Lecture(In person)
Requirement Group: Restricted to Masters students in Global Strategic Communication.
Room Requirements: Electronic Classroom(1)

COMM 405(3)

Narrative Communication Techniques This course will give students a basic understanding of narrative theory and its evolution. It will also emphasize the idea that telling a good story begins with having something to say and a purpose for telling it to someone. Students must be enrolled in SOC Professional Degree Program MC in Digital Storytelling. Outcomes: Students will read, write and practice narrative techniques on electronic modes of communication

while learning about narrative structure, content and form of delivery. Components: Lecture(In person)

Course ID:012164

Requirement Group: Restricted to the Master of Communication, Digital Media and Storytelling program. **Room Requirements:** Electronic Classroom(1)

COMM 411(3) Course ID:012974 15-JUN-2015

This course explores various approaches to ethical decision-making and applies them to diverse aspects of strategic communication in professional settings. Students will learn to discern a wide variety of ethical issues concerning communication behavior, apply systematic ethical analysis to various business situations, and clearly explain their analyses.

Enrollment is limited to students in the GSCM-MS Program.

Students will have learned fundamental ethical principles and decision-making processes, examined some of the most pressing ethical issues facing strategic communicators and applied course material to specific strategic communication decisions.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 412(3) Course ID:012975 15-JUN-2015

Communication Content Mining and Analytics

Writing for Strategic Communication

Strategic Communication Ethics and Law

This course is for students interested in learning practical data analysis/data mining techniques in strategic communication. A useful takeaway from the course will be the ability to perform powerful data analysis using popular statistic packages (e.g., R, SPSS, Excel) and web analytics (e.g., Google Analytics).

Enrollment limited to students in the GSCM-MS Program.

Students are expected to increase their critical thinking ability to assess the quality of consumer information and the limitations of online data. They will become familiar with frequently used data analysis tools.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

Course ID:013086

COMM 413(3)

This advanced writing intensive course engages students in the strategic process of professional-level writing by focusing on communication objectives, cultural differences among audiences, techniques, style and mechanics. Students will learn the importance of planning, research, pre-writing, editing and rewriting in the writing process.

15-JUN-2015

Restricted to Global Strategic Communication Students

Outcomes: The course also provides practical, real world writing experience in diverse formats for a wide range of audiences, including memos, proposals, creative briefs, executive speeches, op-eds, fact sheets, news releases, blogs and other social media.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 415(3) Course ID:012166 04-JAN-2016

Research Methods: Discovering and Investigating Stories

This course focuses on how and where to discover compelling story ideas utilizing investigative methods to cultivate original points of view for digital presentations.

Outcomes: Students learn to use records and data mining techniques to analyze information and cultivate stories to be told in digital formats.

Components:Lecture(In person)Requirement Group:Restricted to the Master of Communication, Digital Media and Storytelling program.Room Requirements:Electronic Classroom(1)

COMM 420(3) Course ID:012167 04-JAN-2016

Digital Production: Telling Stories
This lab-based course will introduce students to production techniques for digital storytelling. Students
will acquire knowledge of videography, sound recording, video and audio editing, web design and
interactivity.
Outcomes: Students will find compelling stories, set scenes and use narrative techniques to craft
influential stories designed for professional purposes in advertising, journalism or documentary production.
Components: Laboratory(In person)
Requirement Group: Restricted to the Master of Communication, Digital Media and Storytelling program.

04-JAN-2016

COMM 421(3)

This two-week course will offer in-depth reading, case studies, and discussion in specialized areas dealing with current issues in global strategic communication.

Enrollment limited to students in the GSCM-MS Program.

Topics in Global Strategic Communication

Students will develop in-depth knowledge of a current issue or opportunity in global strategic communication, become acquainted with how and where local strategic communicators work, and examine the differences and similarities in how strategic communication is defined and practiced in different countries.

Components: Lecture(In person) Requirement Group: Restricted to Masters students in Global Strategic Communication. Room Requirements: Electronic Classroom(1)

Course ID:012976

COMM 422(3) Course ID:013087 15-JUN-2015 Global and Multicultural Audiences and Stakeholders

In this course students will investigate various audiences in today¿s global marketplace that organizations need to consider to remain relevant. The course will explore the concept of globalization and how, as a dynamic and uneven process, it requires practitioners to understand global and local audiences and those influenced by multiple cultures.

Restricted to Global Strategic Communication Students

Outcomes: The goals of the course are to learn to be sensitive to a variety of cultures; recognize particular values, needs, and behaviors; and craft messages that connect and engage.

Components: Lecture(In person) Requirement Group: Restricted to Masters students in Global Strategic Communication. Room Requirements: Electronic Classroom(1)

Course ID:012473

COMM 425(3)

Audiences and Distribution

This course will explore online audience behavior and measurement. Students will use analytics to understand user activities and to drive improvements in distribution performance. In the course of their development, students will come to understand intellectual property protection, self-publication, bandwidth issues, usability, file formats, social sharing, security, syndication and mobile delivery.

Outcomes: The overall objective of this course is for students to understand digital audience behavior and the legal, marketing and economic environment for finding ideal audiences and distributing digital content. Lecture(In person) Components: Requirement Group: Restricted to the Master of Communication, Digital Media and Storytelling program.

COMM 432(3) Course ID:013088 15-JUN-2015

This course examines the principles and best practices of strategic communication for nonprofit organizations. Increasingly, leaders of forward-looking nonprofits are realizing what their counterparts in the corporate world have long known: that strategic communication is critical to furthering their mission and goals.

Restricted to Global Strategic Communication Students

Outcomes: Students will learn and apply strategies that nonprofit organizations can use to effectively tell their story, implement a robust social media presence, identify potential partnerships and alliances with corporations and government agencies, strengthen fundraising efforts and prepare for possible crises. **Components:** Lecture(In person)

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 433(3) Course ID:013089 15-JUN-2015

Corporate Communication

Nonprofit Communication

This course develops a multiple stakeholder approach to managing the communication function in corporations. Management topics include developing a communication plan, budgeting, creating a communications calendar, working with agencies and other external resources, project management and evaluation.

Restricted to Global Strategic Communication Students.

Outcomes: At the end of the course, students are expected to understand how the communication function is organized in corporations and non-governmental organizations (NGOs).

Components: Lecture(In person)

Requirement Group: Restricted to Masters students in Global Strategic Communication. **Room Requirements:** Electronic Classroom(1)

COMM 434(3) Course ID:013090 15-JUN-2015

Business-to-Business Communication

Public Affairs and Issues Management

The robust business-to-business (B2B) sector provides enormous opportunity in the global marketplace. This course will explore B2B¿s unique set of challenges that strategic communicators need to consider in developing and delivering effective messages.

Restricted to Global Strategic Communication Students.

Outcomes: Students are expected to gain a working knowledge of the theories, concepts, and issues of in B2B communication.

15-JUN-2015

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

Course ID:013091

COMM 435(3)

The course explores how to predict and identify emerging issues, which can proliferate rapidly through digital and social media; accurately assess the potential threat posed by issues; and plan and implement effective response to prevent issues from growing into crises.

Restricted to Global Strategic Communication Students.

Outcomes: At the end of the course, students will understand the role of the public affairs function in organizations, know how to monitor for and identify emerging issues and to build a firewall to make organizations less vulnerable to attack.

Components:Lecture(In person)Requirement Group:Restricted to Masters students in Global Strategic Communication.Room Requirements:Electronic Classroom(1)

COMM 436(3) Course ID:013092 15-JUN-2015

Crisis and Risk Communication

This course explores both the practical and theoretical aspects of crisis communication through case studies, guest presentations and hands-on class exercises. It also examines real world organizational crises and how and why communication helped or harmed the situation.

Restricted to Global Strategic Communication Students.

Lecture(In person)

Outcomes: At the end of the course, students are expected to understand the key elements of crisis communication and have the basic skills, tools, and confidence needed to help manage an organizational crisis.

Sch of Cont/Prof Studies - Paralegal Studies - Subject: Institute of Paralegal Studies

PLST 331(2) Course ID:007260 01-AUG-2014

Introduction to Paralegal Studies Required of all students in their first session of study.

An introduction to the function and sources of American law (including the U.S. Constitution), the American legal system, the civil litigation process, and legal practice, focusing on the role of the paralegal. Trends in the paralegal field, including regulation and career issues.

Outcomes: Students will recognize typical paralegal responsibilities in various areas of legal practice and be aware of recent developments in the field, especially regulatory proposals affecting paralegals. Components: Lecture(In person)

Requirement Group: Restricted to Paralegal Studies Students. **Room Requirements:** General Classroom(1)

PLST 332(2) Course ID:007259 01-AUG-2014 Legal Research and Writing I Required of all students.

An introduction to the fundamentals of legal research, focusing on locating, analyzing and updating case law (court opinions). Practice in researching case law in hard copy and online, and in writing case briefs.

Outcomes: Students will be able to use various reference books and online services (LEXIS and WESTLAW) to locate, analyze, and update case law, and will be able to write case briefs. Components: Lecture(In person) Requirement Group: Restricted to Paralegal Studies Students. Room Requirements: General Classroom(1)

PLST 333(2) Course ID:007261 01-AUG-2014

Legal Research and Writing II Prerequisite: PLST 332. Required of all students.

Further instruction in legal research skills, focusing on locating, analyzing and updating statutory and administrative law. Practice in researching statutory and administrative law in hard copy and online. Drafting routine legal correspondence.

Components:Lecture(In person)Requirement Group:Pre or Co-requisite: PLST 332Room Requirements:Electronic Classroom(1)

PLST 334(2) Course ID:007262 01-AUG-2014 Legal Research and Writing III

Prerequisites: PLST 332 and PLST 333.

PLST 335(2)

Legal Ethics

Review of legal research techniques and development of basic research strategy. Practice in analyzing legal authority and developing a legal argument. One or more research memoranda are assigned; outlines and rewrites are required.

Components:Lecture(In person)Requirement Group:Pre or Co-requisite: PLST 332 and PLST 333Room Requirements:Electronic Classroom(1)

Course ID:007263 01-AUG-2014

Prerequisite: PLST 331. Required of all students.

Ethical considerations in the practice of law that paralegals are likely to encounter, especially the unauthorized practice of law, client confidentiality and conflicts of interest. Review of ethical codes for attorneys and paralegals.

Components:Lecture(In person)Requirement Group:Pre or Co-requisite: PLST 331Room Requirements:General Classroom(1)

PLST 336(2) Course ID:007264 01-AUG-2014 Corporate Topics for Litigation Paralegals

Required for the Litigation Practice Certificate.

An introduction to the basic principles of agency law, contract law, and the forms of business organizations: sole proprietorships, partnerships (general, registered limited liability and limited), limited liability companies, and corporations.

Required for Corporate Practice Certificate (Water Tower Campus and Cuneo Cohort).

This course focuses on both common-law and Uniform Commercial Code (UCC) Article 2 contracts. The elements of a valid contract will be studied, as well as standard contractual provisions and basic principles of contract interpretation. Students will work with several sample contracts: a confidentiality/nondisclosure agreement, a licensing agreement, and a general trade agreement.

Components:Lecture(In person)Requirement Group:Restricted to Paralegal Studies Students.Room Requirements:General Classroom(1)

PLST 364(2) Course ID:012422 01-AUG-2014

Topics in Corporate Practice Pre-requisite: PLST 362 Business Organizations.

This course provides an overview of laws relating to business operations, including secured transactions (Uniform Commercial Code Article 9), federal bankruptcy law, and employment law. Compliance with various regulatory requirements will also be covered.

Components:Lecture(In person)Requirement Group:Prerequisite: PLST 362 Business Organizations; PLST CohortRoom Requirements:General Classroom(1)

| PLST 365(2) Course ID:012423 01-AUG-2014 Survey of Intellectual Property |
|---|
| This course introduces the terminology, basic principles, and documentation requirements of patent, trademark, copyright, and trade secret protection. Application/registration procedures and infringement disputes are also covered. Components: Lecture(In person) Requirement Group: Restricted to Paralegal Studies Students. Room Requirements: General Classroom(1) |
| PLST 366(2) Course ID:012424 01-AUG-2014 Litigation & Investigation for Corporate Paralegals Required for Corporate Practice Certificate (Water Tower Campus and Cuneo Cohort). |
| This course introduces the civil litigation process in state (Illinois) and federal courts, from the initial phases of pre-litigation investigations and pleadings through the discovery, trial, and post-trial phases. Technological innovations affecting civil litigation, such as electronic court filing and e-discovery procedures, will be given special emphasis. Components: Lecture(In person) Requirement Group: Restricted to Paralegal Studies Students. Room Requirements: Electronic Classroom(1) |
| PLST 367(2) Course ID:012425 01-AUG-2014 E-Discovery & Litigation Support Technology Pre-requisite: PLST 366 Survey of Civil Litigation. |
| This course continues the study of the civil litigation process, incorporating hands-on instruction in electronic filing and litigation support software programs (e.g., Concordance, Westcheck). Components: Lecture(In person) Requirement Group: Prerequisite: PLST 366 Survey of Civil Litigation; PLST Cohort Room Requirements: Lab - Computer(1) |
| PLST 368(2) Course ID:012934 01-AUG-2014 Corporate Compliance Topics Prerequisites: PLST 362 or PLST 336 01-AUG-2014 This course provides an overview of various regulatory provisions applicable to the financial services industry, including the Anti-Money Laundering (AML) and Business Continuity Plans (BCP) rules, the Foreign Corrupt Practices Act, and insider trading prohibitions. Compliance with the requirements of these laws will be the focus of the course. |
| Outcomes: Students will learn practices and procedures to monitor and document compliance with these laws. Components: Lecture(In person) Requirement Group: Prerequisite: PLST 336 or PLST 362 Room Requirements: Electronic Classroom(1) |
| PLST 369(3) Course ID:012936 08-FEB-2016 Advanced Topics in American Law Enrollment is limited to students in the B.A. in PLST degree program. |
| This course will build on students' knowledge of the American legal system, examining the role of law in 21st century American society. The course will focus on the interpretation of selected portions of the U.S. Constitution and their effect on American life. |
| Outcomes: Students will learn how the U.S. Constitution governs the American legal system and protects individual rights. Components: Lecture(In person) Requirement Group: Restricted to BA in PLST students Room Requirements: Electronic Classroom(1) |
| PLST 370(3) Course ID:012937 15-JUN-2015 Advanced Legal Analysis & Writing I Enrollment is limited to students in the B.A. in PLST degree program. |
| This course will provide students with extensive practice in reading and summarizing case law, with particular attention to the rationale for court decisions and the use of precedent, as well as statutory and administrative law. This course will focus on analysis rather than retrieval of legal reference sources. |
| Outcome: Students will learn how to prepare summaries of court decisions, statutes, and administrative regulations. |

Components:Lecture(In person)Requirement Group:Enrollment limited to students in the B.A. in PLST degree program.

Introduction to Social Work

Loyola University Chicago

Page No. 1249 of 1274

Course Catalog

Run Date: 04/01/2016 Run Time: 11:35:41

School of Social Work - Social Work - Subject: Social Work

SOWK 200(3) Course ID:006536 15-APR-2014

This course is an introduction to the social work profession through the identification of some of the human problems in society and the role of both society and social services in response to the problems. Students have the opportunity to observe several social service agencies and to evaluate current ways in which agencies interpret social problems and administer services

Students will be able to evaluate current ways in which agencies interpret social problems and administer services.

Components:LectureAttributes:Engaged LearningReq. Designation:Service LearningRoom Requirements:General Classroom(1)

SOWK 201(3) Course ID:006537 15-APR-2014 Social Welfare and Social Work I

Prerequisites: Sophomore standing or by permission from chairperson

This course examines social welfare problems, the system of social welfare, and its interrelationships with direct practice and the delivery of services. Particular emphasis is placed on the examination of different political and economic conceptions, as well as the ways in which they shape social programs and social work practice.

Students will be able to describe and analyze current social welfare policies and social services within a historical, societal and political context.

Components:Lecture(In person)Course Equivalents:URB 201Attributes:CORE PRE-2012 Societal and Cultural Literacy, Human Services, Urban StudiesRequirement Group:Pre-requisite: Sophomore standing or above.Req. Designation:Writing IntensiveRoom Requirements:Electronic Classroom(1)

SOWK 205(3)Course ID:00653815-JUN-2014Children and Youth:Systems and ServicesSurvey of the field of child welfare with consideration of various social services. Particular focus on
abused and neglected children, foster care, adoption, and institutionalization.

Outcome: Students will be able to assess and analyze child welfare services within current political and social constraints.
Components: Lecture

 Attributes:
 Human Services

 Room Requirements:
 General Classroom(1)

SOWK 301(3 - 4)Course ID:00654015-JUN-2014Social Work with Individuals and Families IPrerequisites: SOWK 200 and Junior standing.

Theory for social work practice is studied, using an integrated social systems and biopsychosocial model. The student is introduced to the profession through its history, its conceptual development and through an examination of the values, knowledge and skills which characterize it. The course content focuses on the worker/client relationship and development of assessment, intervention and evaluation skills.

Students will understand a generalist practice methodology as evaluated from its applicability to social problems and various social service settings.

School of Social Work - Social Work - Subject: Social Work

SOWK 303(3) Course ID:006542 15-JUN-2014 Social Work Groups

Prerequisites: SOWK 200 and Junior standing.

This course presents theoretical approaches to social work with small groups, with particular emphasis on the dynamics of small group process and appropriate worker intervention.

Students will understand and be able to apply the theoretical and practical elements that influence group functioning.
Components: Lecture

Room Requirements: General Classroom(1)

SOWK 305(3) Course ID:006543 13-JAN-2016

Human Behavior Social Environment I

Prerequisites: Junior standing, SOWK 200; PSYC 101; NTSC 103 or equivalent; or permission of the department chair.

This course studies the life cycle of the individual from in utereo through old age and death from a biopsychosocial perspective via multiple theorectical frameworks. Individual growth and development is studied in the context of culture, race, ethnicity, social class, gender, families and other social system as well as the impact of trauma, loss, and environmental stressors on the individual and family.

Students will understand how social systems theory explains social functioning, the effects of systems of all sizes on human interaction, and how these apply to social work practice.

Components:LectureAttributes:Human ServicesRoom Requirements:General Classroom(1)

Policies and Strategies of Community Intervention

SOWK 307(3)

15-JUN-2014

Prerequisites: SOWK 201, SOWK 301; co-requisite, SOWK 330; or chair's permission.

Course ID:006544

This is a community organization theory and practice course for both the macro and micro levels. Basic models of community organization theory and practice are highlighted, including locality development, social planning, and social action as well as major policy issues that relate to communities. It also focuses on the historical base of community organization in America.

Students will understand the importance of a community and organizational needs assessment as a backdrop to designing policy interventions, strategies, and evaluation elements to measure effectiveness to constituencies.

School of Social Work - Social Work - Subject: Social Work

SOWK 501(3) Course ID:006560 01-MAR-2016 Human Behavior Social Environment II This course focuses on deepening the student's knowledge of human behavior. Maladaptive patterns of adult psychological functioning are examined. Lecture Components: Requirement Group: Prerequisite: SOWK 500; Or Restricted to Advanced Standing Students or 5-Year Social Work Students Room Requirements: General Classroom(1) SOWK 502(3) Course ID:006561 15-APR-2014 Ethnicity,Race & Culture This course explores diversity in a global environment characterized by color, ethnicity, culture, national origin, class, gender, age, religion, physical or mental ability, gender identity and sexuality. Students will effectively analyze and assess the cultural and institutional context of social justice issues. Lecture Components: Course Equivalents: IPS 620 Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1) SOWK 503(3) Course ID:006562 15-APR-2014 Social Work With Individual & Family I Prerequisites: Completion of Undergraduate Program, BSW Senior admitted to the 5-Year program Theory for social work practice is studied, using an integrated social systems and biopsychosocial model. The student is introduced to the profession through its history, its conceptual development and through an examination of the values, knowledge and skills which characterize it. The course content focuses on the worker/client relationship and development of assessment, intervention and evaluation skills. Components: Lecture Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1) 22-MAR-2016 SOWK 504(3) Course ID:006563 Soc Work With Indiv & Fams II This course is concerned with social work as intervention with clients. The focus of the course is on individualized treatment planning and execution, based on diagnosis and the social worker's disciplined use of professional skills. Components: Lecture Requirement Group: Prerequisite: SOWK 503; Or Restricted to Advanced Standing Students or 5-Year Social Work Students Room Requirements: General Classroom(1) SOWK 505(3) Course ID:006564 15-APR-2014 Social Work Groups Prerequisites: SOWK 503 or concurrent enrollment with SOWK 503 This course presents theoretical approaches to social work with small groups, with particular emphasis on the dynamics of small group process and appropriate worker intervention. Components: Lecture Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1) SOWK 506(3) Course ID:006565 15-APR-2014 Methods of Social Work Research Prerequisites: Statistics with a grade of C or higher. The social work profession depends on knowledge-generating activities using quantitative and qualitative methodologies. In recognition of these needs, this sequence is designed to enable students to prepare for three roles: 1) a competent evaluator of one's own practice and programs; 2) a responsible and critical consumer of social work research; and 3) an active participant in knowledge-generating inquiries. Components: Lecture Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1)

15-JUN-2014 SOWK 819(3) Course ID:006627 Department Consent Required Methods of Oualitative Research Enrollment Conditions: First Level Research Methodology Course in Doctoral Program. Social Work doctoral students only. This course provides an overview of the fundamentals of qualitative research. It provides a detailed consideration of knowledge and skills in qualitative inquiry. The science and paradigms for qualitative inquiry in social work are examined as well as principles for qualitative inquiry design including data collection, analysis, and writing. Outcomes: Students will be able to design and implement a qualitative research project with understanding of the various methods; ability to understand and apply various methods of data analysis; identify and apply Seminar(In person) Components: Requirement Group: Class restricted to Social Work Doctoral Students Room Requirements: Seminar(1) Course ID:006628 SOWK 820(3) 15-MAR-2006 Social Theory & Social Policy Prerequisite of co-requisite: 815. Focus is on social policy as a method of choosing alternative courses of action to achieve social goals and objectives. Accordingly, the course examines the relationship between means and ends in socio-behavioral science, variable definitions of problems, political considerations, value criteria, and other constraints on rationality. Students are able to analyze social policy as a problem-solving; method upon completion. Lecture Components: Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1) Course ID:006629 01-JAN-2014 SOWK 821(3) Research Practicum in Quantitative Methods Prerequisite: SOWK 818. This course occurs in the second year and builds on SOWK 818. Two research projects are completedquantitative and qualitative-that are self-initiated or faculty driven. The two semester course emphasizes methodology, development and acquisition of measurement tools, and quantitative and qualitative analysis. The desired outcome is a publishable paper. Components: Lecture Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1) SOWK 822(3) Course ID:006630 15-MAR-2006 Organizational Analysis Prerequisite or co-requisite: 815. The seminar examines developments in theories of human service or social benefit organizations. Issues explored include professional and bureaucratic models of organization, sources of incompatibility, patterns of accommodation in organization-client relations, interorganizational exchange relationships, and problems of program change/evaluation. Students complete the course understanding the context and grounding of practice and the meaning of work in a formal organization. Components: Lecture Requirement Group: Restricted to Graduate Social Work students. **Room Requirements:** General Classroom(1) 15-MAR-2006 SOWK 823(3) Course ID:006631 Sem Adv Theoretical Analysis Prerequisite: 819. This course assists students in applying principles of theory evaluation to theoretical issues in areas of their own special interest. The seminar draws on learning from core curriculum to examine clinical and research information gaps and/or controversies. Students complete the course having utilized peer learning and consultation with experts to give evidence of advanced theoretical analysis. Components: Seminar Requirement Group: Restricted to Graduate Social Work students. Room Requirements: General Classroom(1)
